## Veeam Certified Engineer VMCE V12 Exam With Complete Solutions 2024

Veeam Certified Engineer V12 (VMCE) Certification Answer: The VMCE certification is documented proof that an administrator or engineer has the necessary level of expertise to protect an organization's data with the Veeam Data Platform. The Veeam Certified Engineer V12 exam is a certification assessment designed to verify candidates meet the level of competence required for certification. The exam assesses knowledge of and ability to deploy, manage, and maintain scalable Veeam infrastructures and understand the key features and components of Veeam Data Platform. The exam has been developed in line with 12.0.0.1420 build capabilities.

Candidate Profile Answer: This certification is for anyone responsible for protecting data with Veeam Data Platform. To qualify for a Veeam certification exam, candidates must attend the Veeam Backup & Replication V12: Configure, Manage and Recover training course through a Veeam Authorized Education Center (VMAEC).

VMCE Exam Details Answer: The exam consists of 60 multiple choice items, 50 of which are scored. The Veeam Certified Engineer V12 exam uses a scoring scale of 300 – 900 with a cut score of 720. On completing the exam, candidates receive a score report. On achieving a passing score, candidates receive their certificate, digital badge, and priority access to technical support. Test takers have 75 minutes to take the exam. A 15-minute time extension is available when the exam is delivered in regions where the local language is not English. The exam is available in English (US). The exam is delivered through Pearson VUE test centers or on their Online Proctored Platform.

VMCE Exam Outline Answer: Core Concepts (27%)

Components & Functionality (20%)

Implementation (15%)

Operations (38%)

Preparation Tips To Pass The Veeam Certified Engineer VMCE\_v12 Exam Answer: 1. Familiarize yourself with the exam objectives and content: Take the time to thoroughly understand what topics and

For candidates who have little time to prepare for the exam, buying high-quality VMCE\_v12 exam materials is quite necessary. With the experienced professionals to edit, VMCE\_v12 exam materials of us are high-quality, and they will help you pass the exam and get the certificate just one time. You just need to spend about 48 to 72 hours on practicing, and you can pass the exam. We also pass guarantee and money back guarantee if you fail to pass the exam. We provide you with free update for 365 days if you purchase VMCE\_v12 Exam Materials from us.

## Veeam VMCE\_v12 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Enacting a recovery: This section is about getting practice in recovering various recoveries with diverse data.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Scale-out Backup Repository: This section of the exam covers the description of the architecture, placement policies, and data tiers.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>Virtual machine backup: This section of the exam covers protecting the VMware and Hyper V to safeguard VMware that follows SLAs.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>Recovery scenarios and features: This section covers the impact of various recovery procedures and choosing the most viable recovery technique.</li></ul>
Topic 5	<ul style="list-style-type: none"><li>Transport modes: This section aims to analyze different methods to collect and read data from the production environment.</li></ul>
Topic 6	<ul style="list-style-type: none"><li>Core components: This section of the exam covers exploring the functionality of Veeam Backup &amp; Replication and system requirements.</li></ul>
Topic 7	<ul style="list-style-type: none"><li>Verifying recoverability: This section of the exam covers the creation of automated tests to ensure recoverability from backups and replicas.</li></ul>
Topic 8	<ul style="list-style-type: none"><li>Backup copies: This section ensures the process of recoverability and adheres to the 3-2-1 Rule with backup copy processes.</li></ul>
Topic 9	<ul style="list-style-type: none"><li>Incident Response Planning: This section of the exam covers integrating Veeam Backup and Replication into the incident response strategy.</li></ul>
Topic 10	<ul style="list-style-type: none"><li>Unstructured data backup: This section is about highlighting vital features required to protect unstructured data.</li></ul>
Topic 11	<ul style="list-style-type: none"><li>Agent backup: This section of the exam covers the identification of protection groups for automating the installation of Veeam Agents.</li></ul>
Topic 12	<ul style="list-style-type: none"><li>Data protection strategies: This section of the exam covers an overview of data protection strategies.</li></ul>
Topic 13	<ul style="list-style-type: none"><li>Backup data optimizations: This section covers the need for object storage to be backed up and the supported object storage solutions while utilizing repositories.</li></ul>
Topic 14	<ul style="list-style-type: none"><li>Risk scenarios: This section covers exploring various risk scenarios and identifying the type of risks we may face in the environment.</li></ul>
Topic 15	<ul style="list-style-type: none"><li>Veeam Backup Enterprise Manager: The section describes the use cases for Veeam Backup Enterprise Manager.</li></ul>
Topic 16	<ul style="list-style-type: none"><li>Moving or copying backups: This section of the exam covers use cases for backup processes using VeeamMover.</li></ul>

## Veeam Certified Engineer v12 Sample Questions (Q53-Q58):

### NEW QUESTION # 53

Which of the following statements regarding the Backup from Storage Snapshots feature when backing up virtual machines from a VMware vSphere environment are true? (Choose two.)

- A. Lower impact on WAN link during off-site backups
- B. A virtual machine with one virtual drive on shared storage and another drive on local storage will be processes with Backup from Storage Snapshots transport mode
- C. Higher transfer speed from production NFS datastores
- D. A virtual machine with one virtual drive on shared storage and another drive on local storage will failover to a different transport mode
- E. Reduce the impact of consolidating VM snapshots

**Answer:** C,E

### NEW QUESTION # 54

A Veeam engineer needs to copy backup files from a Windows repository in Site A to a Linux repository in Site B. The WAN connection between the two sites is busy during business hours.

The engineer needs to configure a backup copy job to accomplish this task. Which feature of the backup copy job should be configured to avoid transferring data during business hours?

- A. Immediate copy
- B. WAN accelerator
- C. Backup Copy Window
- D. Periodic copy

**Answer:** C

### NEW QUESTION # 55

An administrator has decided to set up a VM backup job covering their Microsoft SOL servers. What feature must be enabled to ensure quiescence of the SQL databases during the backup?

- A. Enable application-aware processing
- B. Enable Microsoft SQL server plug-in
- C. Enable Microsoft Windows OS processing
- D. Enable Microsoft SQL server agent on the VMs

**Answer:** A

Explanation:

Explanation

According to the Veeam Agent for Microsoft Windows User Guide1, you need to enable application-aware processing to ensure quiescence of the SQL databases during the backup. Application-aware processing allows Veeam Agent for Microsoft Windows to create transactionally consistent backups of SQL Server VMs.

### NEW QUESTION # 56

Company security policy states that backups must be copied to a remote location within 8 hours.

What step can a backup administrator take to receive an alert automatically if the backup copy job violates the company's policy?

- A. Set a Data Protection alert in Enterprise Manager
- B. Enable the appropriate RPO monitor
- C. Set a backup copy window alert on the repository
- D. Set up post-thaw scripts to send an email

**Answer: B**

### Explanation:

To receive an automatic alert if the backup copy job violates the company's 8-hour policy for copying backups to a remote location, the backup administrator should enable the appropriate Recovery Point Objective (RPO) monitor. This feature tracks the age of the latest backup and alerts when it exceeds the defined RPO.

## NEW QUESTION # 57

In the war against ransomware, a company decided to implement tape backup. The infrastructure contains VMware VMs and physical Windows servers. What is the most efficient approach to getting all servers onto tape?

- A. Create backup jobs, then create file to tape jobs.
  - B. **Create backup jobs, then create backup to tape jobs.**
  - C. Create backup to tape jobs and write directly to tape.
  - D. Create file to tape jobs and write directly to tape.

**Answer: B**

### Explanation:

The most efficient approach to getting all servers onto tape, considering there are both VMware VMs and physical Windows servers in the infrastructure, is to first create backup jobs that target both the VMs and the physical servers. After these backups are stored on a disk-based repository, you can then create backup to tape jobs. This method leverages Veeam's ability to handle both types of environments and ensures that all data is efficiently backed up to tape for offsite storage and ransomware protection.

## NEW QUESTION # 58

By selecting our VMCE\_v12 training material, you will be able to pass the VMCE\_v12 exam in the first attempt. You will be able to get the desired results in VMCE\_v12 certification exam by checking out the unique self-assessment features of our VMCE\_v12 Practice Test software. You can easily get the high paying job if you are passing the VMCE\_v12 exam in the first attempt, and our VMCE\_v12 study guides can help you do so.
