

Latest CDFOM Practice Materials - Actual CDFOM Test Answers

P.S. Free 2026 EXIN CDFOM dumps are available on Google Drive shared by ExamDumpsVCE: https://drive.google.com/open?id=16PWcPILKKfODK30j3Slcuwoo-_1JYakD

Our CDFOM practice engine is admired by all our customers for our experts' familiarity and dedication with the industry all these years. By their help, you can qualify yourself with high-quality CDFOM exam materials. Our experts pass onto the exam candidate their know-how of coping with the exam by our CDFOM Training Questions. And i can say that our CDFOM study guide is the unique on the market for its high-effective.

If you are still unsure whether to pursue ExamDumpsVCE EXIN CDFOM exam questions for CDFOM certification exam preparation, you are losing the game at the first stage in a fiercely competitive marketplace. ExamDumpsVCE EXIN CDFOM Questions are the best option for becoming CDFOM certified.

Quiz 2026 Accurate EXIN Latest CDFOM Practice Materials

The users can instantly access the product after purchasing it from ExamDumpsVCE, so they don't have to wait to prepare for the CDFOM Exams. The 24/7 support system is available for the customers, so they can contact the support whenever they face any issue, and it will provide them with the solution. Furthermore, ExamDumpsVCE offers up to 1 year of free updates and free demos of the product.

EXIN Certified Data Center Facilities Operations Manager Sample Questions (Q12-Q17):

NEW QUESTION # 12

During inventory of assets it is identified that a number of items are in a different location compared to what is indicated on the inventory list.

What is the most likely root cause of this?

- A. Lack of finance
- **B. Lack of procedures**
- C. Lack of staff training
- D. Lack of asset management database capabilities

Answer: B

Explanation:

Accurate asset management relies heavily on clear, enforced procedures for:

- * Logging asset movement
- * Updating location records
- * Recording installations, removals, or relocations
- * Maintaining accurate configuration and asset databases

If assets are located in different places than recorded, the root cause is typically:

"Lack of procedures" or failure to follow them

Without proper procedures:

- * Staff may move items without documentation.
- * Asset updates may not be recorded.
- * Inventory lists become outdated.
- * Tracking and audit functions fail.

Why other options are incorrect:

- * A: Training is important but secondary; without procedures, training has no structure.
- * C: Most modern asset systems can track locations; the issue is usually process-related, not system capability.
- * D: Financial constraints do not cause incorrect asset locations.

Thus, B is correct.

EPI DCFOM-Aligned Reference Concepts (Paraphrased)

- * Asset management accuracy depends on well-defined and enforced procedures.
- * Incorrect asset locations typically indicate process failures, not financial or system issues.

NEW QUESTION # 13

According to the World Economic Forum, which of the below is the largest global risk of the next decade?

- **A. Global climate change**
- B. Water scarcity
- C. Air quality in large cities
- D. Earthquakes

Answer: A

Explanation:

While not strictly internal to EPI's core domain (which deals with data centre operations), this question refers to the external risk landscape, as identified by the World Economic Forum (WEF). The WEF's Global Risks Report 2025 shows that environmental risks dominate the 10-year horizon, with extreme weather, ecosystem collapse, and climate-related disruption ranking highest.

Specifically, global climate change (or extreme weather/climate-related events) is rated as the most severe risk over the next decade.

While water scarcity and air quality are significant, the WEF ranks climate change / extreme weather as the top long-term threat.

Therefore, option A is the most correct.

EPI DCFOM-Aligned Reference Concepts (Paraphrased)

- * Environmental sustainability forms a major component of data centre operations risk and resilience planning.
- * External macro-risks such as climate change must be integrated into facility resilience, power planning, cooling design, and business continuity strategies.

NEW QUESTION # 14

What is the outcome of a risk evaluation process?

- A. The list of all identified risks
- B. The required budget treating the data center risk
- C. The report advising the board of management to accept all identified risks
- **D. The decision whether risk treatment needs to take place**

Answer: D

Explanation:

In the EPI framework for risk management, after the risk identification and risk analysis steps, the risk evaluation step determines whether the assessed risks are acceptable or require treatment based on the organization's risk appetite, criteria, and the potential impact. The evaluation leads to a decision on whether risk treatment needs to take place.

- * It is not simply compiling all risks (so option C is incorrect).
- * It is not exclusively about budgeting (so option D is incorrect) though budgeting follows treatment decisions.
- * It is not necessarily advising to accept all risks (so option B is incorrect) but rather it supports decision-making on treatment.
- * Therefore, option A is correct: the outcome is the decision whether to treat the risk.

EPI DCFOM-Aligned Reference Concepts (Paraphrased, Not Verbatim)

- * Risk evaluation assesses identified and analysed risks against risk criteria to decide on acceptability or need for treatment.
- * The outcome is a documented decision-making step in the risk management process.

NEW QUESTION # 15

Data center operators complain about receiving too many non-alarm conditions.
What is the best response?

- A. Instruct data center operators to ignore the non-alarm notifications
- B. Upgrade the monitoring system software to the latest version
- **C. Conduct a review of alarm information**
- D. Retrain staff on how to monitor the data center equipment

Answer: C

Explanation:

When operators receive excessive non-alarm notifications, this indicates that:

- * Thresholds are not well-configured
- * Events are misclassified
- * Alarm definitions are incorrect
- * Monitoring profiles require tuning

EPI's monitoring best practices state that the correct response is to:

Review alarm information and adjust definitions, thresholds, and filtering.

This ensures that:

- * Only relevant alarms reach operators
- * Noise is minimized
- * Operators maintain focus on true issues
- * SLA-related metrics are accurately monitored

Why other options are incorrect:

- * A: Training is secondary and will not fix incorrect alarm settings.
- * C: Ignoring notifications is dangerous and violates operational control.
- * D: Upgrading software may not resolve the underlying configuration problem.

Thus, B is correct.

EPI DCFOM-Aligned Reference Concepts (Paraphrased)

- * Monitoring systems must generate actionable alarms, not noise.
- * Alarm thresholds and event filters must be reviewed and optimized regularly.

NEW QUESTION # 16

Training programs need to be selected.

Of the below, which is the first activity to start with?

- A. Contact training providers requesting for brochures
- **B. Review the skills matrix**
- C. Create inventory of the services in the service catalog

- D. Compare prices of various training programs

Answer: B

Explanation:

Training must be aligned with actual operational needs and competency gaps.

The skills matrix is the tool that provides:

- * Current skill levels of staff
- * Required skill levels per role
- * Identified gaps
- * Training needs based on operational requirements

Therefore, the first step is to review the skills matrix to determine what training is actually needed.

Why other options are incorrect:

- * A: Service catalog inventory is part of SLM, not training selection.
- * B: Contacting vendors is premature without knowing training needs.
- * D: Price comparison should occur later, after training needs are defined.

Thus, C is correct.

EPI DCFOM-Aligned Reference Concepts (Paraphrased)

- * Skills matrix is the foundation for determining training needs.
- * Training selection must be based on capability gaps, not brochures or pricing.

NEW QUESTION # 17

.....

Try our best to get the related CDFOM certification is the best way to show our professional ability, however, the exam is hard nut to crack and there are so many CDFOM preparation questions related to the exam, it seems impossible for us to systematize all of the key points needed for the exam by ourselves. We would like to help you out with the CDFOM Training Materials compiled by our company. There are so many strong points of our CDFOM training materials, you will be bound to pass the CDFOM exam with high scores.

Actual CDFOM Test Answers: <https://www.examdumpsve.com/CDFOM-valid-exam-dumps.html>

So CDFOM certkingdom pdf dumps will bring you a high efficiency study, It is universally acknowledged that EXIN CDFOM examination serves as a kind of useful tool to test people's ability, EXIN Latest CDFOM Practice Materials We have special staff to maintain our websites, We offer the best service on our CDFOM study guide, EXIN trained experts have made sure to help the potential applicants of EXIN CDFOM certification to pass their EXIN CDFOM exam on the first try.

Rich Internet Applications and User Experience, Creating a Time and Date Stamp, So CDFOM certkingdom pdf dumps will bring you a high efficiency study, It is universally acknowledged that EXIN CDFOM examination serves as a kind of useful tool to test people's ability.

CDFOM exam study guide

We have special staff to maintain our websites, We offer the best service on our CDFOM study guide, EXIN trained experts have made sure to help the potential applicants of EXIN CDFOM certification to pass their EXIN CDFOM exam on the first try.
