# Test 1Z0-182 Assessment | 1Z0-182 Exam Actual Tests

DOWNLOAD the newest Prep4sureGuide 1Z0-182 PDF dumps from Cloud Storage for free: https://drive.google.com/open?id=1Q7G61lnbFdlTPQr7XTZH2diSxOlriIxy

This Oracle braindump study package contains 1Z0-182 latest questions and answers from the real 1Z0-182 exam. These questions and answers are verified by a team of professionals and the content of this 1Z0-182 braindump is taken from the real exam. Since we are 100% sure of the content we provide a Money Back Guarantee offer! We belive taht 1Z0-182 Braindumps can help you pass your 1Z0-182 exam with minimal effort.

The web-based Oracle Database 23ai Administration Associate (1Z0-182) practice exam is accessible from any major OS. These Oracle 1Z0-182 exam questions are browser-based, so there's no need to install anything on your computer. Chrome, IE, Firefox, and Opera all support this Oracle Database 23ai Administration Associate (1Z0-182) web-based practice exam. You can take this Oracle Database 23ai Administration Associate (1Z0-182) practice exam without plugins and software installation.

## Valid Test 1Z0-182 Assessment & Leader in Qualification Exams & Fantastic Oracle Oracle Database 23ai Administration Associate

Before you really attend the 1Z0-182 exam and choose your materials, we want to remind you of the importance of holding a certificate like this one. Obtaining a 1Z0-182 certificate likes this one can help you master a lot of agreeable outcomes in the future, like higher salary, the opportunities to promotion and being trusted by the superiors and colleagues. Our 1Z0-182 Exam Questions can help you achieve all of your dreams.

## Oracle Database 23ai Administration Associate Sample Questions (Q77-Q82):

**NEW QUESTION # 77**

Which three statements are true about row chaining and row migration done by Oracle database block space management?

- A. Insert statements can result in a migrated row.
- B. Update statements can result in one or more chained rows.
- C. Row pieces of a chained row must always reside in different blocks.
- D. Update statements can result in one or more migrated rows.
- E. A migrated row results in an update to any index on the table to point the row ID in the index to the row's new location.

**Answer: B,D,E**

Explanation:
A .True. Migration updates index ROWIDs.
B .True. Updates can migrate rows if space is insufficient.
C .True. Large updates can chain rows across blocks.
D .False. Chained rows may span blocks but aren't required to.
E .False. Inserts don't migrate; they chain if too large initially.

**NEW QUESTION # 78**
Which resource plan is used to manage the resources for the predefined maintenance window?

- A. By default, all predefined maintenance windows use the DEFAULT_MAINTENANCE_PLANresource plan, and automated maintenance tasks run under subplan called ORA$AUTOTASK.
- B. The resources used by the predefined maintenance window can only be adjusted if you create a new resource plan in Resource Manager ...
- C. The predefined maintenance window starts automatically with 20% of the system resources ...
- D. The SYS_GROUP consumer resource group policies define the resources assigned ...

**Answer: A**

Explanation:
A .True. Oracle 23ai uses DEFAULT_MAINTENANCE_PLAN with ORA$AUTOTASK subplan for maintenance tasks (e.g., stats gathering). Others are incorrect or speculative.

**NEW QUESTION # 79**
Which three Oracle database space management features will work with both Dictionary and Locally managed tablespaces?

- A. Online index segment shrink.
- B. Automatic data file extension (AUTOEXTEND).
- C. Capacity planning growth reports based on historical data in the Automatic Workload Repository (AWR).
- D. Oracle Managed Files (OMF).
- E. Online table segment shrink.

**Answer: B,C,D**

Explanation:
Dictionary-managed tablespaces (DMTs) use the data dictionary for extent management, whilelocally managed tablespaces (LMTs) use bitmaps. Let's evaluate compatibility:
A . Capacity planning growth reports based on historical data in the Automatic Workload Repository (AWR).
True. AWR tracks space usage (e.g., DBA_HIST_TBSPC_SPACE_USAGE) regardless of tablespace type, enabling growth reports for both DMTs and LMTs.
Mechanics:MMON collects metrics like segment growth, stored in SYSAUX, accessible via EM or scripts.
Practical Use:Helps predict when to add data files, universal across management types.
B . Online table segment shrink.
False. ALTER TABLE ... SHRINK SPACE requires LMTs with Automatic Segment Space Management (ASSM), unavailable in DMTs, which lack bitmap-based free space tracking.
Why Incorrect:DMTs use freelists, incompatible with shrink operations.
C . Online index segment shrink.
False. Like tables, ALTER INDEX ... SHRINK SPACE requires LMTs with ASSM, not supported in DMTs.
Why Incorrect:Same limitation as B; DMTs can't compact online.

D . Oracle Managed Files (OMF).
True. OMF automates file naming and placement (via DB_CREATE_FILE_DEST) for both DMTs and LMTs, agnostic to extent management.
Mechanics:Example: CREATE TABLESPACE ts1; creates an OMF file in either type.
Edge Case:DMTs are rare in 23ai, but OMF still applies.
E . Automatic data file extension (AUTOEXTEND).
True. AUTOEXTEND ON allows data files to grow as needed, supported in both DMTs and LMTs since early versions.
Mechanics:ALTER DATABASE DATAFILE ... AUTOEXTEND ON NEXT 100M; works universally.

**NEW QUESTION # 80**
You must create a tablespace of nonstandard block size in a new file system and plan to use this command: CREATE TABLESPACE ns_tbs DATAFILE '/u02/oracle/data/nstbs_f01.dbf' SIZE 100G BLOCKSIZE 32K; The standard block size is 8K, but other nonstandard block sizes will also be used. Which two are requirements for this command to succeed?

- A. The /u02 file system must have at least 100G space for the datafile.
- B. DB_32K_CACHE_SIZE must be set to a value that can be accommodated in the SGA.
- C. DB_32K_CACHE_SIZE must be less than DB_CACHE_SIZE.
- D. The operating system must use a 32K block size.
- E. DB_32K_CACHE_SIZE should be set to a value greater than DB_CACHE_SIZE.

**Answer: A,B**

Explanation:
A .False. No such restriction exists; DB_32K_CACHE_SIZE is independent of DB_CACHE_SIZE.
B .True. A nonstandard block size (32K) requires a corresponding cache (DB_32K_CACHE_SIZE) set to a non-zero value within SGA limits.
C .False. OS block size is irrelevant; Oracle manages its own block sizes.
D .False. No requirement for it to exceed DB_CACHE_SIZE.
E .True. The file system must have 100G available for the datafile.

**NEW QUESTION # 81**
Which two statements describe how Optimizer Statistics are collected?

- A. Optimizer Statistics are collected by the Statistics Advisor.
- B. Optimizer Statistics are collected in real-time as data is inserted, deleted, or updated.
- C. Optimizer Statistics are collected automatically by an automatic maintenance job that runsduring predefined maintenance windows.
- D. Optimizer Statistics are collected automatically by Automatic Workload Repository (AWR) Snapshot.
- E. Optimizer Statistics can be manually collected at multiple levels using DBMS_STATS.GATHER_*_STATS PL/SQL procedures.

**Answer: C,E**

Explanation:
Optimizer Statistics drive the cost-based optimizer's query plans. Let's dissect each option:
A . Optimizer Statistics are collected automatically by an automatic maintenance job that runs during predefined maintenance windows.
True. Oracle 23ai uses the AutoTask framework to gather stats automatically during maintenance windows (e.g., nightly 10 PM-2 AM). The GATHER_STATS_PROG job, managed by DBMS_AUTO_TASK_ADMIN, collects stats for stale or missing objects.
Mechanics:Controlled by STATISTICS_LEVEL=TYPICAL (default) and the DEFAULT_MAINTENANCE_PLAN. It prioritizes objects with >10% changes (stale stats) or no stats.
Practical Use:Ensures stats are current without manual intervention, critical for dynamic workloads.
Edge Case:Disabled if STATISTICS_LEVEL=BASIC or the job is manually disabled via DBMS_AUTO_TASK_ADMIN.DISABLE.
B . Optimizer Statistics are collected in real-time as data is inserted, deleted, or updated.
False. Stats aren't updated in real-time; this would be too resource-intensive. Instead, Oracle tracks changes (e.g., via DBA_TAB_MODIFICATIONS) and updates stats periodically via AutoTask or manually. Real-time stats exist in 23ai for specific cases (e.g., GATHER_TABLE_STATS with REAL_TIME_STATS), but it's not the default.

Why Incorrect:Real-time collection would degrade performance for OLTP systems, contradicting Oracle's batch approach.
C . Optimizer Statistics can be manually collected at multiple levels using DBMS_STATS.GATHER_*_STATS PL/SQL procedures.
True. The DBMS_STATS package offers granular control: GATHER_TABLE_STATS, GATHER_SCHEMA_STATS, GATHER_DATABASE_STATS, etc., allowing stats collection for tables, schemas, or the entire database.
Mechanics:Example: BEGIN DBMS_STATS.GATHER_TABLE_STATS('HR', 'EMPLOYEES'); END;. Options like ESTIMATE_PERCENT and DEGREE fine-tune the process.
Practical Use:Used for immediate stats updates post-DML or for custom schedules outside maintenance windows.
Edge Case:Overuse can lock stats (e.g., FORCE=TRUE), requiring careful management.
D . Optimizer Statistics are collected by the Statistics Advisor.
False. The Statistics Advisor (new in 23ai) analyzes and recommends stats improvements but doesn't collect them. Collection is still via DBMS_STATS or AutoTask.
Why Incorrect:It's a diagnostic tool, not an executor.
E . Optimizer Statistics are collected automatically by Automatic Workload Repository (AWR) Snapshot.
False. AWR snapshots capture performance metrics (e.g., wait times), not optimizer stats. Stats collection is a separate process via AutoTask or manual commands.
Why Incorrect:AWR and stats collection serve distinct purposes-monitoring vs. optimization.

**NEW QUESTION # 82**
.....

Business Applications 1Z0-182 certification exam with our braindumps, just send us your failed score report. After we confirm your 1Z0-182 score report and we can give full refund of the 1Z0-182 Exam to you in time. Meanwhile, if you also need to take other related exams you also can choose another exam instead of the failed exam.

**1Z0-182 Exam Actual Tests**: https://www.prep4sureguide.com/1Z0-182-prep4sure-exam-guide.html

You should avail this opportunity of Oracle Database 23ai Administration Associate 1Z0-182 exam dumps free demo, If you have difficulty in choosing good test dumps, be confident in us, be confident in our 1Z0-182 test king materials, we will not disappoint you, Once you have paid for the 1Z0-182 stufy materials, we will send you the downloading link in ten minutes, Prep4sureGuide 1Z0-182 Exam Actual Tests is now considered as the platform which leads to a brighter future.

Children are far less put off by the liberal use of color, So 1Z0-182 it is your best helper for your learn.DumpLeader is an excellent site which providing IT certification exam information.

You should avail this opportunity of Oracle Database 23ai Administration Associate 1Z0-182 Exam Dumps Free demo, If you have difficulty in choosing good test dumps, be confident in us, be confident in our 1Z0-182 test king materials, we will not disappoint you.

## Oracle 1Z0-182 Exam Dumps - Right Preparation Method [2026]

Once you have paid for the 1Z0-182 stufy materials, we will send you the downloading link in ten minutes, Prep4sureGuide is now considered as the platform which leads to a brighter future.

Nowadays, too often there is just not enough time to properly prepare for 1Z0-182 Oracle Database 23ai Administration Associate exam certification while at home or at work.
