You can also be a part of this wonderful community. To do this you just need to pass the 1Y0-205 certification exam. Are you ready to accept this challenge? Looking for the proven and easiest way to crack the Citrix 1Y0-205 Certification Exam? If your answer is yes then you do not need to go anywhere. Just download ActualTestsQuiz Citrix Virtual Apps and Desktops

Administration exam questions and start Citrix Virtual Apps and Desktops Administration exam preparation without wasting further time.

## Citrix Virtual Apps and Desktops Administration Sample Questions (Q11-Q16):

### NEW QUESTION # 11

Scenario: A Citrix Administrator previously configured a Citrix Virtual Desktops Site to use evaluation licenses. The administrator then installed valid advanced licenses on the Citrix License Server and confirmed that licenses show correctly in the licensing console. However, a user reports an issue about logging on to the published desktop. The user receives an error message stating that the evaluation license is about to expire. What should the administrator do to fix this issue?

- **A. Change the product edition in Citrix Studio.**
- B. Verify the host name entry in the license file.
- C. Restart the License service.
- D. Remove the evaluation license.

**Answer: A**

Explanation:

After installing valid licenses on the License Server, the Site must be configured in Citrix Studio to use the correct product edition (for example, Advanced, Enterprise, or Premium). If it remains set to "evaluation," users will continue to see the expiration warning. Updating the product edition in Studio resolves the issue.

### NEW QUESTION # 12

What is the minimum permission a Citrix Administrator can grant to an IT manager to access Citrix Studio?

- **A. Read Only Administrator**
- B. Delivery Group Administrator
- C. Machine Catalog Administrator
- D. Host Administrator

**Answer: A**

### NEW QUESTION # 13

Scenario: A Citrix Administrator needs to power-manage a group of Server OS Virtual Delivery Agent (VDA) machines that are all in the same Delivery Group. The administrator needs all the machines to be restarted once a week during the weekend. Additionally, a subset of the machines should be restarted every day during non-peak hours. Which feature must the administrator change from the default values in order to fulfill the requirements?

- A. Weekday and weekend hours
- B. Restart duration
- C. Peak and non-peak hours
- **D. Tag restrictions**

**Answer: D**

Explanation:

Tag restrictions allow administrators to apply different power management schedules to subsets of machines within the same Delivery Group. By tagging certain Server OS VDAs, the administrator can configure weekly restarts for all machines and daily restarts for only the tagged subset during non-peak hours.

### NEW QUESTION # 14

Which two statements are valid when using Citrix Profile Streaming? (Choose two.)

- **A. Registry entries and files in the pending area are fetched when accessed.**
- B. Profile Streaming will delay the logon process.

- C. Profile Streaming is disabled by default.
- **D. The files and folders are fetched on demand.**

**Answer: A,D**

Explanation:

With Citrix Profile Streaming, parts of the user profile (such as registry entries and files) are loaded on demand instead of fully at logon. This reduces logon time by fetching profile components only when accessed during the session.

#### NEW QUESTION # 15

Scenario: A Citrix Administrator maintains a Citrix Virtual Apps and Desktops Site with a large number of Windows users running various locally attached client printers. No network printers are being used. The administrator has enabled the HDX printer mapping policy to 'Auto-create all client printers', which has resulted in a large number of drivers being loaded onto the Virtual Delivery Agent (VDA) machines. New standards are requiring the administrator to limit these Windows drivers on the VDA machines. Which printing feature can the administrator enable to meet the new standards?

- A. The Auto-create PDF universal printer policy
- B. The Citrix Universal Print Server
- C. The Auto-create local (non-network) client printers only policy
- **D. The Citrix Universal Printer Driver**

**Answer: D**

Explanation:

Enabling the Citrix Universal Printer Driver allows client printers to be auto-created without requiring individual printer drivers to be installed on the VDA machines. This standardizes printing, reduces driver sprawl, and meets compliance requirements by minimizing the number of Windows drivers on the VDAs.

#### NEW QUESTION # 16

.....

In order to meet the different demands of the different customers, these experts from our company have designed three different versions of the 1Y0-205 reference guide. All customers have the right to choose the most suitable version according to their need after buying our study materials. The PDF version of the 1Y0-205 exam prep has many special functions, including download the demo for free, support the printable format and so on. We can make sure that the PDF version of the 1Y0-205 Test Questions will be very convenient for all people. Of course, if you choose our study materials, you will have the chance to experience our PDF version.
