Latest Updated New ADA-C02 Practice Questions Supply you Valuable New Real Test for ADA-C02: SnowPro Advanced Administrator ADA-C02 to Prepare easily

There are three versions ADA-C02 exam bootcamp, you can choose one according to your preference. ADA-C02 PDF version can both practice in the electronic device and in the paper, if you like to practice on paper, and you just need to print them. ADA-C02 Soft exam engine can stimulate the real exam environment, and this version will help you to know the process of the exam, so that you can relieve your nerves. ADA-C02 Online Exam engine supports all web browsers, and it can also have a performance review, therefore you can have a review of about what you have learned.

Snowflake SnowPro Advanced Administrator ADA-C02 Sample Questions (Q32-Q37):

NEW QUESTION # 32

What are benefits of using Snowflake organizations? (Choose two.)

- A. User administration is simplified across all accounts within the organization.
- **B. Administrators have the ability to create accounts in any available cloud provider or region.**
- C. Administrators can change Snowflake account editions on-demand based on need.
- **D. Administrators can monitor and understand usage across all accounts in the organization.**
- E. Administrators can simplify data movement across all accounts within the organization.

Answer: B,D

Explanation:

Snowflake organizations provide centralized usage monitoring across all accounts in the organization and give administrators the ability to create accounts in any supported cloud provider or region. These are the key benefits of using organizations in Snowflake.

NEW QUESTION # 33

A user has enrolled in Multi-factor Authentication (MFA) for connecting to Snowflake. The user informs the Snowflake Administrator that they lost their mobile phone the previous evening.

Which step should the Administrator take to allow the user to log in to the system, without revoking their MFA enrollment?

- **A. Alter the user and set MINS_TO_BYPASS_MFA to a value that will disable MFA long enough for the user to log in.**
- B. Instruct the user to append the normal URL with `?mode=mfa_bypass&code=` to log on.
- C. Alter the user and set `DISABLE_MFA` to true, which will suspend the MFA requirement for 24 hours.
- D. Instruct the user to connect to Snowflake using SnowSQL, which does not support MFA authentication.

Answer: A

Explanation:

The correct step is to use `ALTER USER ... SET MINS_TO_BYPASS_MFA = <minutes>` which temporarily suspends MFA for the specified duration, allowing the user to log in and reconfigure their MFA without revoking enrollment. This preserves MFA setup and is the supported method in Snowflake.

NEW QUESTION # 34

A company enabled replication between accounts and is ready to replicate data across regions in the same cloud service provider.

The primary database object is : `PROD_AWS_EAST`. Location : `AWS_EAST`

The secondary database object is : `PROD_AWS_WEST`. Location : `AWS_WEST`

What command and account location is needed to refresh the data?

- A. Location : `AWS_EAST`
Command : `REFRESH DATABASE PROD_AWS_WEST REFRESH;`
- B. Location : `AWS_EAST`
Command : `ALTER DATABASE PROD_AWS_WEST REFRESH;`
- **C. Location : `AWS_WEST`
Command : `ALTER DATABASE PROD_AWS_WEST REFRESH;`**
- D. Location : `AWS_WEST`
Command : `REFRESH DATABASE PROD_AWS_WEST REFRESH;`

Answer: C

Explanation:

To update a secondary database with changes from its primary, the `ALTER DATABASE <secondary_db> REFRESH;` command must be executed in the secondary account/region. In this case, that means running the command on `PROD_AWS_WEST` in `AWS_WEST`.

NEW QUESTION # 35

A large international company with many operating regions requires data to be shared bi-directionally among all offices (head office to regional offices and regional offices among themselves). This company is a Snowflake account holder with European operations deployed in Microsoft Azure (single region) while North American regional offices are using AWS (single region) as their deployment cloud. This setup is required to comply with Personal Identifiable Information (PII) regulations in some of the European countries. The corporate head office is in Europe.

How can this data be shared bi-directionally, while MINIMIZING costs?

- A. Use data replication everywhere to reduce costs associated with same-region sharing.
- B. Move all the Snowflake accounts to a single region, and implement data sharing.
- **C. Use bi-directional data sharing among offices in the same region and replication among offices across the continents.**
- D. Use the `PUT` command to move files to an Amazon S3 bucket and Azure Blobs, and use an external file management application to move files within the corporate VPC.

Answer: C

Explanation:

Direct data sharing is the most cost-efficient method when accounts are in the same region and cloud. For cross-continent or cross-cloud sharing, Snowflake requires replication. Combining both - data sharing within the same region and replication across continents - ensures compliance, minimizes costs, and enables bi-directional sharing.

NEW QUESTION # 36

An Administrator loads data into a staging table every day. Once loaded, users from several different departments perform transformations on the data and load it into different production tables.

How should the staging table be created and used to MINIMIZE storage costs and MAXIMIZE performance?

- A. Create it as a permanent table with a retention time of 0 days.
- B. Create it as a temporary table with a retention time of 0 days.
- C. Create it as a transient table with a retention time of 0 days.
- D. Create it as an external table, which will not incur Time Travel costs.

Answer: C

Explanation:

A transient table is best suited for staging because it avoids long-term storage costs by not maintaining Fail-safe and can have Time Travel retention set to 0 days. This minimizes storage costs while still providing performance comparable to permanent tables, making it the optimal choice for daily staging data.

NEW QUESTION # 37

.....

For Snowflake ADA-C02 certification test, are you ready? The exam comes in sight, but can you take the test with confidence? If you have not confidence to sail through your exam, here I will recommend the most excellent reference materials for you. The latest ADA-C02 Certification Training dumps that can pass your exam in a short period of studying have appeared. The dumps are provided by PDFDumps.
