

# Valid CCDAK Exam Voucher - CCDAK Current Exam Content

P.S. Free 2025 Confluent CCDAK dumps are available on Google Drive shared by Itcertmaster: <https://drive.google.com/open?id=1vQBfXxLI5OfjU2nu7B3KmpJQXDtdypO0>

There are rare products which can rival with our products and enjoy the high recognition and trust by the clients like our products. Our products provide the CCDAK test guide to clients and help they pass the test CCDAK certification which is highly authorized and valuable. Our company is a famous company which bears the world-wide influences and our CCDAK Test Prep is recognized as the most representative and advanced study materials among the same kinds of products. Whether the qualities and functions or the service of our product, are leading and we boost the most professional expert team domestically.

Confluent Certified Developer for Apache Kafka (CCDAK) Certification Examination is a comprehensive test that evaluates an individual's proficiency in developing and deploying Kafka-based solutions. CCDAK examination assesses the knowledge and skills required to use Kafka's features effectively and efficiently in real-world scenarios. The CCDAK Exam is designed by Confluent, the company founded by the original creators of Apache Kafka, and is recognized globally as a benchmark for Kafka expertise.

## 2026 Confluent Professional Valid CCDAK Exam Voucher

For a long time, our company is insisting on giving back to our customers on the CCDAK study materials. Also, we have benefited from such good behavior. Our CCDAK exam prep has gained wide popularity among candidates. Every worker in our company sticks to their jobs all the time. No one complain about the complexity of their jobs. Our researchers and experts are working hard to develop the newest version of the CCDAK learning guide.

## Confluent Certified Developer for Apache Kafka Certification Examination Sample Questions (Q63-Q68):

### NEW QUESTION # 63

The producer code below features a Callback class with a method called onCompletion().

In the onCompletion() method, when the request is completed successfully, what does the value metadata.offset() represent?

- A. The sequential ID of the message committed into a partition
- B. Its position in the producer's batch of messages
- C. The number of bytes that overflowed beyond a producer batch of messages
- D. The ID of the partition to which the message was committed

**Answer: A**

Explanation:

The offset in the RecordMetadata object returned by the producer represents the position of the record in the partition- i.e., the sequential ID assigned by Kafka once the message is committed.

From Kafka Producer API Documentation:

"The offset is the position of the record in the partition. This is a unique, sequential number assigned by the broker."

\* D refers to metadata.partition(), not offset().

\* B and C are unrelated to how Kafka handles committed offsets.

Reference: Kafka Producer Java API > RecordMetadata

#### NEW QUESTION # 64

What information isn't stored inside of Zookeeper? (select two)

- A. ACL information
- B. Broker registration info
- C. Schema Registry schemas
- **D. Consumer offset**
- E. Controller registration

**Answer: D**

Explanation:

Consumer offsets are stored in a Kafka topic `__consumer_offsets`, and the Schema Registry stored schemas in the `_schemas` topic.

#### NEW QUESTION # 65

Your producer is producing at a very high rate and the batches are completely full each time. How can you improve the producer throughput? (select two)

- **A. Increase batch.size**
- **B. Enable compression**
- C. Decrease linger.ms
- D. Decrease batch.size
- E. Disable compression

**Answer: A,B**

Explanation:

Increase linger.ms

Explanation:

batch.size controls how many bytes of data to collect before sending messages to the Kafka broker. Set this as high as possible, without exceeding available memory. Enabling compression can also help make more compact batches and increase the throughput of your producer. Linger.ms will have no effect as the batches are already full

#### NEW QUESTION # 66

You are experiencing low throughput from a Java producer.

Metrics show low I/O thread ratio and low I/O thread wait ratio.

What is the most likely cause of the slow producer performance?

- **A. The producer code has an expensive callback function.**
- B. There is a bad data link layer (layer 2) connection from the producer to the cluster.
- C. Compression is enabled.
- D. The producer is sending large batches of messages.

**Answer: A**

Explanation:

Low I/O thread activity with blocked throughput often indicates that producer callbacks are consuming too much time, causing the sender thread to block while waiting for `onCompletion()` to finish.

From Kafka Producer Performance Guide:

"Expensive logic in callbacks (e.g., I/O or complex computation) can block the sender thread, reducing throughput."

- \* Compression (A) may slightly impact CPU but not I/O thread usage.
  - \* Large batches (B) improve throughput if managed correctly.
  - \* A Layer 2 network issue (C) would lead to packet loss, not specifically low callback metrics.
- Reference: Kafka Producer Metrics and Performance Tuning

### NEW QUESTION # 67

A customer has many consumer applications that process messages from a Kafka topic. Each consumer application can only process 50 MB/s. Your customer wants to achieve a target throughput of 1 GB/s. What is the minimum number of partitions will you suggest to the customer for that particular topic?

- A. 0
- B. 1
- C. 2
- **D. 3**

**Answer: D**

Explanation:

each consumer can process only 50 MB/s, so we need at least 20 consumers consuming one partition so that  $50 * 20 = 1000$  MB target is achieved.

### NEW QUESTION # 68

.....

Before we decide to develop the CCDAK preparation questions, we have make a careful and through investigation to the customers. We have taken all your requirements into account. Firstly, the revision process is long if you prepare by yourself. If you collect the keypoints of the CCDAK exam one by one, it will be a long time to work on them. Secondly, the accuracy of the CCDAK Exam Questions And Answers is hard to master. Because the content of the exam is changing from time to time. But our CCDAK practice guide can help you solve all of these problems.
