Braindumps JN0-452 Downloads & Dumps JN0-452 Vce

Using a smartphone, you may go through the Juniper JN0-452 dumps questions whenever and wherever you desire. The JN0-452 PDF dumps file is also printable for making handy notes. 2Pass4sure has developed the online Juniper JN0-452 practice test to help the candidates get exposure to the actual exam environment. By practicing with web-based Juniper JN0-452 Practice Test questions you can get rid of exam nervousness. You can easily track your performance while preparing for the Mist AI Wireless, Specialist (JNCIS-MistAI-Wireless) exam with the help of a self-assessment report shown at the end of Juniper JN0-452 practice test.

Juniper Mist AI Wireless, Specialist (JNCIS-MistAI-Wireless) Sample Questions (Q68-Q73):

NEW QUESTION # 68
An administrator is configuring a single WLAN template to be used across multiple sites. The security policy requires WPA2-Personal (PSK). To enhance security, they want each site to have its own unique PSK.
What is the most efficient way to achieve this using a single template?

- A. Create a site-level WLAN at each site to override the template's PSK.
- B. Use the "Multiple Pre-Shared Keys" option and create a key named after each site.
- C. Create a Device Profile for the APs at each site and set the PSK in the Device Profile.
- D. Use a site variable (e.g., `{{site_psk}}`) in the passphrase field within the WLAN template, and then define this variable with a unique value at each site's configuration page.

Answer: D

NEW QUESTION # 69

Site A is configured with a WLAN and a policy. The administrator creates a configuration template at the organization level with additional policies for the same WLAN and mentions Site A in this template.

In this scenario, which statement is correct?

- A. The policy created at the organization level can be applied to a site group, not to an individual site.
- B. The policy that is created in the config template at the organization level will execute first.
- C. There is no option to mention the site in the config template at the organization level.
- D. The policy that is created at the site level will execute first.

Answer: C

Explanation:

According to the Juniper Mist Wireless Deployment Service Datasheet1, a configuration template at the organization level can be applied to a site group, not to an individual site. Therefore, there is no option to mention the site in the config template at the organization level.

NEW QUESTION # 70

What is meant when a Marvis Action is shown as "AI Validated"?

- A. Marvis has observed a recurring issue.
- B. Marvis has observed an issue that is no longer present.
- C. The issue which triggered an alert has been set to Resolved status.
- D. Marvis has observed a new issue.

Answer: B

Explanation:

Reference: https://www.mist.com/documentation/what-is-marvis-actions/

NEW QUESTION # 71

Which two statements are correct about channel bonding? (Choose two.)

- A. Bonding two channels together doubles the number of available channels.
- B. Bonding two channels together doubles the noise floor.
- C. Bonding two channels together doubles the required device resources.
- D. Bonding two channels together doubles the available bandwidth.

Answer: C,D

Explanation:

Channel bonding combines two adjacent channels to create a wider channel, effectively doubling the available bandwidth. However, this also doubles the required device resources such as power and processing.

According to the Lecture 3 - Radio Frequency and Antenna Fundamentals - Part 2 document2, channel bonding is a technique that combines two adjacent channels into one wider channel to increase throughput.

This doubles the available bandwidth but also doubles the required device resources such as power and processing.

NEW QUESTION # 72

When setting up a new Mist organization, what is the recommended first step for structuring your sites and configurations?

- A. Configure Device Profiles for all AP models.
- B. Create the site structure (e.g., regions, cities, buildings).
- C. Claim all APs into the inventory.
- D. Create a master Configuration Template with all standard WLANs and policies.

Answer: B

NEW QUESTION # 73
