

Refractory Personnel Valid Test Topics & API-936 Free Download Demo & Refractory Personnel Practice Test Training

7. Refractories chemically and physically stable at

- A. Low temperatures
- B. Average temperatures
- C. High temperatures
- D. None of the above

Answer: C

8. Refractories means

- A. Hard to fuse
- B. Hard to test
- C. Hard to set
- D. None of the above

Answer: A

9. The functions of refractories include resistance to other destructive influences such as abrasion, pressure, chemical attack, and or rapid changes in temperature is called.

- A. Primary function
- B. Secondary function
- C. Tertiary function
- D. None of the above

Answer: B

10. Which function of refractories is to resist temperature?

- A. Primary function
- B. Secondary function
- C. Tertiary function
- D. None of the above

Answer: A

11. Castable, gunning mixes, ramming mixes, plastics, and mortars are

- A. Shaped refractory
- B. Unshaped refractory
- C. Refractory fiber
- D. All of the above

Answer: B

12. Blanket, Module, Bulk paper, rope, and vacuum formed shaped are:

- A. Shaped refractory
- B. Unshaped refractory
- C. Refractory fibers
- D. All of the above

Answer: C

3 / 3

Knowledge is defined as intangible asset that can offer valuable reward in future, so never give up on it and our API-936 exam preparation can offer enough knowledge to cope with the exam effectively. To satisfy the needs of exam candidates, our experts wrote our API-936 practice materials with perfect arrangement and scientific compilation of messages, so you do not need to study other API-936 training questions to find the perfect one anymore.

When preparing to take the API-936 exam dumps, knowing where to start can be a little frustrating, but with API API-936 practice questions, you will feel fully prepared. Using our API-936 practice test Getcertkey, you can prepare for the increased difficulty on API-936 Exam day. Plus, we have various question types and difficulty levels so that you can tailor your API-936 exam dumps preparation to your requirements.

Download API API-936 Real Dumps with Free Updates and Start Preparing Today

Our delivery speed is also highly praised by customers. Our API-936 exam dumps won't let you wait for such a long time. As long as you pay at our platform, we will deliver the relevant API-936 test prep to your mailbox within 5-10 minutes. Our company attaches great importance to overall services, if there is any problem about the delivery of API-936 Test Braindumps, please let us know, a message or an email will be available. We are pleased that you can spare some time to have a look for your reference about our API-936 test prep.

API Refractory Personnel Sample Questions (Q13-Q18):

NEW QUESTION # 13

In API RP 936, the referenced ASTM standard procedure for cold crushing strength and modulus of rupture is

- A. C181 - 91
- B. None of the above
- C. C 133 - 97
- D. C704 - 01

Answer: C

NEW QUESTION # 14

Each sample tested in accordance with ASTM C181 for workability index shall consist of how many specimens?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

Explanation:

According to API Std 936, which incorporates ASTM C181 by reference:

"Each sample tested for workability index in accordance with ASTM C181 shall consist of three specimens."

- API Std 936, Section 6.4.6 Workability Testing

Thus, Option C is correct. This testing ensures consistency in the flow characteristics of castable refractories prior to installation.

NEW QUESTION # 15

Surface preparation and welding procedures are the responsibility of the:

- A. Owner.
- B. Contractor.
- C. Inspector.
- D. Manufacturer.

Answer: B

Explanation:

According to API Std 936 - Refractory Installation Quality Control, the roles and responsibilities of each party are clearly defined. Specifically, it states:

"The contractor shall be responsible for... the preparation of the surface prior to lining, and the quality of the workmanship, including the welding of anchors and any required preheat or post-weld heat treatment."

- API Std 936, Section 5.3.1, Contractor Responsibilities

Therefore, surface preparation and welding activities, including anchor welding, fall under the Contractor's scope of work. The inspector's role is to verify compliance, not to execute procedures.

NEW QUESTION # 16

When water is used for refractory installed on a carbon steel surface with a stainless steel anchorage, the chloride content of the potable water shall not exceed:

- A. 200 ppm
- B. 250 ppm
- **C. 50 ppm**
- D. 100 ppm

Answer: C

Explanation:

According to API Standard 936, water used in the preparation of refractory mixes is subject to quality limitations, especially when stainless steel anchors are embedded in or come into contact with the refractory that is installed on a carbon steel surface. High chloride concentrations in the mixing water may promote corrosion in stainless steel anchoring systems.

API 936 explicitly states:

"When water is used for refractory installed on a carbon steel surface with a stainless steel anchorage, the chloride content of the potable water shall not exceed 50 ppm."

- API Std 936, Section 5.1.2

This clause is intended to protect the integrity of stainless steel anchors from chloride-induced stress corrosion cracking or pitting, which can compromise the mechanical support of the refractory lining.

Therefore, Option A (50 ppm) is the only correct and code-compliant answer.

NEW QUESTION # 17

The vessel in which cracking reaction occurs or is completed and product gases are separated from coke and/or catalyst particulate is called

- A. Regenerator of FCCU
- B. None of the above
- **C. Reactor of FCCU**
- D. Cyclones of FCCU

Answer: C

NEW QUESTION # 18

.....

Due to its unique features, it is ideal for the majority of the students. It provides them complete assistance for understanding of the syllabus. It contains the comprehensive API-936 exam questions that are not difficult to understand. By using these aids you will be able to modify your skills to the required limits. Your API-936 Certification success is just a step away and is secured with 100% money back guarantee.

Free API-936 Pdf Guide: https://www.getcertkey.com/API-936_braindumps.html

API API-936 Online Training Materials The most Sensible choice of real questions, API-936 APP version can support any electronic device without any limit, it also support the offline use, **API API-936 Online Training Materials** If you can own the certification means that you can do the job well in the area so you can get easy and quick promotion, **API API-936 Online Training Materials** Even some nit-picking customers cannot stop practicing their high quality and accuracy.

Using Web Search Engines, Now if they would only understand API-936 our little spelling problem, theirs would be the perfect site, The most Sensible choice of real questions.

API-936 APP version can support any electronic device without any limit, it also support the offline use, If you can own the certification means that you can do the job well in the area so you can get easy and quick promotion.

2026 100% Free API-936 –Latest 100% Free Online Training Materials | Free Refractory Personnel Pdf Guide

Even some nit-picking customers cannot stop practicing their high quality and accuracy, As everyone knows exams certifications are hard to pass with API-936 test braindumps and test cost is also expensive.
