## **F5 - F5CAB5 - BIG-IP Administration Support and Troubleshooting High Hit-Rate Latest Exam Labs**

The F5 F5CAB5 certification provides is beneficial to accelerate your career in the tech sector. Today, the F5 F5CAB5 certification is a fantastic choice to get high-paying jobs and promotions, and to achieve it, you must crack the challenging F5CAB5 Exam. It is critical to prepare with actual BIG-IP Administration Support and Troubleshooting (F5CAB5) exam questions if you have less time and want to clear the test in a short time. You will fail and waste time and money if you do not prepare with real and updated F5CAB5 Questions.

## **F5 BIG-IP Administration Support and Troubleshooting Sample Questions (Q31-Q36):**

### NEW QUESTION # 31

What determines whether a pool member is marked up or down?

- **A. Health monitor results**
- B. Routing table
- C. VLAN configuration
- D. DNS resolution

**Answer: A**

Explanation:

Health monitors check backend availability and determine pool member status.

### NEW QUESTION # 32

A BIG-IP Administrator makes a configuration change to the BIG-IP device. Which file logs the message regarding the configuration change?

- A. /var/log/secure
- **B. /var/log/audit**
- C. /var/log/user.log
- D. /var/log/messages

**Answer: B**

Explanation:

The BIG-IP system uses the audit log to track administrative actions and configuration changes.

\* Audit Logging Functionality: When a user modifies the configuration via the Configuration Utility (GUI), the Traffic Management Shell (tmsh), or iControl, the system records the event in the audit log.

This includes the name of the user who made the change, the timestamp, and the specific command or object that was modified.

\* Log Location: The audit log is stored at /var/log/audit.

\* Evaluation of Other Options:

\* /var/log/messages (Option A) contains general system and kernel messages but is not the primary source for configuration change details.

\* /var/log/secure (Option B) primarily logs authentication and authorization attempts (logins and logouts).

\* /var/log/user.log (Option D) is a generic Linux log file for user-level applications and does not track BIG-IP LTM configuration changes.

### NEW QUESTION # 33

Plaintext

```
warning tmm[<pid>]: 011e0002:4: sweeper_segment_cb_any: Aggressive mode /Common/default- eviction-policy activated (0) (global memory). (345209/690176 pages) warning tmm[<pid>]: 011e0003:4: Aggressive mode sweeper: /Common/default- eviction-policy (0) (global memory) 1 Connections killed What is happening when the BIG-IP Administrator sees the messages in the LTM log displayed above? (Pick the 2 correct responses below)
```

- **A. The global eviction policy is triggered due to TMM memory exhaustion**
- B. The global eviction policy is triggered due to swap memory being used too high
- **C. The BIG-IP system starts reaping connections, some connections will be dropped**
- D. The BIG-IP system starts reaping connections, all the connections will be dropped

**Answer: A,C**

### NEW QUESTION # 34

Refer to the exhibit. An LTM device has a virtual server mapped to www.f5.com. Users report that when they connect to www.f5.com they are unable to receive content. What is the likely cause of the issue? (Choose one answer)

- A. The pool associated with the virtual server does not have priority group activation enabled.
- B. The pool associated with the virtual server is failing its health check.
- C. The virtual address does not have route advertising enabled.

- D. The virtual address does not have ARP enabled.

**Answer: D**

Explanation:

Based on the configuration screens provided in the exhibit, the primary reason for the connectivity failure is the disabled ARP setting on the Virtual Address.

Virtual Address ARP Setting: In a standard BIG-IP deployment, the Address Resolution Protocol (ARP) must be enabled for the Virtual Address (192.168.238.111 in this case). When enabled, the BIG-IP system responds to ARP requests from the local network gateway or adjacent devices for that specific IP address.

Exhibit Analysis: Looking at the "Virtual Address List >> 192.168.238.111" properties section, the ARP checkbox is unselected (unchecked). Because ARP is disabled, the upstream router or client cannot resolve the MAC address for 192.168.238.111, and the traffic never reaches the BIG-IP LTM.

Availability Indicators: Note the yellow circle (status indicator) on both the Virtual Server and the Pool Members. In F5 BIG-IP, a yellow status typically indicates that the object is "Available" (Enabled) but its monitors are not currently identifying it as "Up" (which would be a green circle), or it is in a "Monitor Unknown" state. However, even if a pool is available, the traffic must first reach the Virtual Server, which is prevented here by the lack of ARP.

### NEW QUESTION # 35

A custom HTTP monitor is failing to a pool member 10.10.3.75:8080 that serves up www.example.com. A ping works to the pool member address. The SEND string is:

```
GET / HTTP/1.1 \r\nHost: www.example.com\r\nConnection: Close\r\n\r\n
```

Which CLI tool syntax will show whether the web server returns the correct HTTP response?

- A. `curl --header 'Host: www.example.com' 'http://10.10.3.75:8080/'`
- B. `tracpath http://www.example.com:80`
- C. `tracpath 10.10.3.75 8080 GET /index`
- D. `curl http://10.10.3.75:8080/www.example.com/index.html`

**Answer: A**

Explanation:

To manually verify a health monitor's "Send String" from the BIG-IP command line, the curl utility is the preferred tool because it allows for custom header insertion.

Matching the Monitor String: The monitor string requires an HTTP/1.1 request which must include a "Host" header. Option A correctly uses the --header (or -H) flag to pass Host:

www.example.com to the specific IP and port of the pool member.

Troubleshooting Logic: If `curl --header 'Host: www.example.com' 'http://10.10.3.75:8080/'` returns a

"200 OK" but the BIG-IP monitor still shows "Down," the administrator should check if the Receive String in the monitor configuration matches the output provided by curl.

### NEW QUESTION # 36

.....

Maybe you are still having trouble with the F5 F5CAB5 exam; maybe you still don't know how to choose the F5CAB5 exam materials; maybe you are still hesitant. But now, your search is ended as you have got to the right place where you can catch the finest F5CAB5 exam materials. Here you can answer your doubts; you can easily pass the exam on your first attempt. All applicants who are working on the F5CAB5 exam are expected to achieve their goals, but there are many ways to prepare for exam. Everyone may have their own way to discover. Some candidates may like to accept the help of their friends or mentors, and some candidates may only rely on some F5CAB5 books. But none of these ways are more effective than our F5CAB5 exam material. In summary, choose our exam materials will be the best method to defeat the exam.

**Certified F5CAB5 Questions:** <https://www.pdfvce.com/F5/F5CAB5-exam-pdf-dumps.html>

If you want to prepare efficiently and get satisfying result for your F5 exams then you can choose our F5CAB5 Exam Braindumps which should be valid and latest, PDFVCE is the best provider with high pass rate in F5CAB5 exam dumps, By taking a F5CAB5 practice exam, you can find out what you're good at, The availability of BIG-IP Administration Support and Troubleshooting (F5CAB5) exam questions in three different formats, free demo download facility, affordable price, free three months updated F5CAB5 exam questions download facility, and verified and real BIG-IP Administration Support and Troubleshooting (F5CAB5)

exam questions are the top features of PDFVCE F5CAB5 exam questions.

The servlet doesn't generate the virtual session ID at first, however, The Speed F5CAB5 Economy Big versus Small Business The Speed Economy is a term used to describe the differences in economic growth between northern and southern Europe.

## 100% Pass 2026 F5 F5CAB5: BIG-IP Administration Support and Troubleshooting Unparalleled Latest Exam Labs

If you want to prepare efficiently and get satisfying result for your F5 exams then you can choose our F5CAB5 Exam Braindumps which should be valid and latest.

PDFVCE is the best provider with high pass rate in F5CAB5 exam dumps, By taking a F5CAB5 practice exam, you can find out what you're good at, The availability of BIG-IP Administration Support and Troubleshooting (F5CAB5) exam questions in three different formats, free demo download facility, affordable price, free three months updated F5CAB5 exam questions download facility, and verified and real BIG-IP Administration Support and Troubleshooting (F5CAB5) exam questions are the top features of PDFVCE F5CAB5 exam questions.
