Valid Reliable C1000-173 Exam Cost bring you Fantastic C1000-173 Exam Reference for IBM IBM Cloud Pak for Data v4.7 Architect

P.S. Free 2025 IBM C1000-173 dumps are available on Google Drive shared by Exams4sures: https://drive.google.com/open?id=1xkxfiFWwizjXDuro477ndR90T8y9uDIR

The passing rate is the best test for quality of our C1000-173 study materials. And we can be very proud to tell you that the passing rate of our C1000-173 Exam Questions is almost 100%. That is to say, as long as you choose our study materials and carefully review according to its content, passing the C1000-173 Exam is a piece of cake. We're definitely not exaggerating. If you don't believe, you can give it a try.

Our C1000-173 learning materials are perfect paragon in this industry full of elucidating content for exam candidates of various degree to use for reference. We are dominant for the efficiency and accuracy of our C1000-173 actual exam. As leader and innovator, we will continue our exemplary role. And we will never too proud to do better in this career to develop the quality of our C1000-173 Study Dumps to be the latest and valid.

Reliable C1000-173 Exam Cost Realistic Questions Pool Only at Exams4sures

Are really envisioned to attempt to be C1000-173 certified professional. Then enrolled in our preparation suite and get the perceptively planned actual Dumps in two accessible formats, PDF and preparation software. Exams4sures is the preeminent platform, which offers C1000-173 Dumps duly equipped by experts. Our C1000-173 Exam Material is good to pass the exam within a week. Exams4sures is considered as the top preparation material seller for C1000-173 exam dumps, and inevitable to carry you the finest knowledge on C1000-173 exam certification syllabus contents.

IBM C1000-173 Exam Syllabus Topics:

Topic	Details

Topic 1	• Plan for a Cloud Pak for Data Implementation: This section of the exam measures the skills of an Implementation Consultant and covers determining which Cloud Pak for Data services to deploy based on organizational needs. It involves sizing the Kubernetes • OpenShift cluster appropriately for workload demands and planning backup and restore strategies to ensure data protection. Planning for high availability and disaster recovery is essential to maintain uninterrupted service. Multi-tenancy requirements must be understood to support multiple user groups securely on shared infrastructure. Migration requirements need assessment to transition existing data and workloads smoothly.
Topic 2	• Architect with Data Source Services: This domain measures expertise of a Data Integration Architect and includes architecting solutions with data replication technologies to synchronize data across systems. IBM Data Virtualization architecture enables access to and querying of disparate data sources without data movement. Architecting with watsonx.data focuses on building intelligent data lakes and query engines. Architecting with Db2-related services involves designing scalable data management and processing architectures using IBM's Db2 platforms.
Topic 3	• Architect with Data Governance Services: This section evaluates skills of a Data Governance Specialist, covering the architecture of knowledge catalogs to enable data discovery and management. Data Privacy architectures ensure compliance with regulatory requirements around data protection. Knowledge Accelerators involve designing solutions that speed up data governance processes through predefined policies and templates.
Topic 4	• Architect with Analytic Services: This domain targets a Data Analytics Architect and focuses on designing solutions using analytic components of Cloud Pak for Data. Architecting with DataStage involves creating data integration and ETL pipelines. Data Refinery architectures prepare and cleanse data for analysis. Db2 Big SQL solutions address querying large distributed data sets with SQL, facilitating analytics across diverse data sources.
Topic 5	• Security Requirements: This domain targets a Security Architect and focuses on planning security for a Cloud Pak for Data deployment. It includes managing certificates that secure communications, identity management systems, and access and authorization controls to enforce secure and compliant user and service interactions. The auditing features and their integration with enterprise audit systems are crucial to ensure traceability and accountability. Asset interchange security involves safeguarding data movement between services.

IBM Cloud Pak for Data v4.7 Architect Sample Questions (Q145-Q150):

NEW QUESTION # 145
Which of the following statements best describes the business value of Watson Assistant?

- A. It improves customer engagement through AI-driven conversations.
- B. It offers an advanced platform for numerical computation.
- C. It significantly reduces the time required for data processing.
- D. It provides enhanced security for cloud-based services.

Answer: A

NEW QUESTION # 146
Which two features are valid only when deploying Cloud Pak for Data on-premises?

- A. Services are automatically updated.
- B. Persistent storage is always used.
- C. Network security is managed by IBM.
- D. Compute resources are automatically scaled.
- E. The number of OpenShift nodes is configured by the administrator.

Answer: B,E

Explanation:

In on-premises deployments of IBM Cloud Pak for Data:

Administrators have full control over the number of OpenShift nodes, unlike cloud-managed environments where node scaling may be automatic or abstracted.

Persistent storage is always required and configured by the infrastructure team to meet service requirements and ensure data availability.

Auto-scaling of compute and automatic updates of services are not handled by IBM in on-prem setups.

Network security responsibilities also lie with the deploying organization, not IBM, in an on-premises model.

NEW QUESTION # 147

What are two ways to customize Knowledge Accelerators to meet specific requirements?

- A. Use a GitHub Repo to manage any changes.
- B. Create a separate project for any customized content.
- C. Customize the content in a separate namespace.
- D. Change Knowledge Accelerator content inline.
- E. Place Knowledge Accelerator content in a "development" vocabulary separate from the main stream "enterprise vocabulary".

Answer: B,E

Explanation:

Customization of Knowledge Accelerators in IBM Cloud Pak for Data is a structured process to preserve the integrity of base content while allowing for extension. The recommended approaches include:

Creating a separate project for customizations, so that changes are isolated and easily managed without affecting the source accelerator.

Using a "development" vocabulary where custom terms and structures are created. This is separate from the "enterprise vocabulary," which contains the unmodified, original Knowledge Accelerator content.

Inline editing of the original content is discouraged. Use of GitHub or namespaces is not part of the official customization workflow.

NEW QUESTION # 148

What are the critical metrics to understand in a Disaster Recovery plan?

- A. Peak Load Time (PLT) and Off-Peak Recovery Time (OPRT)
- B. Recovery Time Objective (RTO) and Recovery Point Objective (RPO)
- C. Maximum Tolerable Downtime (MTD) and Minimum Necessary Downtime (MND)
- D. System Downtime Duration (SDD) and Data Access Time (DAT)

Answer: B

NEW QUESTION # 149

What scenario best illustrates the effective use of Db2 Graph services?

- A. When handling flat, tabular data
- B. Simple data aggregation without the need for graph theory
- C. Managing complex relationships and pattern recognition
- D. For basic CRUD operations without relationships

Answer: C

NEW QUESTION # 150

......

We would like to benefit our customers from different countries who decide to choose our C1000-173 study guide in the long run, so we cooperation with the leading experts in the field to renew and update our C1000-173 study materials. We can assure you that you will get the latest version of our C1000-173 Training Materials for free from our company in the whole year after payment. Do

not miss the opportunity to buy the best C1000-173 preparation questions in the international market which will also help you to advance with the times.
