1 / 4

Aspiring IBM professionals strive to excel in IBM C1000-173 exams such as the IBM Cloud Pak for Data v4.7 Architect (C1000-173) to achieve their dream careers. However, passing the C1000-173 Exam can be challenging, especially with a demanding schedule that leaves little time for preparation.

## IBM C1000-173 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Architect with Analytic Services: This domain targets a Data Analytics Architect and focuses on designing solutions using analytic components of Cloud Pak for Data. Architecting with DataStage involves creating data integration and ETL pipelines. Data Refinery architectures prepare and cleanse data for analysis. Db2 Big SQL solutions address querying large distributed data sets with SQL, facilitating analytics across diverse data sources.</li></ul>

Topic 2	<ul style="list-style-type: none"> <li>Architect with Data Governance Services: This section evaluates skills of a Data Governance Specialist, covering the architecture of knowledge catalogs to enable data discovery and management. Data Privacy architectures ensure compliance with regulatory requirements around data protection. Knowledge Accelerators involve designing solutions that speed up data governance processes through predefined policies and templates.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Plan for a Cloud Pak for Data Implementation: This section of the exam measures the skills of an Implementation Consultant and covers determining which Cloud Pak for Data services to deploy based on organizational needs. It involves sizing the Kubernetes</li> <li>OpenShift cluster appropriately for workload demands and planning backup and restore strategies to ensure data protection. Planning for high availability and disaster recovery is essential to maintain uninterrupted service. Multi-tenancy requirements must be understood to support multiple user groups securely on shared infrastructure. Migration requirements need assessment to transition existing data and workloads smoothly.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Architect with Data Source Services: This domain measures expertise of a Data Integration Architect and includes architecting solutions with data replication technologies to synchronize data across systems. IBM Data Virtualization architecture enables access to and querying of disparate data sources without data movement. Architecting with watsonx.data focuses on building intelligent data lakes and query engines. Architecting with Db2-related services involves designing scalable data management and processing architectures using IBM's Db2 platforms.</li> </ul>

## 2026 IBM C1000-173: IBM Cloud Pak for Data v4.7 Architect –Reliable New Practice Materials

Do you want to pass your exam by using the least time? C1000-173 exam braindumps of us can do that for you. With skilled professionals to compile and verify, C1000-173 exam dumps of us is high quality and accuracy. You just need to spend 48 to 72 hours on practicing, and you can pass your exam. We are pass guaranteed and money back guaranteed. If you fail to pass the exam, we will give you full refund. Besides, we offer you free demo to have a try before buying C1000-173 Exam Dumps. We also have free update for one year after purchasing.

### IBM Cloud Pak for Data v4.7 Architect Sample Questions (Q17-Q22):

#### NEW QUESTION # 17

What is Continuous Availability in the context of system design?

- A. Achieving near-zero downtime and data loss
- B. Planning for frequent and prolonged outages
- C. Allowing occasional system failures without backup
- D. Ensuring systems are never updated or maintained

**Answer: A**

#### NEW QUESTION # 18

Which plug-in is used by the Cloud Pak for Data Audit Logging service to forward audit records to a SIEM system?

- A. Apache Kafka output
- B. Fluentd output
- C. OSS/J
- D. Logstash output

**Answer: B**

Explanation:

The Audit Logging service in IBM Cloud Pak for Data uses Fluentd as the core log forwarding mechanism

Fluentd output plug-ins are configured to route audit logs to external SIEM systems such as Splunk or QRadar. These plug-ins are versatile and support multiple formats and transport protocols. Other options listed-like Logstash, OSS/J, or Kafka-are not the designated default forwarding mechanisms used within the CP4D Audit Logging architecture.

**NEW QUESTION # 19**

What is crucial when planning for Disaster Recovery?

- A. Ensuring minimal communication during recovery
- B. Ignoring potential threats and vulnerabilities
- **C. Defining acceptable downtime and data loss**
- D. Prioritizing less critical systems

**Answer: C**

**NEW QUESTION # 20**

What registry permissions does OpenShift cluster node require?

- A. While the bastion node pushes to the private registry, only the worker nodes pull images.
- B. Only the bastion node should be able to reach the registry.
- **C. All nodes must be able to push to and pull from the registry.**
- D. Only the master nodes ever require registry access.

**Answer: C**

Explanation:

In an OpenShift environment that hosts IBM Cloud Pak for Data, all cluster nodes-including master and worker nodes-must have access to the container registry to pull required images during deployment and runtime. In scenarios involving custom images, some nodes may also need to push to the registry. While the bastion node may initiate the setup or mirror images, it is not the only node involved. Therefore, all nodes should be configured with both pull and, where applicable, push access to the registry to ensure consistent deployment and operations.

**NEW QUESTION # 21**

What is a key feature of Data Replication on Cloud Pak for Data?

- A. Difficult to use interface
- B. Lack of integration with platform security
- **C. Agentless architecture**
- D. Requires complex agent-based architectures

**Answer: C**

**NEW QUESTION # 22**

.....

New latest IBM C1000-173 valid exam study guide can help you exam in short time. Candidates can save a lot time and energy on preparation. It is a shortcut for puzzled examinees to purchase C1000-173 valid exam study guide. If you choose our products, you only need to practice questions several times repeatedly before the real test. Our products are high-quality and high passing rate, and then you will obtain many better opportunities.
