最新的 BPM Certification CBPA 免費考試真題 (Q36-Q41):

問題 #36

What is the core responsibility of a process owner?

- A. Overall accountability for one or more business processes
- B. Oversight of team leaders from department or functional areas
- C. Managing employees in several functional areas of the organization
- D. Oversight of people who execute one or more business processes

答案： A

解題說明：

A process owner holds end-to-end accountability for the design, performance, and improvement of a business process. They ensure the process aligns with business goals and are responsible for delivering its intended outcomes.

"The process owner is accountable for managing the process end-to-end, across departmental boundaries, ensuring performance meets business objectives."

問題 #37

Which are the two types of Center of Excellence (CoE) for process governance?

- A. Centralized and decentralized
- B. Focused and unfocused
- C. Experts and specialists
- D. Global and regional

答案： A

解題說明：

BPM Centers of Excellence (CoEs) are typically structured as either:

* Centralized: One core team managing process standards and support across the enterprise.

* Decentralized: Localized teams within departments with process support tailored to specific needs.

"CoEs can be organized in centralized or decentralized models depending on governance preferences, organizational culture, and the scale of operations."

問題 #38

Which statement is true regarding Enterprise Process Management?

- A. BPM performs a high-level, strategic assessment of the organizational process view and performance.
- B. BPM is derived from the strategy of the organization.
- C. EPM is characterized by an extensive deployment of process management in the entire organization.
- D. EPM is characterized by an end-to-end process perspective.

答案： C

解題說明：

EPM is about embedding BPM principles across the entire enterprise, beyond isolated projects. It focuses on enterprise-wide process ownership, standardization, and strategic governance, making it comprehensive and long-term.

"EPM is the organization-wide integration of BPM concepts, characterized by strategic alignment, governance, and continuous improvement across all business areas."

問題 #39

Change management in Business Process Management (BPM) applies to

- A. Execution, financial reporting, and marketing
- B. Time, costs, and quality
- C. Operations, technology, and organization
- D. Customers, suppliers, and partners

答案： C

解題說明：

Change management in BPM is holistic - addressing process redesign impacts on operations, supporting technology, and the organizational structure. It ensures all elements of the enterprise adapt smoothly to the change.

"Successful BPM initiatives require change across operational procedures, enabling technologies, and organizational roles. Change management ensures these areas transition in sync."

- ABPMP CBOK, Chapter 7 - Process Transformation

Covered areas:

- * Operations: Daily workflows and job roles

- * Technology: Systems and tools

- * Organization: Structure, culture, and behavior

Reference: ABPMP CBOK, Chapter 7 - Process Transformation

問題 #40

What team should be created for process design?

- A. Stakeholders representing a cross-functional team
- **B. Stakeholders, subject matter experts, and individuals who interact with the process**
- C. Executive management, process owners, external consultants, and clients who believe in process
- D. Notation specialists, programmers, designers, and others involved with the project

答案: B

解題說明:

An effective process design team should include:

- * Stakeholders (to align with business needs)

- * Subject Matter Experts (SMEs) (for technical accuracy)

- * Frontline users and participants (for practical execution insights)

This ensures that the process is not only technically sound but also usable and adopted by those who execute it.

"Successful process design requires the collaboration of stakeholders, SMEs, and those involved in day-to-day operations. Their combined input ensures the process meets business objectives and operational practicality."
