GAQM CASPO-001 PDF Questions - Pass Your Exam With Ease

Passing a certification exam means opening up a new and fascination phase of your professional career. ValidVCE's exam dumps enable you to meet the demands of the actual certification exam within days. Hence they are your real ally for establishing your career pathway and get your potential attested. If you want to check the quality of CASPO-001 certificate dumps, then go for free demo of the dumps and make sure that the quality of our questions and answers serve you the best. You are not required to pay any amount or getting registered with us for downloading free dumps.

GAQM CASPO-001 (Certified Agile Scrum Product Owner) exam is a certification program designed to validate the knowledge and skills of professionals who are responsible for managing the product development process using Agile and Scrum

methodologies. Certified Agile Scrum Product Owner (CASPO) certification program is ideal for individuals who are interested in pursuing a career as a product owner or who are currently working in this role and want to enhance their knowledge of Agile and Scrum methodologies.

The CASPO-001 Certification Exam is recognized globally and is highly valued by employers. It demonstrates that the candidate has a deep understanding of agile product management principles and practices, and is capable of delivering high-quality products in an agile environment. Certified professionals are in high demand and can expect to earn higher salaries and have better career opportunities than their non-certified peers.

GAQM Certified Agile Scrum Product Owner (CASPO) Sample Questions (Q71-Q76):

NEW QUESTION # 71
When a Developers determines that it has over-committed itself for a Sprint, who has to be present when reviewing and adjusting the Sprint work selected? (Choose the best answer)

- A. The Product Owner and all stakeholders.
- B. The Scrum Master, project manager, and Developers.
- C. The Product Owner and the Developers.
- D. The Developers.

Answer: C

Explanation:
The Scrum Guide states that the Sprint Backlog is owned by the Developers, who are responsible for planning and executing the work to achieve the Sprint Goal. If they realize they've over-committed, they must adjust the Sprint Backlog. However, since the Product Owner is accountable for maximizing value and managing the Product Backlog, their involvement is critical to ensure adjustments align with value delivery and the Sprint Goal. The Scrum Guide notes: "The Product Owner may influence the Developers by helping them understand and select trade-offs." Option A includes a non-existent "project manager" role in Scrum, making it incorrect.
Option C involves stakeholders, who are not part of mid-Sprint adjustments (they provide feedback at the Sprint Review). Option D excludes the Product Owner, which is insufficient given their role. Thus, B is correct.

NEW QUESTION # 72
Which phrase best describes a Product Owner? (Choose the best answer)

- A. Value optimizer
- B. Requirements engineer
- C. Go-between between Developers and customers
- D. Team manager

Answer: A

Explanation:
The Scrum Guide defines the Product Owner as "accountable for maximizing the value of the product resulting from the work of the Scrum Team." Option B (Value optimizer) encapsulates this core focus on value delivery. Option A (Requirements engineer) is too narrow-while they manage requirements, their role transcends engineering to strategic vision. Option C (Team manager) is incorrect-they don't manage the team; the Scrum Master supports team self-management. Option D (Go-between) understates their authority; they actively shape the product, not just relay information. Thus, B is the best description.

NEW QUESTION # 73
During a Sprint Retrospective, for what is the Scrum Master responsible? (Choose the best answer)

- A. Summarizing and reporting the discussions to management.
- B. Participating as a Scrum Team member and facilitating as requested or needed.
- C. Prioritizing the resulting action items.
- D. Acting as a scribe to capture the Developers' answers.

Answer: B

Explanation:
TheScrumGuidedescribes the Sprint Retrospective as an event where the ScrumTeam inspects itself and plans improvements, with the ScrumMaster playing a dual role: "The ScrumMaster participates as a peer teammember in the Sprint Retrospective... and ensures that the event takes place and is positive and productive." Option C captures this-participating as a teammember and facilitating when needed. Option A (scribe) is too narrow and not required. Option B (prioritizing) is a teamdecision, not the Scrum Master's alone. Option D (reporting to management) violates Scrum's teamautonomy. Thus, C is correct.

NEW QUESTION # 74

What outcome is expected as ScrumTeams mature? (Choose the best answer)

- A. Their Definition of Done will improve to be more stringent
- B. The ScrumMaster's role will no longer be necessary
- C. Many of the Scrumevents will be optional

Answer: A

Explanation:
As ScrumTeams mature, they improve quality and effectiveness. TheScrumGuideimplies that the Definition of "Done" evolves: "As ScrumTeams mature, it is expected that their definitions of'Done' will expand to include more stringent criteria for higher quality."
* A:Events remain mandatory for Scrum's structure.
* B:The ScrumMaster remains vital for coaching and facilitation.

NEW QUESTION # 75

Must the Product Owner be present at the Sprint Retrospective? (Choose the best answer)

- A. It is optional. Attendance is only required when the Product Owner gets invited by the ScrumMaster.
- B. It is not allowed. The Sprint Retrospective is an opportunity for the ScrumTeam to inspect itself.
- C. It is mandatory. The Sprint Retrospective is an opportunity for the ScrumTeam to assess its performance and improve itself.

Answer: C

Explanation:
The Sprint Retrospective involves the entire ScrumTeam-Product Owner, ScrumMaster, and Developers- to inspect and improve. TheScrumGuidestates: "The ScrumTeam inspects how the last Sprint went with regards to individuals, interactions, processes, tools, and their Definition of Done." The Product Owner's presence is mandatory because they are part of the team, contributing to discussions on collaboration and process (e.g., backlog refinement).
* A:Optional attendance contradicts the team-wide focus.
* C:Exclusion is incorrect; it's not just for Developers.

NEW QUESTION # 76

......

Our system is high effective and competent. After the clients pay successfully for the CASPO-001 study materials the system will send the products to the clients by the mails. The clients click on the links in the mails and then they can use the CASPO-001 Study Materials immediately. Our system provides safe purchase procedures to the clients and we guarantee the system won't bring the virus to the clients' computers and the successful payment for our CASPO-001 study materials.
