Microsoft Power Platform Fundamentals or PL-900 certification exam is an introductory-level exam that is designed to test the foundational knowledge of candidates in the use of the Microsoft Power Platform. PL-900 exam is aimed at individuals who are interested in understanding the basics of the Power Platform and how it can be used to create custom business solutions.

Microsoft Power Platform is a suite of tools that enables organizations to create custom business solutions without requiring extensive coding experience. The platform includes four key components: Power Apps, Power Automate, Power BI, and Power Virtual Agents. The PL-900 Exam covers all four components, as well as common data service, connectors, and AI builder.

The PL-900 exam consists of 40-60 multiple-choice questions that must be completed within 60 minutes. PL-900 exam is available in several languages and can be taken either in-person or online. Microsoft provides study materials and practice exams to help individuals prepare for the exam. PL-900 exam covers topics such as the Power Platform architecture, Power Apps, Power Automate, Power BI, and Power Virtual Agents.
