

新版Esri EAPA_2025考古題，EAPA_2025考試內容

P.S. KaoGuTi在Google Drive上分享了免費的、最新的EAPA_2025考試題庫：https://drive.google.com/open?id=1wi0fohlhkqQrKOk_xHuhGHBQeGTU4MHI

想參加Esri的EAPA_2025認證考試嗎？你正在因為考試很難而發愁嗎？想報名參加考試，但是又擔心通過不了。你現在有這樣的心情嗎？沒關係，安心地報名吧。因為你只要用了KaoGuTi的資料，再難的考試也不是問題。即使你對通過考試一點信心也沒有，KaoGuTi的EAPA_2025考古題也可以保證你一次就輕鬆成功。覺得不可思議嗎？你可以來KaoGuTi的網站瞭解更多的資訊。另外，你還可以先試用EAPA_2025考古題的一部分。這樣的話你肯定就會知道，這個參考資料是你順利通過考試的保障。

Esri EAPA_2025 考試大綱：

主題	簡介
主題 1	Calculation of the Paycheck: This section of the exam measures skills of Payroll Analysts and covers the detailed components involved in calculating employee pay. It focuses on regular and fringe compensation, tax calculations, and both involuntary and voluntary deductions. Candidates are required to accurately determine employer contributions and total payroll amounts to ensure precise and compliant paycheck processing.
主題 2	Audits: This section of the exam measures skills of Payroll Auditors and covers the internal and external auditing processes of payroll operations. It focuses on implementing internal controls, ensuring system integrity, and maintaining compliance with audit policies and procedures. Candidates must understand how to assess third-party controls and coordinate audit activities to safeguard payroll accuracy and financial accountability.

主題 3	Core Payroll Concepts: This section of the exam measures skills of Payroll Specialists and covers the fundamental principles of payroll operations. It focuses on worker classification, compliance with the Fair Labor Standards Act, employment tax handling, and management of employee benefits. Candidates must understand employee and employer forms, professional responsibility in payroll management, and methods and timing of employee compensation to ensure accurate and lawful payment practices.
主題 4	Accounting: This section of the exam measures skills of Payroll Accountants and covers the financial principles tied to payroll reporting. It includes the preparation of payroll journal entries, application of accounting principles, and accurate financial reporting of payroll expenses. Candidates must ensure the integrity of payroll data within the organization's accounting systems and support financial audits through proper reconciliation and documentation.
主題 5	Payroll Process and Supporting Systems and Administration: This section of the exam measures skills of Payroll Systems Administrators and covers the operational and technical aspects of payroll management. It focuses on maintaining employee master files, understanding payroll system functionalities, and ensuring business continuity through effective technology use. Candidates must also demonstrate knowledge of system upgrades, maintenance, and project implementation within payroll environments.

EAPA_2025 考試內容，EAPA_2025 最新考證

您應該尋找那些真實可信的題庫商提供的EAPA_2025題庫資料，這樣對您通過考試是更有利，可信度高的Esri EAPA_2025題庫可幫助您快速通過認證考試，而KaoGuTi公司就是這樣值得您信賴的選擇。EAPA_2025題庫資料中的每個問題都由我們專業人員檢查審核，為考生提供最高品質的考古題。如果您希望在短時間內獲得Esri EAPA_2025認證，您將永遠找不到比KaoGuTi更好的產品了。

最新的 Associate Level EAPA_2025 免費考試真題 (Q12-Q17):

問題 #12

A GIS analyst has various datasets, maps, database connections, and toolboxes. The analyst plans on sharing this to their ArcGIS Online organization for easy access by coworkers.

Which package should be shared to the analyst's ArcGIS Online organization to facilitate collaboration by a coworker?

- A. Map package
- B. Mobile map package
- C. Project package

答案：C

解題說明：

Project packages (.pplx) contain all components of a project-including maps, layouts, database connections, styles, toolboxes, and models-making them ideal for sharing complete workspaces with coworkers who need access to everything.

* Mobile map packages (Option A) are designed for offline use on mobile devices.

* Map packages (Option B) include maps and data but do not include toolboxes, database connections, or project-level configurations.

Therefore, the correct answer is C.

-

問題 #13

A GIS analyst is trying to do some maintenance and clear up space as it relates to geodatabases while keeping editing capabilities intact.

Which tool should the analyst use?

- A. Compact
- B. Compress

- C. Compress File Geodatabase Data

答案： A

解題說明：

In ArcGIS Pro, the Compact tool is designed to optimize the physical storage of file geodatabases by reducing disk space usage while fully preserving the ability to edit the data. Compact reorganizes how data is stored on disk but does not change or lock the data content or schema, allowing continued editing.

* Compress is used with enterprise geodatabases (versioned geodatabases) and primarily affects state-tree compression; it's not applicable to file geodatabases.

* Compress File Geodatabase Data is not an ArcGIS Pro tool; this option is invalid in this context.

* Compact is the proper tool for file geodatabase maintenance to reduce file size and fragmentation, while fully maintaining editability.

Therefore, the correct answer is C.

問題 #14

A GIS intern is digitizing water body features within a state park using Esri's Imagery basemap for reference.

While creating a lake feature, the intern realizes that they mistook a large portion of the lakefront as part of the lake.

Which editing tool should the intern use to modify the lake feature?

- A. Merge
- **B. Reshape**
- C. Align Features

答案： B

解題說明：

The Reshape tool allows you to modify an existing polygon's shape by drawing a new boundary for part of the feature. This is ideal for correcting over-digitized areas by trimming or extending specific portions of the lake.

* Merge (Option B) combines multiple features but doesn't reshape geometry.

* Align Features (Option C) is used for snapping and aligning edges between features but not for altering individual shapes.

Therefore, the correct answer is A.

-

問題 #15

Which raster format can ArcGIS Pro display but not write?

- A. GIF
- **B. MrSID**
- C. IMAGINE Image

答案： B

解題說明：

ArcGIS Pro can read and display MrSID format rasters but cannot write or export data into MrSID format because it is a proprietary format that requires special licensing for encoding.

* IMAGINE Image (Option A) is fully supported for both reading and writing.

* GIF (Option B) can be written for exporting simple images but is not ideal for full raster datasets.

* MrSID (Option C) is read-only by default in ArcGIS Pro.

Therefore, the correct answer is C.

-

問題 #16

A GIS specialist needs to organize discontinuous imagery into a single dataset and wants to select individual rasters and download them when necessary.

Which dataset should be used to achieve this?

- A. LAS dataset
