In order to provide the most authoritative and effective MD-102 exam software, the IT elite of our Pass4sureCert study MD-102 exam questions carefully and collect the most reasonable answer analysis. The MD-102 Exam Certification is an important evidence of your IT skills, which plays an important role in your IT career.

Microsoft Endpoint Administrator Sample Questions (Q248-Q253):

NEW QUESTION # 248

You have a Microsoft 365 subscription that uses Microsoft Intune.

You plan to manage Windows updates by using Intune.

You create an update ring for Windows 10 and later and configure the User experience settings for the ring as shown in the following exhibit.

The screenshot shows the 'User experience settings' for Windows updates. The settings are as follows:

- Automatic update behavior: Auto install and restart at maintenance time
- Active hours start: 8 AM
- Active hours end: 5 PM
- Restart checks: Allow
- Option to pause Windows updates: Enable
- Option to check for Windows updates: Enable
- Change notification update level: Use the default Windows Update notifications
- Use deadline settings: Allow
- Deadline for feature updates: 5
- Deadline for quality updates: 2
- Grace period: 1
- Auto reboot before deadline: Yes

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

The screenshot shows the 'Answer Area' with two questions and their respective dropdown menus:

Automatic restarts are blocked [answer choice].

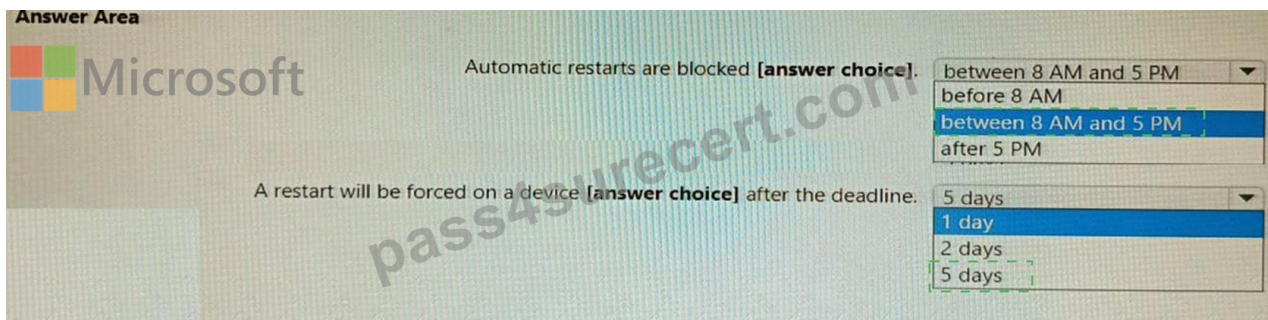

- between 8 AM and 5 PM
- before 8 AM
- between 8 AM and 5 PM (selected)
- after 5 PM

A restart will be forced on a device [answer choice] after the deadline.

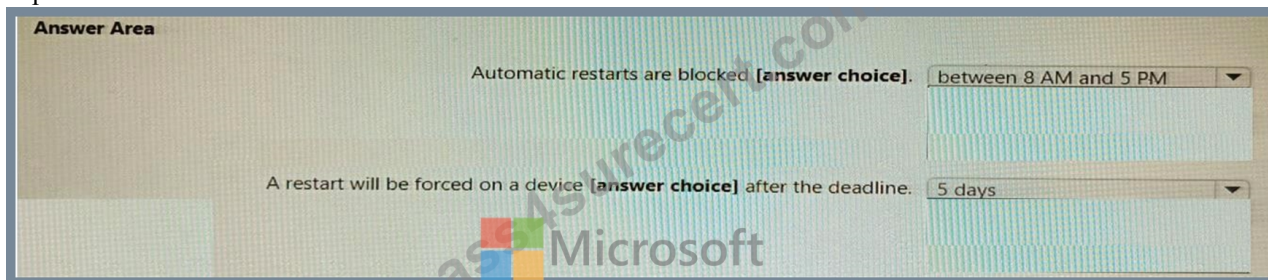

- 5 days
- 1 day (selected)
- 2 days
- 5 days

NEW QUESTION # 249

You need to implement mobile device management (MDM) for personal devices that run Windows 11. The solution must meet the following requirements:

- * Ensure that you can manage the personal devices by using Microsoft Intune.
- * Ensure that users can access company data seamlessly from their personal devices.
- * Ensure that users can only sign in to their personal devices by using their personal account What should you use to add the devices to Azure AD?

- A. AD joined
- **B. Azure AD registered**
- C. hybrid Azure AD join

Answer: B

Explanation:

To implement MDM for personal devices that run Windows 11, you should use Azure AD registered. Azure AD registered devices are devices that are connected to your organization's resources using a personal device and a personal account. You can manage these devices by using Microsoft Intune and enable seamless access to company data. Users can only sign in to their personal devices by using their personal account, not their organizational account. Azure AD registered devices support Windows 10 or newer, iOS, Android, macOS, and Ubuntu 20.04/22.04 LTS1.

The other options are not suitable for this scenario because:

Hybrid Azure AD join is for corporate-owned and managed devices that are joined to both on-premises Active Directory and Azure AD. Users can sign in to these devices by using their organizational account that exists in both directories2.

AD joined is for devices that are joined only to on-premises Active Directory. These devices are not managed by Microsoft Intune and do not have access to cloud resources3.

NEW QUESTION # 250

Your network contains an Active Directory domain. The domain contains computers that run Windows 10.

All users use Roaming User Profiles.

You have a user named Public1 that is used to sign-in to a public computer.

You need to prevent changes to the user settings of Public1 from being saved to the user profile.

What should you do?

- A. Rename Ntuser.dat to Ntuser.v6
- B. Rename the Roaming User Profile folder to Public1.v1
- **C. Rename Ntuser.dat to Ntuser.man**
- D. Rename the Roaming User Profile folder to Public1.man

Answer: C

Explanation:

User profiles become mandatory profiles when the administrator renames the NTuser.dat file (the registry hive) of each user's profile in the file system of the profile server from NTuser.dat to NTuser.man. The .man extension causes the user profile to be a read-only profile.

NEW QUESTION # 251

Your company has an infrastructure that has the following:

- * A Microsoft 365 tenant
- * An Active Directory forest
- * Microsoft Intune
- * A Key Management Service (KMS) server
- * A Windows Deployment Services (WDS) server
- * An Azure AD Premium tenant

The company purchases 100 new client computers that run Windows.

You need to ensure that the new computers are joined automatically to Azure AD by using Windows Autopilot.

What should you use? To answer, select the appropriate options in the answer area, NOTE: Each correct selection is worth one point.

Answer Area

Management tool:

▼

- Microsoft Entra admin center
- Microsoft Intune admin center
- Volume Activation Management Tool console
- Windows Deployment Services console

Required information from each computer:

▼

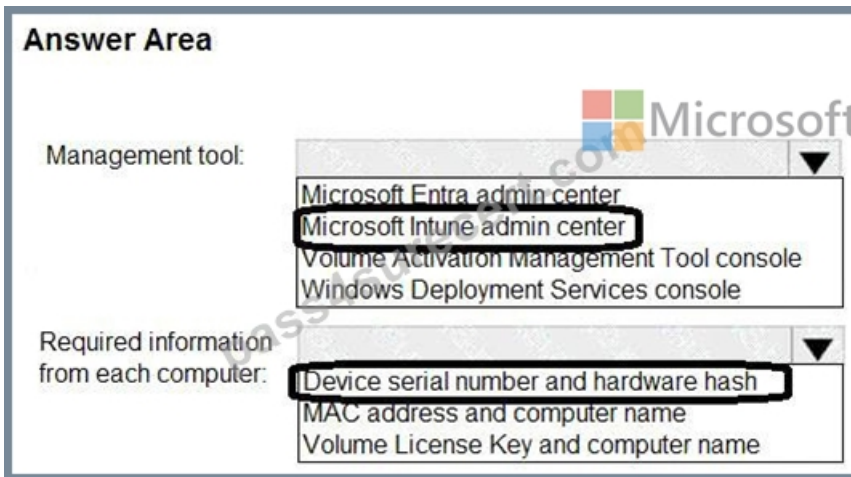

- Device serial number and hardware hash
- MAC address and computer name
- Volume License Key and computer name

Answer:

Explanation:

The screenshot shows the 'Answer Area' with the Microsoft logo. Under 'Management tool:', the selected options are 'Microsoft Entra admin center' and 'Microsoft Intune admin center'. Under 'Required information from each computer:', the selected options are 'Device serial number and hardware hash' and 'MAC address and computer name'.

NEW QUESTION # 252

You have an Azure AD tenant that contains the devices shown in the following table.

Name	Operating system	Azure AD join type
Device1	Windows 11 Pro	Joined
Device2	Windows 11 Pro	Registered
Device3	Windows 10 Pro	Joined
Device4	Windows 10 Pro	Registered

Which devices can be activated by using subscription activation?

- A. Device1 and Device2 only
- B. Device1 and Device3 only
- C. Device 1 only
- D. Device1, Device2, Device3, and Device4

Answer: B

NEW QUESTION # 253

.....

No matter who you are, I believe you can do your best to achieve your goals through our MD-102 Preparation questions! For we have three different versions of MD-102 exam materials to satisfy all your needs. The PDF version of MD-102 practice guide can be printed so that you can take it wherever you go. And the Software version can simulate the real exam environment and support offline practice. Besides, the APP online can be applied to all kind of electronic devices.
