

New OGEA-101 Test Experience | Latest OGEA-101 Dumps Book

BONUS!!! Download part of Dupleader OGEA-101 dumps for free: https://drive.google.com/open?id=192apj3LWml_PhT33G865a3bwVR2HeC2N

Three different formats of OGEA-101 exam study material are available at Dupleader. These formats include OGEA-101 dumps PDF files, desktop The Open Group OGEA-101 practice exam software, and a web-based OGEA-101 practice test. Professionals have designed the product according to the most recent syllabus of the OGEA-101 test in mind. Let's find out the prominent features of these latest The Open Group OGEA-101 exam questions format.

We are aimed to develop a long-lasting and reliable relationship with our customers who are willing to purchase our OGEA-101 study materials. To enhance the cooperation built on mutual-trust, we will renovate and update our system for free so that our customers can keep on practicing our OGEA-101 study materials without any extra fee. Meanwhile, to ensure that our customers have greater chance to pass the exam, we will make our OGEA-101 test training keeps pace with the digitized world that change with each passing day. In this way, our endeavor will facilitate your learning as you can gain the newest information on a daily basis and keep being informed of any changes in OGEA-101 test. Therefore, our customers can save their limited time and energy to stay focused on their study as we are in charge of the updating of our OGEA-101 test training. It is our privilege and responsibility to render a good service to our honorable customers.

Latest OGEA-101 Dumps Book | Latest OGEA-101 Material

Free update for 365 days is available if you buy OGEA-101 exam braindumps from us. That is to say, in the following year, you can get the latest information about the OGEA-101 exam dumps timely. And the update version will be sent to your email automatically. In addition, the OGEA-101 Exam Braindumps are compiled by experienced experts who are quite familiar with the dynamics about the exam center, therefore the quality and accuracy of the OGEA-101 exam braindumps can be guaranteed.

The Open Group OGEA-101 Exam Syllabus Topics:

Topic	Details
-------	---------

Topic 1	<ul style="list-style-type: none"> • Fundamental Concepts of Enterprise Architecture: This topic covers the definition, purpose, and benefits of enterprise architecture, emphasizing its role in aligning business objectives with IT strategies. It measures the understanding of TOGAF practitioners about foundational principles essential for effective enterprise architecture practice, crucial for passing the OGEA-101 exam.
Topic 2	<ul style="list-style-type: none"> • Business Architecture: This topic of The Open Group OGEA-101 exam emphasizes the development of business architecture, including baseline and target architectures. It measures the understanding of TOGAF practitioners about business capabilities and processes.
Topic 3	<ul style="list-style-type: none"> • Architecture Change Management: Focusing on managing architecture changes, this topic of the TOGAF Enterprise Architecture Part 1 exam assesses skills of practitioners in handling change requests and maintaining architecture repositories.
Topic 4	<ul style="list-style-type: none"> • Architecture Governance: This topic of The Open Group OGEA-101 Exam covers the governance framework and responsibilities of architecture boards. It evaluates the skills of TOGAF practitioners in establishing governance structures.
Topic 5	<ul style="list-style-type: none"> • Information Systems Architecture: Focusing on data and application architectures, this topic of the OGEA-101 exam assesses ability of TOGAF practitioners to define and manage information systems. It measures their skills in identifying data entities and application components.
Topic 6	<ul style="list-style-type: none"> • Architecture Content Framework: Candidates learn about the TOGAF content metamodel and architecture artifacts. This topic of the OGEA-101 exam measures their understanding of content organization and documentation.
Topic 7	<ul style="list-style-type: none"> • Introduction to the Architecture Development Method (ADM): The ADM is central to TOGAF, outlining a structured approach to developing and managing enterprise architecture. This section assesses comprehension of TOGAF practitioners about the ADM phases and their application, ensuring they grasp the method's iterative nature, which is vital for the OGEA-101 exam.

The Open Group TOGAF Enterprise Architecture Part 1 Exam Sample Questions (Q135-Q140):

NEW QUESTION # 135

Refer to the table below:

Phase	Output & Outcome	Essential Knowledge
?	Completion of the projects to implement the changes necessary to reach the adjusted target state.	Purpose and constraints on the implementation team. (Gap, Architecture Requirement Specification, Control) How stakeholder priority and preference adjust in response to success, value, effort, and risk of change. (Stakeholder Requirements)

Which ADM Phase does this describe?

- A. Phase G
- B. Phase F
- C. Phase A
- D. Phase E

Answer: A

Explanation:

The table describes the output, outcome, and essential knowledge of an ADM phase that oversees the implementation of changes necessary to reach the adjusted target state. This corresponds to Phase G, also known as Implementation Governance, which ensures that the architecture defined in earlier phases is realized, and it oversees the development and implementation of projects to align with this architecture. The essential knowledge required during this phase includes understanding constraints on the implementation team and adjusting stakeholder priority and preference in response to success, value, effort, and risk of change.

NEW QUESTION # 136

Consider the following statements:

1. Each contracted party is required to act responsibly to the organization and its stakeholders.
2. All decisions taken, processes used, and their implementation will not be allowed to create unfair advantage to any one particular party.
3. Digital Transformation and operations will be more effective and efficient.
4. Strategic decision-making by C-Level executives and business leaders will be more effective.

Which statements highlight the value and necessity for Architecture Governance to be adopted within organizations?

- A. 1 & 2
- B. 2 & 3
- C. 1 & 4
- D. 3 & 4

Answer: A

Explanation:

Architecture governance is the practice of ensuring compliance with the enterprise architecture and its principles, standards, and goals. Architecture governance provides the means to establish, monitor, and control the architecture development and implementation processes, and to resolve any issues or conflicts that may arise. Architecture governance also ensures that all stakeholders are represented and involved in the decision-making process, and that their interests and concerns are balanced and aligned. Statements 1 and 2 highlight the value and necessity for architecture governance to be adopted within organizations, as they emphasize the importance of responsibility, accountability, fairness, and transparency in the architectural activities. Statements 3 and 4 are more related to the benefits and outcomes of having a good enterprise architecture, rather than the governance aspect. The TOGAF Standard, Version 9.2, Part VI: Architecture Capability Framework, Chapter 50: Architecture Governance : The TOGAF Standard, Version 9.2, Part III: ADM Guidelines and Techniques, Chapter 29: Architecture Governance

NEW QUESTION # 137

What are the four dimensions used to scope an architecture?

- A. Breadth Depth Time Period Architecture Domains
- B. Business Data Application Technology
- C. Strategy Segment Capability Budget
- D. Strategy Portfolio Project Solution Delivery

Answer: A

Explanation:

* The four dimensions used to scope an architecture are Breadth, Depth, Time Period, and Architecture Domains¹, p. 8.

* Breadth refers to the extent of the enterprise covered by the architecture, which can range from a specific business unit to the entire organization¹, p. 8.

* Depth refers to the level of detail and completeness of the architecture, which can vary depending on the purpose, scope, and stakeholders of the architecture¹, p. 8.

* Time Period refers to the temporal aspects of the architecture, such as the current state, the target state, and the transition plan¹, p. 8.

* Architecture Domains refers to the classification of the architecture into four domains: Business, Data, Application, and Technology¹, p. 8.

* These four dimensions help define the scope and boundaries of the architecture and ensure that it meets the needs and expectations of the stakeholders.

NEW QUESTION # 138

Consider the following descriptions of deliverables consumed and produced across the TOGAF ADM cycle.

1-General rules and guidelines, intended to be enduring and seldom amended, that inform and support the way in which an organization sets about fulfilling its mission

1-The joint agreements between development partners and sponsors on the deliverables, quality, and fitness-for-purpose of an architecture.

1-A document that is sent from the sponsoring organization to the architecture organization to trigger the start of an architecture development cycle

1-A set of quantitative statements that outline what an implementation project must do in order to comply with the architecture.

Which deliverables match these descriptions?

- A. 1 Architecture Principles -2 Architecture Contracts - 3 Architecture Requirements Specification-4 Request for Architecture Work
- B. 1 Architecture Requirements Specification -2 Architecture Principles - 3 Architecture Vision - 4 Architecture Contracts
- C. 1 Architecture Contracts - 2 Architecture Requirements Specification - 3 Architecture Vision - 4 Architecture Principles
- D. 1 Architecture Principles -2 Architecture Contracts - 3 Request for Architecture Work - 4 Architecture Requirements Specification

Answer: D

Explanation:

According to the TOGAF standard, the deliverables that match the descriptions are as follows:

* 1 Architecture Principles: These are general rules and guidelines, intended to be enduring and seldom amended, that inform and support the way in which an organization sets about fulfilling its mission¹. They reflect a level of consensus among the various elements of the enterprise, and form the basis for making future IT decisions¹.

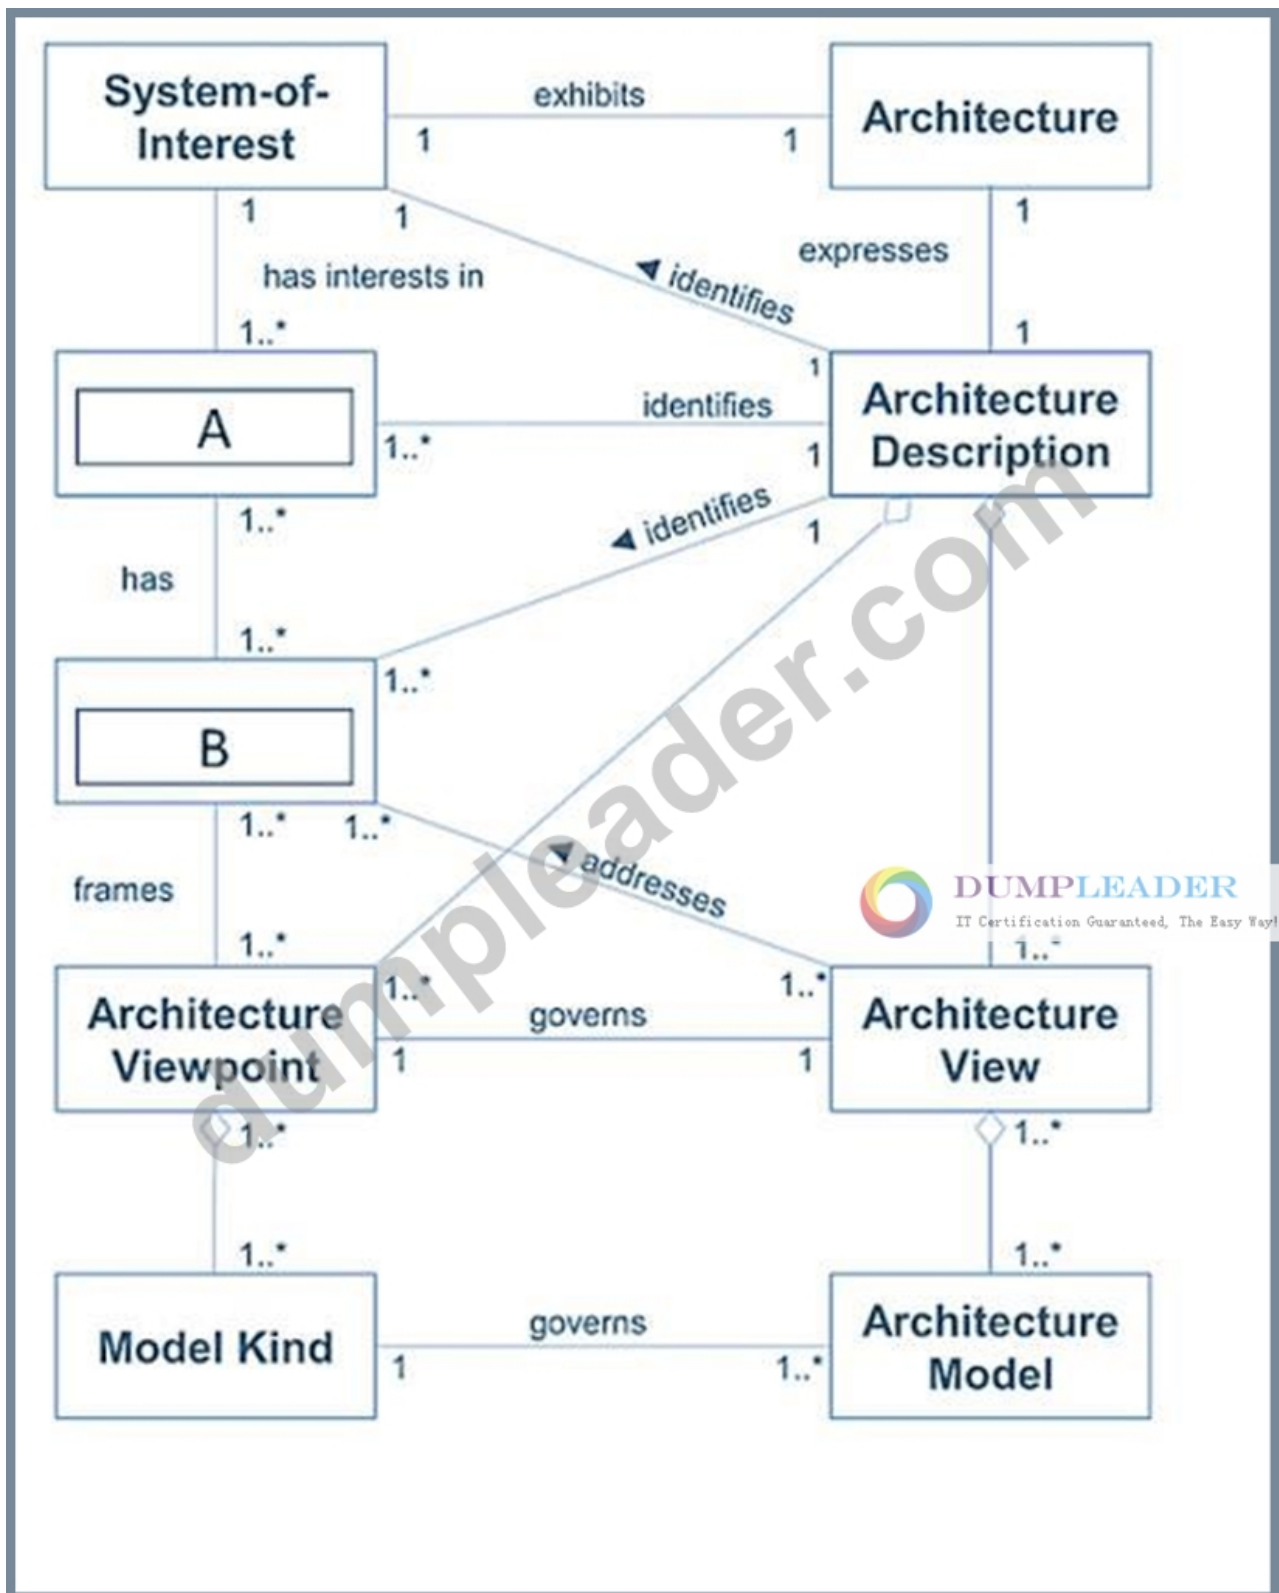

* 2 Architecture Contracts: These are the joint agreements between development partners and sponsors on the deliverables, quality, and fitness-for-purpose of an architecture². They are used to ensure that the architecture is implemented and governed according to the agreed-upon specifications and standards².

* 3 Request for Architecture Work: This is a document that is sent from the sponsoring organization to the architecture organization to trigger the start of an architecture development cycle³. It defines the scope, schedule, budget, deliverables, and stakeholders of the architecture project³.

* 4 Architecture Requirements Specification: This is a set of quantitative statements that outline what an implementation project must do in order to comply with the architecture⁴. It defines the requirements for each architecture domain, as well as the relationships and dependencies among them⁴.

NEW QUESTION # 139

Exhibit:

Consider the image showing basic architectural concepts.

What are items A and B?

- A. A-Base Architecture, B-Target Architecture
- B. A-User, B-Requirement
- C. A-Stakeholder, B-Concern
- D. A-Candidate Architecture, B-Trade-off

Answer: C

Explanation:

In the context of TOGAF, a stakeholder is any individual, team, or organization who has interests in, or concerns relative to, the

outcome of the architecture. Concerns are those interests which pertain to any aspect of the system's functioning, development or operation, including considerations such as performance, reliability, and security¹. References:
