Free PDF 2026 DSCI Marvelous DCPLA: DSCI Certified Privacy Lead Assessor DCPLA certification Dumps Questions

DSCI Certified Privacy Lead Assessor DCPLA certification (DCPLA) questions is a comprehensive solution for DCPLA exam preparation, offering a wide range of features designed to help you succeed. The DSCI exam is an essential milestone to achieve the DCPLA Certification. With DCPLA exam dumps, you'll have access to DSCI DCPLA actual questions that are enough to crack the DCPLA exam in a short time.

DSCI Certified Privacy Lead Assessor DCPLA certification Sample Questions (Q43-Q48):

NEW QUESTION # 43
_____ calls for inclusion of data protection from the onset of the designing of systems.

- **A. Privacy by Design**
- B. Logical Design
- C. Agile Model
- D. Safeguarding Approach

Answer: A

Explanation:
The concept of "Privacy by Design" is a core principle emphasized in the DSCI Privacy Framework (DPF©) and DSCI Assessment Framework for Privacy (DAF-P©). This principle requires that privacy be integrated into the design specifications and architecture of IT systems and business processes, right from the start of the development process rather than being added later as an afterthought.
The DSCI Privacy Framework states:
"Privacy by Design is a proactive approach that embeds privacy into the design and operation of IT systems, networked infrastructure, and business practices. It aims to ensure that privacy is built into the system by default, thereby preventing privacy-invasive events before they happen." This ensures data protection is foundational to system architecture and not merely a compliance requirement added later. This proactive method mitigates risks and enhances user trust by safeguarding personal information through preventive measures rather than reactive ones.

NEW QUESTION # 44
The method of personal data usage in which the users must explicitly decide not to participate.

- A. Data mining
- **B. Opt-out**
- C. Opt-In
- D. Data matching

Answer: B

Explanation:
The term "Opt-out" refers to a consent model in which individuals are automatically included in a data processing activity or program unless they explicitly indicate their desire not to participate.
Under the DSCI Privacy Framework, "Opt-out" is contrasted with "Opt-in," where explicit affirmative consent is required before processing.
Opt-out is often implemented through mechanisms like pre-checked boxes or default settings, which the user can change. This is particularly common in direct marketing scenarios or cookies for analytics. The DAF-P considers whether such consent mechanisms align with fairness and transparency principles.

NEW QUESTION # 45
There are several privacy incidents reported in an organization. The organization plans to analyze and learn from these incidents. Which privacy practice will the organization have to implement for the same?

- A. Information usage and access
- B. Privacy contract management
- **C. Privacy monitoring and incident management**
- D. Privacy awareness and training

Answer: C

NEW QUESTION # 46

From the following list, identify the technology aspects that are specially designed for upholding privacy:

I) Data minimization
II) Intrusion prevention system
III) Data scrambling
IV) Data loss prevention
V) Data portability
VI) Data obfuscation
VII) Data encryption
VIII) Data mirroring

* A. Only I, III, V, VII and VIII
* B. Only I, II, III, VII and VIII
* C. Only I, III, IV, VI and VII
* D. Only II, V, VI, VII and VIII

Answer: C

Explanation:
Privacy-enhancing technologies (PETs) are critical for operationalizing privacy principles. According to the DPF©:
* Data minimization (I): Collect only necessary data
* Data scrambling (III), Obfuscation (VI), and Encryption (VII): Techniques to protect identity and data content
* Data loss prevention (IV): Prevent unauthorized sharing or leakage
Data mirroring and intrusion prevention systems are primarily security mechanisms and not specifically privacy-focused. Data portability, while a right, is not a technology per se for "upholding" privacy but for enabling user control.
Thus, C includes the most appropriate privacy technologies.

NEW QUESTION # 47

Categorise the following statements as
Visibility/ Capability Enforcement Demonstration Problems
"Regulator fined an organization for not being able to give enough evidence for due diligence it followed"

* A. Visibility
* B. Enforcement
* C. Demonstration
* D. Capability

Answer: D

NEW QUESTION # 48

......

Do you want to find a job that really fulfills your ambitions? That's because you haven't found an opportunity to improve your ability to lay a solid foundation for a good career.
