真實的ECCouncil 212-82: 新版Certified Cybersecurity Technician題庫 - 完美的NewDumps 212-82題庫

NewDumps對客戶的承諾是我們可以幫助客戶100%通過IT認證考試。NewDumps的產品的品質是經很多IT專家認證的。我們產品最大的特點就是具有很大的針對性，只需要20個小時你就能完成培訓課程，而且能輕鬆通過你的第一次參加的ECCouncil 212-82 認證考試。選擇NewDumps你將不會後悔，因為它代表了你的成功。

最新的 Cyber Technician (CCT) 212-82 免費考試真題 (Q154-Q159):

問題 #154

Cassius, a security professional, works for the risk management team in an organization. The team is responsible for performing various activities involved in the risk management process. In this process, Cassius was instructed to select and implement appropriate controls on the identified risks in order to address the risks based on their severity level.

Which of the following risk management phases was Cassius instructed to perform in the above scenario?

- A. Risk prioritization
- **B. Risk treatment**
- C. Risk analysis
- D. Risk identification

答案： B

解題說明：

Risk treatment is the risk management phase that Cassius was instructed to perform in the above scenario. Risk management is a process that involves identifying, analyzing, evaluating, treating, monitoring, and reviewing risks that can affect an organization's objectives, assets, or operations. Risk management phases can be summarized as follows: risk identification, risk analysis, risk prioritization, risk treatment, and risk monitoring . Risk identification is the risk management phase that involves identifying and documenting potential sources, causes, events, and impacts of risks. Risk analysis is the risk management phase that involves assessing and quantifying the likelihood and consequences of risks. Risk prioritization is the risk management phase that involves ranking risks based on their severity level and determining which risks need immediate attention or action. Risk treatment is the risk management phase that involves selecting and implementing appropriate controls or strategies to address risks based on their severity level . Risk treatment can include avoiding, transferring, reducing, or accepting risks. Risk monitoring is the risk management phase that involves tracking and reviewing the performance and effectiveness of risk controls or strategies over time.

問題 #155

Leilani, a network specialist at an organization, employed Wireshark for observing network traffic. Leilani navigated to the Wireshark menu icon that contains items to manipulate, display and apply filters, enable, or disable the dissection of protocols, and configure user-specified decodes.

Identify the Wireshark menu Leilani has navigated in the above scenario.

- A. Statistics
- B. Main toolbar
- C. Analyze
- **D. Capture**

答案： D

解題說明：

Capture is the Wireshark menu that Leilani has navigated in the above scenario. Wireshark is a network analysis tool that captures and displays network traffic in real-time or from saved files. Wireshark has various menus that contain different items and options for manipulating, displaying, and analyzing network data. Capture is the Wireshark menu that contains items to start, stop, restart, or save a live capture of network traffic. Capture also contains items to configure capture filters, interfaces, options, and preferences . Statistics is the Wireshark menu that contains items to display various statistics and graphs of network traffic, such as packet lengths, protocols, endpoints, conversations, etc. Main toolbar is the Wireshark toolbar that contains icons for quick access to common functions, such as opening or saving files, starting or stopping a capture, applying display filters, etc. Analyze is the Wireshark menu that contains items to manipulate, display and apply filters, enable or disable the dissection of protocols, and configure user-specified decodes.

問題 #156

Which security measure can help prevent SQL injection attacks? (Select all that apply)

- **A. Input validation**
- **B. Code obfuscation**
- C. Using weak passwords
- D. Cross-site scripting (XSS)

答案： A,B

問題 #157

A renowned research institute with a high-security wireless network recently encountered an advanced cyber attack. The attack was not detected by traditional security measures and resulted in significant data exfiltration.

The wireless network was equipped with WPA3 encryption, MAC address filtering, and had disabled SSID broadcasting.

Intriguingly, the attack occurred without any noticeable disruption or changes in network performance. After an exhaustive forensic analysis, the cybersecurity team pinpointed the attack method.

Which of the following wireless network-specific attacks was most likely used?

- A. Bluesnarfing, exploiting Bluetooth connections to access network data
- B. Jamming Attack, disrupting network communications with interference signals
- C. KRACK (Key Reinstallation Attack), exploiting vulnerabilities in the WPA2 protocol
- **D. Evil Twin Attack, where a rogue access point mimics a legitimate one to capture network traffic**

答案： D

解題說明：

* Definition of Evil Twin Attack:

* An Evil Twin Attack involves setting up a rogue access point that mimics a legitimate Wi-Fi network. Unsuspecting users connect to this rogue AP, allowing the attacker to intercept and capture network traffic.

問題 #158

An organization's risk management team identified the risk of natural disasters in the organization's current location. Because natural disasters cannot be prevented using security controls, the team suggested to build a new office in another location to eliminate the identified risk. Identify the risk treatment option suggested by the risk management team in this scenario.

- A. Risk retention
- B. Risk modification
- **C. Risk avoidance**
- D. Risk sharing

答案： C

解題說明：

Risk avoidance is the risk treatment option suggested by the risk management team in this scenario. Risk avoidance is a risk treatment option that involves eliminating the identified risk by changing the scope, requirements, or objectives of the project or activity. Risk avoidance can be used when the risk cannot be prevented using security controls or when the risk outweighs the benefits.

問題 #159

.....

我們都清楚的知道，在IT行業的主要問題是缺乏一個品質和實用性。我們的NewDumps ECCouncil的212-82考古題及答案為你準備了你需要的一切的考試培訓資料，和實際認證考試一樣，選擇題（多選題）有效的幫助你通過考試。我們NewDumps ECCouncil的212-82的考試培訓資料，是核實了的考試資料，這些問題和答案反應了我們NewDumps的專業性及實際經驗。
