NCP PRACTICE QUESTIONS WITH COMPLETE SOLUTIONS

Which of the following is a component of the nutrition care process that is new to the field of nutrition professionals?

- C. correct answer: a. Conducting nutrition assessments
- b. Implementing nutrition interventions
- c. Using dietetics specific terminology
- d. Monitoring and evaluation

What is the first step in the Nutrition Care Process? correct answer: nutrition assessment

The NCP and Model and standardized language can be incorporated into which of the following methods of medical record documentation?

- E. correct answer: a. SOAP
- b. DAR
- c. Narrative
- d. ADI or ADIME
- e. All of the above

Which of the following reflect the way a RD actually completes the nutrition care process?

- D. correct answer: a. The steps are always conducted in the order shown in the NCP: nutrition assessment, nutrition diagnosis, nutrition intervention and finally nutrition monitoring and evaluation.
- b. You may return to add more data to nutrition assessment and then revise your nutrition diagnosis, intervention if the patient provides additional information during your nutrition counseling intervention
- c. Often during the course of providing nutrition care, the steps do not occur in a linear fashion.
- d. Both b and c are correct

Which steps provide data that will likely lead to the selection of data for monitoring and evaluations?

- E- (The data in the nutrition diagnoses used for signs and symptoms comes from the nutrition assessment; however there are a lot of other data that is not relevant that would have been assessed. The data selected for the nutrition diagnoses signs and symptom should be directly applicable) correct answer: a. Nutrition Assessment (data evaluated compared to standards)
- b. Nutrition Diagnoses (signs and symptoms of PES statement)
- c. Nutrition Intervention (outcomes of interventions)
- d. Nutrition Screening (data used to identify need for nutrition care)
- e. Both a and b

Etiology is documented in which step of the Nutrition Care Process

In recent year, certificate for the exam has raised great popularity, since certificate may be directly related to the salary or your future development. We have NCP-NS Exam Dumps to help you get a certificate you want. The quality of the NCP-NS learning materials is reliable, and it has gotten popularity in our customer. Besides if you have any questions, please contact with our service staff, we will give you reply as quickly as possible, and if you are very urgent, you can just contact our live chat service staff.

If someone who can pass the exam, they can earn a high salary in a short time. If you decide to beat the exam, you must try our NCP-NS exam torrent, then, you will find that it is so easy to pass the exam. You only need little time and energy to review and prepare for the exam if you use our Nutanix Certified Professional Network & Security v6.10 prep torrent as the studying materials. So it is worthy for them to buy our product. We provide the introduction of the features and advantages of our NCP-NS Test Prep as follow so as to let you have a good understanding of our product before your purchase.

NCP-NS Latest Study Questions & Actual NCP-NS Test Answers

The TopExamCollection Nutanix Certified Professional Network & Security v6.10 (NCP-NS) exam dumps are being offered in three different formats. All these three NCP-NS exam dumps formats contain the real Nutanix NCP-NS exam questions that will help you to streamline the NCP-NS Exam Preparation process. The TopExamCollection Nutanix NCP-NS PDF dumps file is a collection of real, valid, and updated NCP-NS practice questions that are also easy to install and use.

Nutanix NCP-NS Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Deploy and Upgrade a Flow Environment: Covers preparing clusters for Flow Network Security and Virtual Networking, managing upgrade paths and dependencies, configuring virtual switches and MTU, and administering user roles and RBAC permissions.
Topic 2	<ul style="list-style-type: none">• Configure Flow Virtual Networking: Covers creating and managing VPCs, overlay networks, external connectivity options, BGP peering, load balancing, and policy based routing within Nutanix Flow Virtual Networking.
Topic 3	<ul style="list-style-type: none">• Troubleshoot Flow Virtual Networking: Covers diagnosing and resolving connectivity failures, BGP issues, gateway health problems, and interpreting alerts and logs related to virtual networking components.
Topic 4	<ul style="list-style-type: none">• Troubleshoot Flow Network Security: Covers identifying policy-related traffic issues, analyzing security hit logs and audit logs, and troubleshooting identity based policy failures tied to Active Directory group mapping.
Topic 5	<ul style="list-style-type: none">• Configure Flow Network Security: Covers analyzing application traffic flows, creating and configuring isolation, application, and identity based security policies, and managing policy lifecycle modes in Flow Network Security.

Nutanix Certified Professional Network & Security v6.10 Sample Questions (Q84-Q89):

NEW QUESTION # 84

The alert details mention a specific external network. Attempts to assign new Floating IPs to VMs fail, but existing Floating IPs continue to work.

What is the cause of this alert?

- A. The VPC's connection to the external network is down.
- B. A firewall is blocking communication between Prism Central and the VPC's virtual router.
- **C. There are no more available IP addresses in the address pool configured for Floating IPs in that external network.**
- D. A firewall is blocking communication between Prism Central and the VPC's virtual router.

Answer: C

NEW QUESTION # 85

An administrator uses Nutanix Flow to secure a three-tier application (Web, App, and Database tiers).

After observing the traffic, they find that:

The Web tier communicates with the App tier over HTTP (port 80)

The App tier communicates with the Database tier over TCP port 1433

The Database tier does not initiate connections

The Web tier receives inbound HTTP traffic from the corporate DMZ on port 8080 No other traffic should be allowed What should the administrator do to document and then securely apply these flows in Nutanix Flow?

- A. Disable traffic-flow discovery and configure all policies manually.
- **B. Use Flow Network Visualization to capture observed flows and convert them into microsegmentation security policies.**
- C. Manually create isolation policies between all VMs in the environment.
- D. Add all VMs to a single security policy to simplify communication.

Answer: B

NEW QUESTION # 86

A customer wants to migrate VMs from a VLAN Basic Subnet to an Overlay Subnet with the same IP prefix.

Which migration approach ensures minimal disruption?

- A. Change IPAM mode to unmanaged to allow manual IP assignment.
- B. Enable trunk mode on VLAN to allow multiple subnets on the same interface.
- **C. Create a Layer 2 connectivity between the subnets and perform live migration.**
- D. Perform cold migration, acknowledging that ingress/egress connections will not be preserved.

Answer: C

NEW QUESTION # 87

An administrator wants to configure the subnet 10.1.1.0/24 to stretch across two VPCs over a Network Gateway in VXLAN mode. The VMs on this subnet need to communicate with a traffic pattern of size 2000 Bytes.

What is the minimum MTU required in the underlay network to ensure communication happens without fragmentation or traffic drops?

- **A. 2058 Bytes**
- B. 2116 Bytes
- C. 9216 Bytes
- D. 2108 Bytes

Answer: A

NEW QUESTION # 88

An administrator creates an Isolation Policy in Prism Central to prevent communication between the Prod and Staging environments. The policy is in Enforce mode... but VMs in the two environments can still communicate.

Which configuration issue most likely explains why the Isolation Policy is not blocking the traffic?

- A. The Prod and Staging categories have not been assigned to the VMs, so the policy does not apply.
- B. The Isolation Policy does not specify any services/ports, so no traffic is matched for enforcement.
- **C. An Application Policy allows traffic between the same categories, overriding this policy.**
- D. Isolation Policies restrict north-south communication when associated with a VPC gateway, not east-west traffic between categories.

Answer: C

NEW QUESTION # 89

.....

There are many merits of our product on many aspects and we can guarantee the quality of our NCP-NS practice engine. Firstly, our experienced expert team compile them elaborately based on the real exam and our NCP-NS study materials can reflect the popular trend in the industry and the latest change in the theory and the practice. Secondly, both the language and the content of our NCP-NS Study Materials are simple, easy to be understood and suitable for any learners.
