

# Professional-Cloud-Network-Engineer Examcollection & Pass Professional-Cloud-Network-Engineer Guarantee

What's more, part of that ActualTestsQuiz Professional-Cloud-Network-Engineer dumps now are free:  
[https://drive.google.com/open?id=1QmO3zMPf96sRYq-ni8-qqLPEBhem\\_tU4](https://drive.google.com/open?id=1QmO3zMPf96sRYq-ni8-qqLPEBhem_tU4)

If a person fails despite proper Google Cloud Certified - Professional Cloud Network Engineer Professional-Cloud-Network-Engineer test preparation and using Professional-Cloud-Network-Engineer practice exam material, ActualTestsQuiz provides a money-back guarantee. If a person fails despite proper Google Cloud Certified - Professional Cloud Network Engineer Professional-Cloud-Network-Engineer test preparation and using Professional-Cloud-Network-Engineer practice exam material, ActualTestsQuiz provides a money-back guarantee. ActualTestsQuiz offers three months of free updates if the Google Cloud Certified - Professional Cloud Network Engineer exam content changes after the purchase of Google Cloud Certified - Professional Cloud Network Engineer valid dumps. ActualTestsQuiz wants to save your time and money, so the authentic and accurate Google Cloud Certified - Professional Cloud Network Engineer Professional-Cloud-Network-Engineer Exam Questions help candidates to pass their Professional-Cloud-Network-Engineer certification test on their very first attempt.

Our Professional-Cloud-Network-Engineer question torrent not only have reasonable price but also can support practice perfectly, as well as in the update to facilitate instant upgrade for the users in the first place, compared with other education platform on the market, the Professional-Cloud-Network-Engineer Exam Question can be said to have high quality performance. We can sure that you will never regret to download and learn our Professional-Cloud-Network-Engineer study material, and you will pass the Professional-Cloud-Network-Engineer exam at your first try.

## Cloud Certified - Professional Cloud Network Engineer Examcollection

If you are now determined to go to research, there is still a little hesitation in product selection. Professional-Cloud-Network-Engineer exam prep offers you a free trial version! You can choose one or more versions that you are most interested in, and then use your own judgment. Professional-Cloud-Network-Engineer Exam Materials really hope that every user can pick the right Professional-Cloud-Network-Engineer study guide for them. If you really lack experience, you do not know which one to choose. You can consult our professional staff.

### Google Cloud Certified - Professional Cloud Network Engineer Sample Questions (Q229-Q234):

#### NEW QUESTION # 229

You have several microservices running in a private subnet in an existing Virtual Private Cloud (VPC). You need to create additional serverless services that use Cloud Run and Cloud Functions to access the microservices. The network traffic volume between your serverless services and private microservices is low.

However, each serverless service must be able to communicate with any of your microservices. You want to implement a solution that minimizes cost. What should you do?

- A. Create a serverless VPC access connector. Configure the serverless service to use the connector for communication to the microservices.
- B. Deploy your serverless services to the existing VPC. Configure firewall rules to allow traffic between the serverless services and your existing microservices.
- C. Deploy your serverless services to the serverless VPC. Peer the serverless service VPC to the existing VPC. Configure firewall rules to allow traffic between the serverless services and your existing microservices.
- D. Create a serverless VPC access connector for each serverless service. Configure the connectors to allow traffic between the serverless services and your existing microservices.

**Answer: A**

#### NEW QUESTION # 230

Your software team is developing an on-premises web application that requires direct connectivity to Compute Engine Instances in GCP using the RFC 1918 address space. You want to choose a connectivity solution from your on-premises environment to GCP, given these specifications:

Your ISP is a Google Partner Interconnect provider.

Your on-premises VPN device's internet uplink and downlink speeds are 10 Gbps.

A test VPN connection between your on-premises gateway and GCP is performing at a maximum speed of 500 Mbps due to packet losses.

Most of the data transfer will be from GCP to the on-premises environment.

The application can burst up to 1.5 Gbps during peak transfers over the Interconnect.

Cost and the complexity of the solution should be minimal.

How should you provision the connectivity solution?

- A. Create multiple VPN tunnels to account for the packet losses, and increase bandwidth using ECMP.
- B. Provision a Partner Interconnect through your ISP.
- C. Provision a Dedicated Interconnect instead of a VPN.
- D. Use network compression over your VPN to increase the amount of data you can send over your VPN.

**Answer: B**

Explanation:

Direct Interconnect will be too expensive and also an overkill for this requirement. Managing multiple tunnels that too with packet loss consideration is complex also. Whereas partner interconnect fits the bill with providing required bandwidth but not super expensive also once setup not too complex too manage.

#### NEW QUESTION # 231

You are adding steps to a working automation that uses a service account to authenticate. You need to drive the automation the ability to retrieve files from a Cloud Storage bucket. Your organization requires using the least privilege possible.

What should you do?

- A. Grant the iam.serviceAccountUser to your user account.
- B. Grant the cloud-platform privilege to the service account for the Cloud Storage bucket.
- C. Grant the compute.instanceAdmin to your user account.
- D. Grant the read-only privilege to the service account for the Cloud Storage bucket.

**Answer: A**

#### NEW QUESTION # 232

You are developing an HTTP API hosted on a Compute Engine virtual machine instance that must be invoked only by multiple clients within the same Virtual Private Cloud (VPC). You want clients to be able to get the IP address of the service. What should you do?

- A. Ensure that clients use Compute Engine internal DNS by connecting to the instance name with the url `https://[INSTANCE_NAME].[ZONE].c.[PROJECT_ID].internal/`.
- B. Ensure that clients use Compute Engine internal DNS by connecting to the instance name with the url `https://[API_NAME]/[API_VERSION]/`.
- C. Reserve a static external IP address and assign it to an HTTP(S) load balancing service's forwarding rule. Then, define an A record in Cloud DNS. Clients should use the name of the A record to connect to the service.
- D. Reserve a static external IP address and assign it to an HTTP(S) load balancing service's forwarding rule. Clients should use this IP address to connect to the service.

**Answer: C**

#### NEW QUESTION # 233

You are migrating a three-tier application architecture from on-premises to Google Cloud. As a first step in the migration, you want to create a new Virtual Private Cloud (VPC) with an external HTTP(S) load balancer.

This load balancer will forward traffic back to the on-premises compute resources that run the presentation tier. You need to stop malicious traffic from entering your VPC and consuming resources at the edge, so you must configure this policy to filter IP addresses and stop cross-site scripting (XSS) attacks. What should you do?

- A. Create a hierarchical firewall ruleset, and apply it to the VPC's parent organization resource node.
- B. Create a Google Cloud Armor policy, and apply it to a backend service that uses an internet network endpoint group (NEG) backend.
- C. Create a Google Cloud Armor policy, and apply it to a backend service that uses an unmanaged instance group backend.
- D. Create a VPC firewall ruleset, and apply it to all instances in unmanaged instance groups.

**Answer: B**

#### NEW QUESTION # 234

.....

Just look at the text version of the introduction, you may still be unable to determine whether this product is suitable for you, or worth your purchase. We are very fond of preparing a trial version of Professional-Cloud-Network-Engineer study materials: Google Cloud Certified - Professional Cloud Network Engineer for you. After you have used a trial version, you will have an overview of the content of the Professional-Cloud-Network-Engineer simulating exam. This is enough to convince you that this is a product with high quality. We hope that you are making a choice based on understanding the products. We will respect your decision. Professional-Cloud-Network-Engineer really wants to be your long-term partner.

**Pass Professional-Cloud-Network-Engineer Guarantee:** <https://www.actualtestsquiz.com/Professional-Cloud-Network-Engineer-test-torrent.html>

Our Professional-Cloud-Network-Engineer question torrent not only have reasonable price but also can support practice perfectly, as well as in the update to facilitate instant upgrade for the users in the first place, compared with other education platform on the market, the Professional-Cloud-Network-Engineer exam question can be said to have high quality performance, Take your satisfied Professional-Cloud-Network-Engineer actual test guide and start your new learning journey.

If you want to survive in the exam, our Professional-Cloud-Network-Engineer actual test guide is the best selection, Kodu for Kids teaches you all you need to know to create great Kodu games that you can share with the world!

# ActualTestsQuiz Professional-Cloud-Network-Engineer Examcollection - Obtain Right now

Our Professional-Cloud-Network-Engineer question torrent not only have reasonable price but also can support practice perfectly, as well as in the update to facilitate instant upgrade for the users in the first place, compared with other education platform on the market, the Professional-Cloud-Network-Engineer Exam Question can be said to have high quality performance.

Take your satisfied Professional-Cloud-Network-Engineer actual test guide and start your new learning journey, Get our products instantly, Here our Google Professional-Cloud-Network-Engineer test pdf torrent, regarded as one of the reliable worldwide, Professional-Cloud-Network-Engineer aim to help our candidates successfully pass the exam and offer the best comprehensive service.

You will gain a lot and lay a solid foundation for success.
