100% Pass 2026 Marvelous Nutanix NCP-NS: Reliable Nutanix Certified Professional Network & Security v6.10 Exam Test

We at DumpTorrent give you the techniques and resources to make sure you get the most out of your exam study. We provide preparation material for the Nutanix Certified Professional Network & Security v6.10 exam that will guide you when you sit to study for it. NCP-NS updated questions give you enough confidence to sit for the Nutanix exam. If you take enough practice tests on NCP-NS Practice Exam software by DumpTorrent, you'll be more comfortable when you walk in on Nutanix exam day. So, go with NCP-NS exam questions that are prepared under the supervision of industry experts to expand your knowledge base and

successfully pass the certification exam on the first attempt.

Nutanix Certified Professional Network & Security v6.10 Sample Questions (Q63-Q68):

NEW QUESTION # 63

An administrator needs to allow communication between several VPCs without requiring to configure routes in the physical network or using a dynamic routing protocol like BGP.

How should the administrator satisfy this requirement?

- A. Peer the VPCs directly.
- B. Merge all the subnets into a single VPC.
- C. Configure a VPN network between each of the VPCs.
- **D. Connect the VPCs to a single Transit VPC.**

Answer: D

NEW QUESTION # 64

An administrator is deploying a new multi-tenant environment in Prism Central and has created a VPC named TenantVPC1. The administrator needs to enable external connectivity for this VPC so that some services inside the VPC can be accessed from the corporate network without NAT translation, while other services require Internet access through SNAT translation. The administrator plans to use an External Network(s) to provision this connectivity.

Which configuration should the administrator apply to satisfy this requirement?

- **A. Create two External Networks for TenantVPC1: one NAT (for Internet access) and one Routed/No-NAT (for corporate network access). Attach both to the VPC.**
- B. Create one External Network of type Routed/No-NAT only, attach to TenantVPC1, and configure routing policy to translate IP addresses for internet-facing services.
- C. Create a single External Network of type NAT only and attach it to TenantVPC1. Define SNAT and Floating IPs for both the corporate-network services and internet-facing services.
- D. Create two External Networks both of type Routed/No-NAT and attach both to TenantVPC1, one for corporate access and one for internet access.

Answer: A

NEW QUESTION # 65

What is the additional resource requirement for each Prism Central VM when enabling Flow Virtual Networking on a Small Prism Central deployment?

- A. 5 GB of memory and 4 vCPUs
- B. 2 GB of memory and 1 vCPUs
- **C. 4 GB of memory and 3 vCPUs**
- D. 3 GB of memory and 2 vCPUs

Answer: C

NEW QUESTION # 66

An administrator is using Flow Network Security to secure a 3-tier application and has already created and assigned the categories. The administrator does not have the details of the rules that need to be allowed to secure the application.

How can the administrator use Flow Network Security to monitor the traffic and help with the policy creation without impacting the applications connectivity?

- A. Use service insertion to redirect traffic through a monitoring service to capture the application traffic and create the Flow Network Security policy based on data captured in monitoring service.
- **B. Create the Policy in Monitor mode, review the discovered traffic, allow the required traffic flows, and move Policy to Enforce mode.**
- C. Create the Policy in Save mode, review the discovered traffic, allow the required traffic flows, and move Policy to Enforce

mode.

- D. Redirect the traffic to a Syslog server and monitor the traffic on the syslog server and then create the Flow Network Security policy based on monitored data in syslog server.

Answer: B

NEW QUESTION # 67

An administrator has just added a new VPC for Tenant-B... However, users are reporting that they are unable to access external resources from VMs created in the Tenant-B-Prod subnet.

What should be done to correct the problem?

- **A. Update the ERPs for Tenant-B-VPC.**
- B. Add a Network Policy in Transit-VP
- C. Add a Network Policy in Tenant-B-VPC.
- D. Update the ERPs for Transit-VPC.

Answer: A

NEW QUESTION # 68

.....

The happiness from success is huge, so we hope that you can get the happiness after you pass NCP-NS exam certification with our developed software. Your success is the success of our DumpTorrent, and therefore, we will try our best to help you obtain NCP-NS Exam Certification. We will not only spare no efforts to design NCP-NS exam materials, but also try our best to be better in all after-sale service.
