## Peoplecert Certified Agile Service Manager V2.1 Sample Questions (Q31-Q36):

### NEW QUESTION # 31

What is Agile Service Management?

- A. A discipline that incorporates aspects of software engineering and applies them to infrastructure and operations problems
- B. A production philosophy that focuses on reducing waste and improving the flow of processes to improve overall customer value
- C. A framework that ensures that service management processes reflect Agile values and are designed with 'just enough' control and structure
- D. A cultural movement that aims to increase software delivery velocity and improve service reliability

**Answer: C**

Explanation:

Agile Service Management integrates Agile principles into service management processes to ensure they are efficient, customer-centric, and adaptive. Let's analyze the options:

A . Incorrect. While Agile Service Management does improve service delivery and reliability, calling it solely a cultural movement is too narrow.

B . Incorrect. This describes Lean principles rather than Agile Service Management.

C . Incorrect. This describes DevOps rather than Agile Service Management.

D . Correct. Agile Service Management focuses on adapting service processes to align with Agile values, balancing flexibility with adequate control to ensure efficiency.

Reference:

ITIL 4 Service Value System

Agile Service Management Guide (Agile and ITIL integration).

### NEW QUESTION # 32

What BEST describes the Practice Backlog?

- A. The project plan that will guide the practice's implementation roadmap
- B. All of the above
- C. The artifact that documents what will be needed in the next Sprint
- D. The single source of requirements for a practice

**Answer: D**

Explanation:

The Practice Backlog serves as the single source of truth for requirements within a service management practice, similar to how a Product Backlog functions in Scrum.

A . Incorrect. This describes a Sprint Backlog, not the Practice Backlog.

B . Correct. The Practice Backlog acts as the comprehensive repository for requirements specific to a practice.

C . Incorrect. While the Practice Backlog informs the roadmap, it is not a detailed project plan.

D . Incorrect. Only B accurately reflects the nature of a Practice Backlog.

Reference:

ITIL 4 and Agile Service Management: Practice Backlog as a requirements repository.

### NEW QUESTION # 33

An Agile Service Manager is what type of leader?

- A. Servant Leader
- B. Accountable Leader
- C. Inspiring Leader

- D. Project Leader

**Answer: A**

Explanation:

The Agile Service Manager embodies the role of a Servant Leader, focusing on enabling and empowering the team to succeed rather than exerting top-down control.

- A . Incorrect. While an Agile Service Manager can be inspiring, the primary focus is on serving the team and organization.
- B . Incorrect. Accountability is important, but the Agile Service Manager prioritizes serving others.
- C . Correct. As a Servant Leader, the Agile Service Manager removes impediments, supports the team's autonomy, and ensures alignment with Agile values.
- D . Incorrect. A Project Leader manages timelines and resources in traditional project management, which contrasts with the Agile Servant Leader role.

Reference:

Scrum Guide 2020: The Scrum Master as a Servant Leader.

ITIL 4: Servant Leadership in Agile environments.

**NEW QUESTION # 34**

Which is NOT one of the underlying principles of the Agile Manifesto?

- A. Working software is the primary measure of progress
- B. Deliver working software daily
- C. Simplicity-the art of maximizing the amount of work not done-is essential
- D. The highest priority is to satisfy the customer

**Answer: B**

Explanation:

The Agile Manifesto outlines 12 principles, and while delivering value frequently is one of them, "delivering working software daily" is not explicitly stated. Let's evaluate the options:

- A . Correct. The Agile Manifesto states that "working software is the primary measure of progress." B . Incorrect. The principle states, "Deliver working software frequently, from a couple of weeks to a couple of months," but it does not specify daily delivery. This makes "daily" incorrect.
- C . Correct. Satisfying the customer through early and continuous delivery is the highest priority in Agile.
- D . Correct. Simplicity, or minimizing unnecessary work, is one of the core principles in Agile.

Reference:

Agile Manifesto: agilemanifesto.org

Principle 3: "Deliver working software frequently..."

Principle 10: "Simplicity-the art of maximizing the amount of work not done-is essential."

**NEW QUESTION # 35**

What is the starting point when designing an Agile process?

- A. Understand the practice's vision and goal
- B. Understand the service management architecture
- C. Getting the right stakeholders engaged
- D. Understand who your customers are and what they value

**Answer: D**

Explanation:

Designing an Agile process begins with understanding customer needs and value to ensure that processes align with delivering that value efficiently.

- A . Incorrect. While understanding the vision and goal is important, focusing on customer value takes precedence in Agile.
- B . Correct. Agile emphasizes delivering value to customers, making this the critical starting point for process design.
- C . Incorrect. Engaging stakeholders is essential but follows after understanding customer needs.
- D . Incorrect. Understanding architecture comes later in the design process, after defining customer-centric objectives.

Reference:

Agile Manifesto: Customer collaboration over contract negotiation.

## ITIL 4: Service design principles.

## NEW QUESTION # 36

As the labor market becomes more competitive, a lot of people, of course including students, company employees, etc., and all want to get Peoplecert authentication in a very short time, this has developed into an inevitable trend. Each of them is eager to have a strong proof to highlight their abilities, so they have the opportunity to change their current status, including getting a better job, have higher pay, and get a higher quality of material, etc. It is not easy to qualify for a qualifying exam in such a short period of time. Our company's CASM Study Guide is very good at helping customers pass the exam and obtain a certificate in a short time, and now I'm going to show you our CASM exam dumps. Our products mainly include the following major features.
