

# COF-C03 PDF Questions - COF-C03 Practice Test Online

Form C03

(December 2019)

The **ACT**<sup>®</sup>

2019 | 2020

In response to your request for Test Information Release materials, this booklet contains the test questions, scoring keys, and conversion tables used in determining your ACT scores. Enclosed with this booklet is a report that lists each of your answers, shows whether your answer was correct, and, if your answer was not correct, gives the correct answer.

If you wish to order a photocopy of your scanned answer document—including, if you took the writing test, a copy of your written essay—please use the order form on the inside back cover of this booklet.

So it is very important for you to prepare for the practice exam, you must pay more attention to the COF-C03 Certification guide to help you.

## Snowflake SnowPro® Core Certification (COF-C03) Sample Questions (Q15-Q20):

### NEW QUESTION # 15

True or False: When you create a custom role, it is a best practice to immediately grant that role to ACCOUNTADMIN.

- A. False
- B. True

**Answer: A**

Explanation:

The ACCOUNTADMIN role is the most powerful role in Snowflake and should be limited to a select number of users within an organization. It is responsible for account-level configurations and should not be used for day-to-day object creation or management. Granting a custom role to ACCOUNTADMIN could inadvertently give broad access to users with this role, which is not a recommended security practice.

### NEW QUESTION # 16

Why is a federated environment used for user authentication in Snowflake?

- A. To provide real-time monitoring of user activities
- B. To enhance data security and privacy
- C. To separate user authentication from user access
- D. To enable direct integration with external databases

**Answer: C**

### NEW QUESTION # 17

How are serverless features billed?

- A. Per second multiplied by the size, as determined by the SERVERLESS\_FEATURES\_SIZE account parameter
- B. Per minute multiplied by an automatic sizing for the job, with a minimum of one minute
- C. Per second multiplied by an automatic sizing for the job
- D. Serverless features are not billed, unless the total cost for the month exceeds 10% of the warehouse credits, on the account

**Answer: B**

Explanation:

Serverless features in Snowflake are billed based on the time they are used, measured in minutes. The cost is calculated by multiplying the duration of the job by an automatic sizing determined by Snowflake, with a minimum billing increment of one minute. This means that even if a serverless feature is used for less than a minute, it will still be billed for the full minute.

### NEW QUESTION # 18

A column named "Data" contains VARIANT data and stores values as follows:

How will Snowflake extract the employee's name from the column data?

- A. data:Employee.name
- B. data:employee.name
- C. DATA:employee.name
- D. Data:employee.name

**Answer: B**

Explanation:

In Snowflake, to extract a specific value from a VARIANT column, you use the column name followed by a colon and then the key. The keys are case-sensitive. Therefore, to extract the employee's name from the "Data" column, the correct syntax is

data:employee.name.

### NEW QUESTION # 19

In which use cases does Snowflake apply egress charges?

- **A. Database replication**
- B. Data sharing within a specific region
- C. Loading data into Snowflake
- D. Query result retrieval

**Answer: A**

Explanation:

Snowflake applies egress charges in the case of database replication when data is transferred out of a Snowflake region to another region or cloud provider. This is because the data transfer incurs costs associated with moving data across different networks. Egress charges are not applied for data sharing within the same region, query result retrieval, or loading data into Snowflake, as these actions do not involve data transfer across regions.
