## C\_THR92\_2505 Exam Dumps Collection & C\_THR92\_2505 Dumps Questions

Do you have tried the C\_THR92\_2505 online test engine? Here we will recommend the C\_THR92\_2505 online test engine offered by Dupleader for all of you. Firstly, C\_THR92\_2505 online training can simulate the actual test environment and bring you to the mirror scene, which let you have a good knowledge of the actual test situation. Secondly, the C\_THR92\_2505 online practice allows self-assessment, which can bring you some different experience during the preparation. You can adjust your C\_THR92\_2505 study plan according to the test result after each practice test.

### SAP Certified Associate - SAP SuccessFactors People Analytics: Reporting Sample Questions (Q69-Q74):

#### NEW QUESTION # 69

A report consumer claims that a canvas report shared with them is NO longer available in Report Center.

Upon your investigation, you find the report has been deleted. You need to reproduce the report as quickly as possible. What action do you take?

- A. Use the Restore Deleted Report tool to restore the report.
- B. Use the Recycle Bin to restore the Report.
- C. Create a new report and add orphaned pages. Share the report.
- D. Contact SAP SuccessFactors support to request the report be restored.

**Answer: A**

Explanation:

\* Understanding Report Restoration

\* SAP SuccessFactors provides the Restore Deleted Report tool to recover reports that have been unintentionally deleted from the Report Center. This is the fastest method to restore a deleted report.

\* Why Other Options are Incorrect

\* B (Create a new report and add orphaned pages): This is time-consuming and only useful if the report cannot be restored.

\* C (Contact SAP Support): This is unnecessary as the Restore Deleted Report tool is available.

\* D (Recycle Bin): The Recycle Bin does not exist for reports in SAP SuccessFactors.

#### NEW QUESTION # 70

When you create a table report with filter groups, what is the logical relationship between filter groups?

- A. NOT
- B. OR
- C. AND

**Answer: B**

Explanation:

\* Filter Groups in Table Reports When using filter groups in table reports, the logical relationship between the groups is "OR." This means the report includes data that matches any one of the filter groups.

\* Explanation of Correct Answer

\* Filter groups are designed to broaden the scope of a query by including records that satisfy at least one group of filters.

\* The logical "OR" ensures inclusivity between groups, rather than restricting to matching all groups (which would be "AND").

### NEW QUESTION # 71

What is included in the saved state of a bookmark for a Story report? Note: There are 3 correct answers to this question.

- A. Filters
- B. Comments
- C. Input controls
- D. Data
- E. Prompts

**Answer: A,C,E**

#### Explanation:

When saving a bookmark for a Story report, the following states are saved:

- \* Filters (A): Any applied filters are retained in the bookmark.
- \* Input Controls (B): User-defined inputs (like sliders or dropdowns) are preserved.
- \* Prompts (D): User-specified prompts during execution are also included.

### NEW QUESTION # 72

You are creating a calculated column to calculate an employee's organizational tenure. Why does the formula in the screenshot result in an error?

□

- A. An incorrect data type has been selected.
- B. The result of the formula is negative.
- C. An "if then else" statement needs to be included.
- D. An incorrect dynamic date variable has been used.

**Answer: A**

#### Explanation:

\* Error Analysis

\* Calculated columns in Query Designer require the correct data type to be specified based on the formula. If the selected data type does not match the formula's expected output, an error occurs.

\* Why the Error Occurs

\* The formula appears to involve a calculation related to dates. If the data type is not set to a compatible format (e.g., "Number" or "Date"), the calculation fails.

\* Why Other Options are Incorrect

\* A (Incorrect Dynamic Date Variable): The issue is not with the date variable but with the data type.

\* B (If Then-Else Statement): Such a statement is unnecessary in the given formula.

\* C (Negative Result): Negative results are not inherently problematic unless restricted by the data type.

### NEW QUESTION # 73

You need to create a chart of type Indicator: Numeric Point that displays the following output:

count of employees with the gender male divided by the count of employee with the gender female.

The chart can then be filtered for different departments. What calculation is required to create the metric?

- A. In Chart Builder, use a calculation of type: Aggregation.
- B. In Chart Builder, use a calculation of type: Restricted Measure.
- C. In Chart Builder, use a calculation of type: Calculated Measure.
- D. In Query Builder, use a calculated column.

**Answer: C**

#### Explanation:
