問題 #39
Your business users want to know more about what is happening with the issues raised by their business unit. They gave you a list of situations in which they want to get emails, so you know which parts of the shared notification scheme they want to be added to.
You consult with the project owner.
He doesn't want any changes to the emails that go to developers and testers.
The project owner approves of the business users getting the emails, but he would like to retain control of who gets emails for his project.
How can you satisfy these requests?

- A. Place the business users in a group and add that group to the events in the notification scheme.
- B. Create a role for business users and add that role to the events in the notification scheme.
- C. Add the business users as Watchers on the issues.
- D. Modify the events in the workflow so they send the emails to the business users.

答案：A

問題 #40
In your organization, a cobbler leads a Jira project with two issue types:
- Shoe Order
- Repair
The cobbler has given you the following requirements:
1. All screens should use the Summary, Description, Due Date, and Components fields.
2. Both issue types need to use a new custom field called Shoe Type on all screens.
3. The Priority field should appear on all screens for Repair issues.
4. Users should not be able to set the Priority for Shoe Orders during creation, but the Priority field still needs to be editable and viewable after creation.
Identify the minimum number of screens and screen schemes that will meet the requirements.

- A. six screens and two screen schemes
- B. six screens and one screen scheme
- C. two screens and two screen schemes
