

Valid 300-425 Test Prep, Valid 300-425 Practice Questions

BONUS!!! Download part of SurePassExams 300-425 dumps for free: https://drive.google.com/open?id=1MwM3_HXjsEI6mlau1R-9XVDtymF8qGE

The 300-425 Learning Materials of us are pass guaranteed and money back guaranteed. Since the 300-425 exam dumps are of high accuracy and high quality, and it can ensure you pass the exam successfully. We also give you any help you want, if you need any help or you have any questions, just contact us without any hesitation, we will do all we can to help you pass the exam. Just have a try, and you will benefit a lot.

Our system will accurately help you analyze the exercises of the 300-425 study materials. So you need not to summarize by yourself. Then you will clearly know where you are good at and where you do badly. Flexible adjustment to your revision of the 300-425 Real Exam is essential to pass the exam. You can make decisions after careful consideration. It is up to you to make a decision. And after you finish the 300-425 exam questions, the scores will show out right away.

Free PDF 300-425 - Valid Valid Designing Cisco Enterprise Wireless Networks Test Prep

In order to help customers, who are willing to buy our 300-425 test torrent, make good use of time and accumulate the knowledge, Our company have been trying our best to reform and update our Designing Cisco Enterprise Wireless Networks exam tool. "Quality First, Credibility First, and Service First" is our company's purpose, we deeply hope our 300-425 study materials can bring benefits and profits for our customers. So we have been persisting in updating our 300-425 Test Torrent and trying our best to provide customers with the latest study materials. More importantly, the updating system we provide is free for all customers. If you decide to buy our 300-425 study materials, we can guarantee that you will have the opportunity to use the updating system for free.

Cisco 300-425 Exam is a highly regarded certification exam for professionals who want to validate their knowledge and skills in designing enterprise wireless networks. Passing 300-425 exam requires a deep understanding of wireless networking technologies, including the latest trends, protocols, and best practices. Candidates who pass the exam will receive the Cisco Certified Specialist - Enterprise Wireless Design certification, which is recognized globally as a mark of excellence in wireless networking.

Cisco Designing Cisco Enterprise Wireless Networks Sample Questions (Q241-Q246):

NEW QUESTION # 241

A customer is running a guest WLAN with a foreign/export-anchor setup. There is one anchor WLC in the US and two in Europe. Anchor WLC priorities are used to prefer local anchors. During a routine network audit, it is discovered that a large number of guest client sessions in the US are anchored to the WLCs in Europe. Which reason explains this behavior?

- A. The foreign WLC failed and recovered.
- B. The US anchor WLC failed and recovered.

- C. The anchor WLC is in the same mobility group.
- D. The US anchor WLC is anchored to itself with a priority value of zero.

Answer: B

Explanation:

The behavior of guest client sessions in the US being anchored to the WLCs in Europe despite the presence of a local anchor WLC can be explained by the failure and subsequent recovery of the US anchor WLC. During the failure, the guest sessions would have been transferred to the European WLCs. After recovery, if the priority settings were not correctly restored or if the system did not automatically revert back to the local anchor, the sessions would remain anchored to the European WLCs.

NEW QUESTION # 242

Refer to the exhibit. During a post Mesh deployment survey, an engineer notices that frame collisions occur when MAP-1 and MAP-3 talk to RAP-2. Which type of issue does the engineer need to address in the design?

- A. co-channel interference
- B. exposed node
- C. hidden node
- D. backhaul latency

Answer: C

Explanation:

The issue described is indicative of a hidden node problem, where MAP-1 and MAP-3 cannot hear each other's transmissions but can both communicate with RAP-2. This leads to frame collisions as both MAPs may attempt to transmit at the same time, unaware of the other's actions. The design needs to address this by implementing mechanisms such as RTS/CTS or adjusting the placement of the APs to avoid this issue.

NEW QUESTION # 243

A rapidly expanding company has tasked their network engineer with wirelessly connecting a new cubicle area with Cisco workgroup bridges until the wired network is complete. Each of 42 new users has a computer and VoIP phone. How many APs for workgroup bridging must be ordered to keep cost at a minimum while connecting all devices?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: D

Explanation:

So, each AP will have 25 clients. Minimum 4 APs are sufficient.

NEW QUESTION # 244

A technician connects a Cisco Aironet 3700 Series access point to a switch and realizes that the AP is coming up with 3x3 MIMO. Which reason explains this behavior?

- A. A redundant power supply is unavailable on the switch.
- B. The AP is getting power from a power injector.
- C. The switch is PoE+ capable.
- D. The switch is 802.3af capable.

Answer: C

Explanation:

NEW QUESTION # 245

An engineer has configured guest anchoring for a newly created SSD however, the mobility tunnels are not up, and EPING is failing from the foreign WLC to the anchor WLC. Which traffic flow must be allowed at the firewall to enable the communication?

- A. TCP port 97
- B. IP protocol 97
- C. UDP port 16666
- D. UDP port 97

Answer: C

Explanation:

NEW QUESTION # 246

.....

Web-based Designing Cisco Enterprise Wireless Networks (300-425) practice exam is a convenient format to evaluate and improve preparation for the exam. It is a 300-425 browser-based application, which means you can access it from any operating system with an internet connection and a web browser. Unlike the desktop-based exam simulation software, the Designing Cisco Enterprise Wireless Networks (300-425) browser-based practice test requires no plugins and software installation.
