PEGACPSA24V1 Valid Test Pdf & PEGACPSA24V1 Download Pdf

Are you still feeling stressful to the increasing difficulty of the PEGACPSA24V1 exam? If the answer is yes, you may wish to spend a little time learning our PEGACPSA24V1 study materials. You will think this is the most correct thing you did for preparing for the PEGACPSA24V1 Exam. Our PEGACPSA24V1 exam guide can help you pass the exam more efficiently. Just click to the free demos and you will get the exam questions to have a check!

Pegasystems Certified Pega System Architect 24 Sample Questions (Q145-Q150):

NEW QUESTION # 145

Which component ensures test data is reset before running unit tests?

- A. Case Dependency
- B. Work Queue Processing
- C. Test Data Setup
- D. SLA Recalculation

Answer: C

Explanation:

A Test Data Setup rule ensures that unit tests start with a clean dataset, preventing data inconsistencies.

This guarantees that test results remain predictable and reliable. Proper test data handling is critical for automation and continuous testing. This ensures repeatable and consistent test outcomes.

NEW QUESTION # 146

Which feature ensures real-time updates in the UI when a user enters data in a field?

- A. Work Queue Processing
- **B. Refresh Condition**
- C. SLA Timeout
- D. Data Transform

Answer: B

Explanation:

A Refresh Condition ensures UI components dynamically update when a user modifies related data fields. This eliminates the need for manual page reloads, improving user experience and application responsiveness. It is used for dynamic calculations, live form validation, and dependent field updates.

This ensures smooth interaction with UI elements.

NEW QUESTION # 147

Which condition allows a stage to be skipped dynamically in Pega?

- A. The case is marked as resolved
- B. The user manually selects a skip option
- **C. A decision rule evaluates case data**
- D. The case owner modifies routing rules

Answer: C

Explanation:

A Decision Rule evaluates case data dynamically to determine if a stage should be skipped. This allows adaptive workflows where unnecessary stages are automatically bypassed. It improves efficiency by removing redundant steps. It is used in scenarios such as pre-approved loan applications or fast-track orders.

NEW QUESTION # 148

Which UI layout allows displaying multiple sections within a case view?

- **A. Dynamic Layout**
- B. Work Queue
- C. SLA Goal
- D. Repeat Grid

Answer: A

Explanation:

A Dynamic Layout enables flexible arrangement of UI components within a case view. It allows responsive design, adjusting to different screen sizes and device types. This improves usability and consistency in complex forms. It is commonly used for interactive dashboards and multi-step forms.

NEW QUESTION # 149

Which two factors influence SLA urgency calculations? (Choose Two)

- **A. The assignment's start time**

- B. The case's complexity rating
- **C. The time elapsed since case creation**
- D. The assigned operator's workload

Answer: A,C

Explanation:

SLA urgency increases over time based on the assignment's start time and how long it has been pending. If a case remains unaddressed beyond its goal or deadline, urgency rises, triggering escalations. Workload and complexity do not directly impact SLA urgency. Higher urgency ensures priority handling of critical cases.

NEW QUESTION # 150

.....

It is human nature to pursue wealth and success. No one wants to be a common person. In order to become a successful person, you must sharpen your horizons and deepen your thoughts. Our PEGACPSA24V1 study materials can help you update yourself in the shortest time. You just need to make use of your spare time to finish learning our PEGACPSA24V1 Study Materials. So your normal life will not be disturbed. Please witness your growth after the professional guidance of our PEGACPSA24V1 study materials.
