PECB ISO-14001-Lead-Auditor Exam Syllabus Topics:

| Topic | Details |
|---------|--|
| Topic 1 | <ul style="list-style-type: none">Fundamental principles and concepts of an environmental management system: This section of the exam measures the foundational knowledge of EMS auditors and covers key principles such as environmental sustainability, continual improvement, and the process approach. It assesses understanding of how environmental management systems contribute to overall business performance and regulatory compliance. |
| Topic 2 | <ul style="list-style-type: none">Closing an ISO 14001 audit: This domain focuses on the responsibilities of audit consultants during the audit closure process. It includes evaluating findings, preparing audit conclusions, holding closing meetings, and ensuring proper reporting and communication of results. |
| Topic 3 | <ul style="list-style-type: none">Fundamental audit concepts and principles: This section of the exam assesses the grasp EMS auditors have on core audit principles such as integrity, fair presentation, due professional care, and evidence-based evaluation. It ensures auditors can apply these principles consistently in the audit process. |
| Topic 4 | <ul style="list-style-type: none">Managing an ISO 14001 audit program: This section of the exam evaluates the ability of EMS auditors to manage a complete audit program. It includes planning, implementing, monitoring, and continually improving the audit program to align with organizational and compliance goals. |

| | |
|---------|--|
| Topic 5 | <ul style="list-style-type: none"> Environmental management system requirement: This section evaluates the ability of audit consultants to interpret and apply the specific requirements of ISO 14001. It focuses on understanding the structure of the standard, including context of the organization, leadership, planning, support, operations, and performance evaluation. |
| Topic 6 | <ul style="list-style-type: none"> Preparing an ISO 14001 audit: This domain measures the competence of audit consultants in planning and preparing for an ISO 14001 audit. It covers audit objectives, scope, criteria, and developing the audit plan, ensuring readiness for an efficient and objective audit. |

No matter which country you are currently in, you can be helped by our ISO-14001-Lead-Auditor study materials.

PECB Certified EMS ISO 14001 Lead Auditor Exam Sample Questions (Q12-Q17):

NEW QUESTION # 12

Sparkle is an organisation that provides mobile car cleaning services at customers' premises. It has been certified to ISO 14001 for some time and has appointed a full-time Environmental Management System Manager. The audit plan during a surveillance audit includes continual improvement and the auditor asks to see the most recent management review meeting minutes.

The minutes indicate that the Environmental Management System Manager reported that the last review of the organisation's environmental legislation register was made three years ago instead of annually as planned in the Environmental Management System. At that time, he asked for finances to employ a legislation expert to update the register but was denied the request by top management on the basis that it was unlikely that many changes to legislation had occurred. No related improvement actions were documented in the minutes.

Based on the scenario, select the two options which best describe the evidence for raising such a non- conformity.

- A. Determine if the local authority has been informed that the organisation is exceeding VOC emissions.
- B. Recommend that staff in the five shops should have medical check-ups due to air pollution.
- C. Evaluate whether the process for measuring environmental performance is effective.
- D. Raise an opportunity for improvement (OI) to reduce damaging emissions.**
- E. Extend the audit plan to include the five shops.
- F. The organisation failed to update its legislation register following the planned frequency of review.**

Answer: D,F

NEW QUESTION # 13

You work for a certification body. In two months, you will have to lead an audit of a pharmaceutical organisation, ABC, that manufactures vaccines to combat a pandemic. When planning the audit team, you select one of the certification body auditors who is professionally qualified in Biochemistry and Pharmacy.

However, she is not fully aware of all legal applicable requirements. You recommend the certification body hire a compliance expert to assist the audit team. In which two clauses of ISO 14001:2015 would you consider that auditors may need the help of the expert?

- A. 4.2 Understanding needs and expectations of interested parties**
- B. 5.2 Environmental Policy
- C. 9.1.2 Compliance obligations**
- D. 7.1 Resources
- E. 9.2 Internal audits

- F. 5.1 Leadership

Answer: A,C

Explanation:

According to ISO 14001:2015:

Clause 4.2:

The organization must understand the needs and expectations of interested parties, which includes regulatory bodies and applicable legal requirements. Legal expertise may be necessary to fully assess this.

Clause 9.1.2:

The organization must evaluate compliance obligations, which requires understanding applicable legal requirements.

Legal compliance evaluation often requires specialized legal or regulatory knowledge, especially in highly regulated sectors like pharmaceuticals.

Reference: ISO 14001:2015 Clauses 4.2 and 9.1.2.

NEW QUESTION # 14

Which one of the following options best describes the main purpose of a Stage 2 third-party audit?

- A. To identify nonconformances against a standard.
- B. To determine readiness for certification.
- C. To check for legal compliance by the organization.
- D. To get to know the organization's management system

Answer: A

Explanation:

According to ISO/IEC 17021-1:2015 (used alongside ISO 14001 for certification audits), the certification process includes Stage 1 and Stage 2 audits:

The purpose of the Stage 1 audit is to review the management system documentation and assess the organization's preparedness for Stage 2.

The Stage 2 audit's main objective is to evaluate the implementation, including the effectiveness, of the organization's management system. This includes assessing conformity with all the requirements of ISO 14001:2015.

As per ISO/IEC 17021-1:2015 Clause 9.3.2.2.2:

"The stage 2 audit shall take place at the site(s) of the organization. It shall include at least the following:

information and evidence about conformity to all requirements of the applicable management system standard." Thus, the Stage 2 audit is where auditors identify nonconformities and gather evidence to support certification decisions.

Reference: ISO/IEC 17021-1:2015 Clause 9.3.2.2.2; ISO 14001 Lead Auditor Course Guide - Certification Process Module.

NEW QUESTION # 15

Which two of the following phrases would apply to "audit criteria"?

- A. Management policy
- B. Audit conclusions
- C. Financial objectives
- D. Nonconformity report
- E. Auditor competence
- F. ISO 14001 requirements

Answer: A,F

Explanation:

According to ISO 19011:2018 Clause 3.3 (Terms and definitions):

Audit criteria are defined as:

"Set of policies, procedures or requirements used as a reference against which objective evidence is compared." ISO 14001 requirements (F) and the organization's own management policy (A) are valid audit criteria.

Nonconformity report (C) and audit conclusions (D) are audit outputs, not criteria.

Financial objectives (B) and auditor competence (E) are not used as audit criteria.

Reference: ISO 19011:2018 Clause 3.3; ISO 14001:2015 Clause 5.2.

NEW QUESTION # 16

A small services organisation has been contracted to handle the disposal of waste for a local hospital. You are an auditor conducting a Stage 2 audit of the care home to ISO 14001. You are reviewing the contract with the Service Manager (SM). An addendum to the contract only requires that biological waste is disposed of in the most environmentally friendly way, without reference to any regulatory requirements.

You: How was the waste disposal plan for the contract developed?

SM: We have a basic template that covers the materials, labour requirements and methods to be employed.

Some of that is specified by the contractor.

You: How does the plan deal with specific items like biological waste, which are included in the contract and can pose biological hazards to the environment?

SM: The basic plan covers general waste, but we have an addendum that covers biological waste.

You: Are you aware of the regulatory requirements for waste disposal standards in hospitals?

SM: Yes but we depend on the contractor to look after that side of things.

You raise a nonconformity against section 8.1.d of ISO 14001.

At the Stage 2 closing meeting of the audit, the EMS Manager objects to the nonconformity raised and asks for it to be withdrawn. He insists that they meet all the regulations.

Choose one of the options that the audit team leader should take in response to the request.

- A. Offer to downgrade the nonconformity to an opportunity for improvement if the organisation can prove its compliance with regulations.
- B. Advise that the nonconformity will be reconsidered after the meeting.
- C. Consult with the auditor who raised the nonconformity and ask whether he will agree to withdraw it.
- D. **Confirm that it is a valid nonconformity supported by a lack of evidence for meeting the requirement.**

Answer: D

NEW QUESTION # 17

.....

The PECB Certified EMS ISO 14001 Lead Auditor Exam (ISO-14001-Lead-Auditor) questions have many premium features, so you don't face any hurdles while preparing for ISO-14001-Lead-Auditor exam and pass it with good grades.
