Cisco Small and Medium Business Engineer Sample Questions (Q41-Q46):

NEW QUESTION # 41

Which Cisco solution enables a hybrid experience and offers a VPN solution?

- A. remote solution
- B. on-premises solution
- C. edge computing
- D. cloud solution

Answer: B

Explanation:

Cisco's on-premises solutions, including their integrated services routers and security appliances, support the implementation of Virtual Private Networks (VPNs), which are crucial for creating a secure and encrypted connection over a less secure network, such as the internet. This becomes especially important for businesses adopting hybrid work models, where employees split their time between working on-site and remotely. The VPN solution allows remote workers to safely access the company's internal network, ensuring that sensitive data remains protected, even when accessed from outside the office. This hybrid experience is enabled by on-premises VPN solutions, as they provide the necessary infrastructure to support secure remote access.

NEW QUESTION # 42

Which strategy allows an organization to experience 53% fewer cyberattacks and breaches?

- A. proactive security strategy
- B. decentralized security strategy
- C. multi-vendor security strategy
- D. cloud-based security strategy

Answer: A

Explanation:

A proactive security strategy is essential for reducing the number of cyberattacks and breaches an organization experiences. This approach involves anticipating potential security threats and implementing measures to prevent them before they occur. According to research conducted by The Economist Intelligence Unit, organizations that adopt a proactive security strategy, supported by a fully engaged C-suite and board of directors, experience 53% fewer cyberattacks and breaches compared to those that do not. This strategy includes active monitoring of external threats and mobilizing the entire workforce to defend against attacks, combining the latest security technology with new business processes.

NEW QUESTION # 43

How do Meraki cameras perform in the smart SMB experience?

- A. recording room temperature
- B. counting people
- C. schedule policies for recording
- D. recording videos

Answer: B

NEW QUESTION # 44

Which Cisco solution helps keep a healthcare patient's information secure?

- A. Cisco Care Plus
- B. DNS redundancy
- C. Duo
- D. Meraki Systems Manager

Answer: C

Explanation:

Cisco Duo is a security solution that provides two-factor authentication, which is crucial for protecting sensitive information such as healthcare patient data. Duo's two-factor authentication ensures that only authorized users can access patient information, thereby maintaining the confidentiality and integrity of the data. This is especially important in healthcare settings where patient information is highly sensitive and must be protected from unauthorized access and potential cyber threats.

NEW QUESTION # 45

Which Cisco product allows secure internet access?

- A. Umbrella
- B. Meraki
- C. Duo
- D. Webex

Answer: A

Explanation:

Cisco Umbrella provides secure internet access by acting as a cloud-delivered security service. It offers protection against threats on the internet wherever users go. With Umbrella, IT administrators can ensure that company policies are enforced, and users are protected from malicious sites and content. It's designed to provide the first line of defense against threats on the internet by blocking unwanted content before it reaches the network or endpoints¹².
