CIPS Ethical and Responsible Sourcing Sample Questions (Q241-Q246):

NEW QUESTION # 241

Which of the following is not an index that measures economic data?

- A. CPI
- B. GDP
- C. PPI
- **D. ISO**

Answer: D

Explanation:

ISO isn't an index - it stands for 'International Labour Association'.

The others are all indices that measure economic data; consumer price index, producer price index and gross domestic product.

NEW QUESTION # 242

Intra-company trading allows business units within a large enterprise to supply goods or services to another.

What are the likely objectives of intra-company trading?

- * Enhances production capacity utilisation
- * Offsets some of the fixed costs of the supplying entity
- * Compensates the supplying unit for the less effective technology applied
- * Ensures internal technology always out-performs that of external suppliers

- A. 1 and 3 only
- **B. 1 and 2 only**
- C. 2 and 3 only
- D. 2 and 4 only

Answer: B

Explanation:

Intra-company trading aims to optimize internal resources by enhancing production capacity utilization and offsetting fixed costs. By supplying goods or services internally, organizations can achieve economies of scale and better allocate resources. However, compensating for less effective technology or ensuring superior internal technology over external suppliers are not primary objectives of intra-company trading.

CIPS Level 4 Diploma in Procurement and Supply, L4M4 Study Guide, Section 1.1.2: Make or buy decisions and the role of intra-company trading

NEW QUESTION # 243

A buyer is only interested in working with suppliers who have strong Environmental and Social Governance practices. It is therefore using ethical criteria as a supplier selection stage to determine which suppliers to work with. Which of the following statements is true?

- A. ethical behaviour is impossible to determine as issues such as Modern Slavery often go undetected
- B. compliance with Codes of Conduct from professional bodies is mandatory
- **C. the buyer should ask suppliers to be accredited to ISO9001**
a supplier who follows the CIPS Code of Conduct is more likely to meet the buyer's needs

Answer: C

Explanation:

A supplier who follows the CIPS Code of Conduct is more likely to meet the buyer's needs is the correct answer.

The other options are wrong:

- 1) Compliance with Codes of Conduct from professional bodies is optional. E.g. CIPS - no organization is forced to comply with CIPS.
- 2) Unethical behaviour is not impossible to detect, it may be difficult but with correct due diligence and things like audits it's completely possible
- 3) ISO 14001 is quality management so is irrelevant.

NEW QUESTION # 244

A procurement manager who works in the public sector has received 8 submissions to a tender opportunity that was advertised on OJEU. The average price submission for the contract was £1m but one supplier has submitted a price of £200,000, which the procurement manager has identified as being 'an abnormally low tender'. What should be the procurement manager's course of action?

- A. investigate the low bid
- B. automatically dismiss the low bid
- C. award the bid at 0 for price
- D. award the contract to the low bid as this represents better value for money

Answer: A

Explanation:

You should investigate automatically low tenders by clarifying the bid with the supplier. It could be they have misunderstood the requirement. Or the bid could be genuine and they can really provide best value for money.

But without enquiring, you just don't know.

NEW QUESTION # 245

Ivan is an investor who is looking to invest in new businesses. He is reviewing several companies and working out what his equity would be. Which of the following does Ivan need to know to calculate shareholder equity? Select TWO.

- A. total assets
- B. net profit
- C. total liabilities
- D. net income

Answer: A,C

Explanation:

Shareholder Equity = Total Assets - Total Liabilities

NEW QUESTION # 246

.....
