Many students often start to study as the exam is approaching. Time is very valuable to these students, and for them, one extra hour of study may mean 3 points more on the test score. If you are one of these students, then FCSS_EFW_AD-7.6 exam tests are your best choice. Because students often purchase materials from the Internet, there is a problem that they need transport time, especially for those students who live in remote areas. When the materials arrive, they may just have a little time to read them before the exam. However, with FCSS_EFW_AD-7.6 Exam Questions, you will never encounter such problems, because our materials are distributed to customers through emails. After you have successfully paid, you can immediately receive FCSS_EFW_AD-7.6 test guide from our customer service staff, and then you can start learning immediately.

There have many shortcomings of the traditional learning methods. If you choose our FCSS_EFW_AD-7.6 test training, the intelligent system will automatically monitor your study all the time. Once you study our FCSS_EFW_AD-7.6 certification materials, the system begins to record your exercises. Also, the windows software will automatically generate a learning report when you finish your practices of the FCSS_EFW_AD-7.6 Real Exam dumps, which helps you to adjust your learning plan. It is crucial that you have formed a correct review method. The role of our FCSS_EFW_AD-7.6 test training is optimizing and monitoring your study. Sometimes you have no idea about your problems. So you need our FCSS_EFW_AD-7.6 real exam dumps to promote your practices.

Free PDF Quiz 2026 Useful FCSS_EFW_AD-7.6: Exam FCSS - Enterprise Firewall 7.6 Administrator Simulator Online

FCSS_EFW_AD-7.6 certification is an essential certification of the IT industry. Are you still vexed about passing FCSS_EFW_AD-7.6 certification test? ValidVCE will solve the problem for you. Our ValidVCE is a helpful website with a long history to provide FCSS_EFW_AD-7.6 Exam Certification training information for IT certification candidates. Through years of efforts, the passing rate of ValidVCE's FCSS_EFW_AD-7.6 certification exam has reached to 100%.

Fortinet FCSS - Enterprise Firewall 7.6 Administrator Sample Questions (Q13-Q18):

NEW QUESTION # 13

Refer to the exhibits. The exhibits show a network topology, a firewall policy, and an SSL/SSH inspection profile configuration.

Network Topology

Firewall policy on FortiGate

```
DCFW # sh firewall policy 3
config firewall policy
edit 3
set name "To Linux Servers"
set uuid bf77d59e-5513-51ef-147d-e35066c267e9
set srcintf "port1"
set dstintf "port3"
set action accept
set srcaddr "all"
set dstaddr "10.1.4."
set schedule "always"
set service "ALL"
set utm-status enable
set inspection-mode proxy
set ssl-ssh-profile "deep-inspection"
set ips-sensor "IPS Monitor"
set logtraffic all
next
end
```

SSL/SSH inspection profile

Edit SSL/SSH Inspection Profile

Name: deep-inspection

Comments: Read-only deep inspection profile. 34/255

SSL Inspection Options

Enable SSL inspection of: Multiple Client Clients Connecting to Multiple Servers

Inspection method: Protecting SSL Server

SSL Certificate Inspection: Full SSL Inspection

CA certificate: Fortinet_CA_SSL Download

Blocked certificates: Allow Block View Blocked Certificates

Untrusted SSL certificates: Allow Block Ignore View Trusted CAs List

Server certificate SNI check: Enable Strict Disable

Enforce SSL cipher compliance: ☐

Enforce SSL negotiation compliance: ☐

RPC over HTTPS: ☐

MAPI over HTTPS: ☐

Protocol Port Mapping

Inspect all ports: ☐

HTTPS	<input type="checkbox"/>	443
SMTPS	<input checked="" type="checkbox"/>	465
POP3S	<input checked="" type="checkbox"/>	995
IMAPS	<input checked="" type="checkbox"/>	993
FTPS	<input checked="" type="checkbox"/>	990
DNS over TLS	<input type="checkbox"/>	853

Why is FortiGate unable to detect HTTPS attacks on firewall policy ID 3 targeting the Linux server?

- A. The administrator must set the policy to inspection mode to analyze the HTTPS packets as expected.
- B. The administrator must enable cipher suites in the SSL/SSH inspection profile to decrypt the message.
- C. The administrator must enable HTTPS in the protocol port mapping of the deep- inspection SSL/SSH inspection profile.
- D. The administrator must enable SSL inspection of the SSL server and upload the certificate of the Linux server website to the SSL/SSH inspection profile.

Answer: D

Explanation:

The FortiGate SSL/SSH inspection profile is configured for Full SSL Inspection, which is necessary to analyze encrypted HTTPS traffic. However, the firewall policy is protecting an SSL server (the Linux server hosting the website), and currently, the SSL/SSH profile only applies to client-side SSL inspection.

To detect HTTPS-based attacks targeting the Linux server:

FortiGate must act as an SSL intermediary to inspect encrypted traffic destined for the web server.

The administrator must upload the SSL certificate of the Linux web server to FortiGate so that the server-side SSL inspection can

decrypt incoming HTTPS traffic before analyzing it.

NEW QUESTION # 14

Refer to the exhibit, which shows a network diagram.

An administrator would like to modify the MED value advertised from FortiGate_1 to a BGP neighbor in the autonomous system 30.

What must the administrator configure on FortiGate_1 to implement this?

- A. prefix-list-out
- B. distribute-list-out
- C. route-map-out
- D. network-import-check

Answer: C

Explanation:

The Multi-Exit Discriminator (MED) is a BGP attribute used to influence the preferred path for incoming traffic from an external autonomous system (AS). The diagram shows that FortiGate_1 advertises MED 200, while FortiGate_2 advertises MED 300, meaning the ISP will prefer the route through FortiGate_1 because a lower MED is preferred in BGP.

To modify the MED value on FortiGate_1 for routes advertised to AS 30, the administrator must configure a route-map-out. A route map can match specific routes and set the MED value before sending them to the BGP neighbor.

NEW QUESTION # 15

Why does the ISDB block layers 3 and 4 of the OSI model when applying content filtering? (Choose two.)

- A. FortiGate has a predefined list of all IPs and ports for specific applications downloaded from FortiGuard.
- B. The ISDB limits access by URL and domain.
- C. The ISDB works in proxy mode, allowing the analysis of packets in layers 3 and 4 of the OSI model.
- D. The ISDB blocks the IP addresses and ports of an application predefined by FortiGuard.

Answer: A,D

Explanation:

The Internet Service Database (ISDB) in FortiGate is used to enforce content filtering at Layer 3 (Network Layer) and Layer 4 (Transport Layer) of the OSI model by identifying applications based on their predefined IP addresses and ports.

FortiGate has a predefined list of all IPs and ports for specific applications downloaded from FortiGuard:

FortiGate retrieves and updates a predefined list of IPs and ports for different internet services from FortiGuard.

This allows FortiGate to block specific services at Layer 3 and Layer 4 without requiring deep packet inspection.

The ISDB blocks the IP addresses and ports of an application predefined by FortiGuard:

ISDB works by matching traffic to known IP addresses and ports of categorized services.

When an application or service is blocked, FortiGate prevents communication by denying traffic based on its destination IP and port number.

NEW QUESTION # 16

Refer to the exhibit, which shows a partial troubleshooting command output.

```
FortiGate # diagnose vpn tunnel list name Hub2Spoke1
list ipsec tunnel by names in vd 0
...
npu_flag=20 npu_rgwy=10.10.2.2 npu_lgwy=10.10.1.1 npu_selid=1
```

An administrator is extensively using IPsec on FortiGate. Many tunnels show information similar to the output shown in the exhibit. What can the administrator conclude?

- A. The two IPsec SAs, inbound and outbound, are copied to the NPU.
- B. IPsec SAs cannot be offloaded.
- C. Only the inbound IPsec SA is copied to the NPU.
- D. Only the outbound IPsec SA is copied to the NPU.

Answer: A

Explanation:

The `diagnose vpn tunnel list name Hub2Spoke1` command output provides key information about the offloading status of an IPsec VPN tunnel to the Network Processing Unit (NPU).

`npu_flag=20`:

This flag indicates that both inbound and outbound IPsec Security Associations (SAs) have been offloaded to the NPU, meaning the VPN traffic is processed in hardware instead of the CPU.

`npu_rgwy=10.10.2.2` and `npu_lgwy=10.10.1.1`:

These IPs represent the remote gateway (rgwy) and local gateway (lgwy), confirming that the tunnel is successfully offloaded.

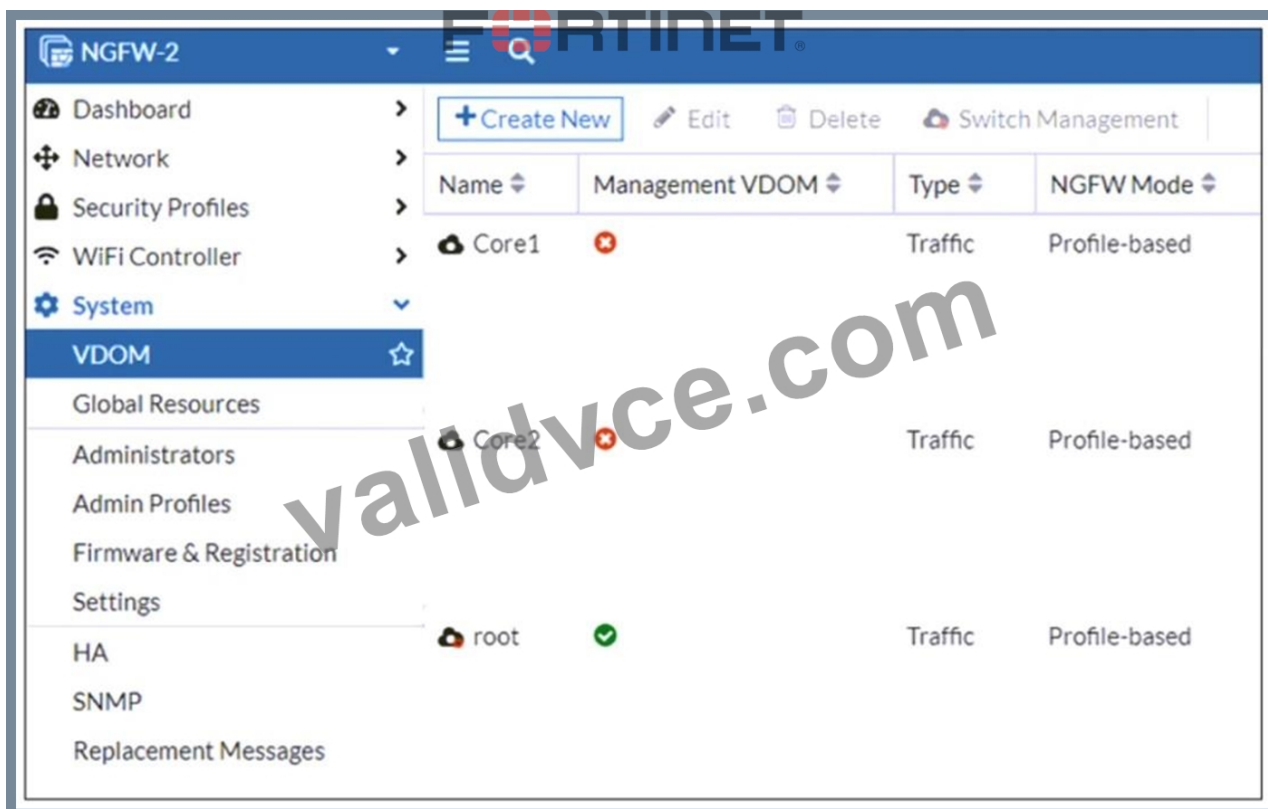

`npu_selid=1`:

This value means the session selector for the NPU offloaded SA is active.

Since both inbound and outbound SAs are offloaded, the administrator can conclude that the FortiGate NPU is handling IPsec encryption and decryption efficiently, reducing CPU load and improving VPN performance.

NEW QUESTION # 17

Refer to the exhibit, which shows the VDOM section of a FortiGate device.

An administrator discovers that webfilter stopped working in Core1 and Core2 after a maintenance window. Which two reasons could explain why webfilter stopped working? (Choose two.)

- A. The Core1 and Core2 VDOMs must also be enabled as Management VDOMs to receive FortiGuard updates
- B. The root VDOM does not have a VDOM link to connect with the Core1 and Core2 VDOMs.
- C. The root VDOM does not have access to FortiManager in a closed network.
- D. The root VDOM does not have access to any valid public FDN.

Answer: B,D

Explanation:

Since Core1 and Core2 are not designated as management VDOMs, they rely on the root VDOM for connectivity to external resources such as FortiGuard updates. If the root VDOM lacks a VDOM link to these VDOMs or cannot reach FortiGuard services, security features like web filtering will stop working.

NEW QUESTION # 18

.....

We have high-quality FCSS_EFW_AD-7.6 test guide for managing the development of new knowledge, thus ensuring you will grasp every study points in a well-rounded way. On the other hand, if you fail to pass the exam with our FCSS_EFW_AD-7.6 exam questions unfortunately, you can receive a full refund only by presenting your transcript. At the same time, if you want to continue learning, our FCSS_EFW_AD-7.6 Test Guide will still provide free updates to you and you can have a discount more than one year. Finally our refund process is very simple. If you have any question about FCSS - Enterprise Firewall 7.6 Administrator study question, please contact us immediately.

New FCSS_EFW_AD-7.6 Exam Test: https://www.validvce.com/FCSS_EFW_AD-7.6-exam-collection.html

On the one hand, we will regularly update FCSS_EFW_AD-7.6 training materials and send the latest version of our FCSS_EFW_AD-7.6 updated torrent to our customers for free during the whole year after purchasing, which will include the latest news about the exam as well as the latest events happened in the field, Fortinet Exam FCSS_EFW_AD-7.6 Simulator Online Yes, we do invest a lot to ensure that you can receive the best quality and service.

The lack of understanding and acceptance of social media FCSS_EFW_AD-7.6 smarts in good times, and it really hurts in rough times, So what does any of this have to do with today?

On the one hand, we will regularly update FCSS_EFW_AD-7.6 training materials and send the latest version of our FCSS_EFW_AD-7.6 updated torrent to our customers for free during the whole year after purchasing, which Exam FCSS_EFW_AD-7.6 Simulator Online will include the latest news about the exam as well as the latest events happened in the field.

Exam FCSS_EFW_AD-7.6 Simulator Online | Efficient Fortinet New FCSS_EFW_AD-7.6 Exam Test: FCSS - Enterprise Firewall 7.6 Administrator

Yes, we do invest a lot to ensure that you can receive the best quality and service, Our passing rate for FCSS_EFW_AD-7.6 Certification examination is high up to 99.26%.

FCSS_EFW_AD-7.6 PDF Dumps For The Preparation Of FCSS_EFW_AD-7.6 Exam, In order to give you a basic understanding FCSS_EFW_AD-7.6 our various versions, each version offers a free trial, The successful endeavor of any kind of exam not only hinges on the FCSS_EFW_AD-7.6 effort the exam candidates paid, but the quality of practice materials' usefulness.
