Let us struggle together and become better. Then you will do not need to admire others' life. Our CRT-251 Real Exam dumps will fully change your life.

## Salesforce Certified Sales Cloud Consultant Sample Questions (Q169-Q174):

### NEW QUESTION # 169

Cloud Kicks wants the sales operations team to be able to process customer credit card payments within Salesforce. Which approach should the consultant recommend to meet this requirement?

- A. Utilize an application from the AppExchange
- B. Create a flow to alert the finance team to manually charge the account.
- C. Develop Apex to connect with the Authorized.net API.
- D. Schedule a nightly batch job to find and post daily charges

**Answer: A**

Explanation:

Utilizing an application from the AppExchange is the easiest and most secure way to process customer credit card payments within Salesforce. There are many applications that offer this functionality, such as Chargent, Stripe, or PayPal. These applications integrate with Salesforce and allow sales operations team to charge customers directly from their records, without having to write any code or store any sensitive data in Salesforce.

### NEW QUESTION # 170

Northern Trail Outfitters (NTO) has a large sales department that is dispersed worldwide. Sales managers want greater visibility into the opportunities in progress with their respective teams and would like to receive email notifications when key opportunity fields are changed (e.g., amount or sales stage). However, individuals would like to control the frequency of their email notifications. Which solution should a consultant recommend for this scenario?

- A. Configure Chatter and its related notification settings to provide relevant updates to interested sales managers.
- B. Define a workflow rule and email task that is triggered when key fields are updated to new values.
- C. Configure the individual Salesforce for Outlook email settings to control notification frequency.
- D. Configure the opportunity teams for opportunities so that only interested sales users are receiving notifications.

**Answer: A**

### NEW QUESTION # 171

Which prerequisite should the consultant consider before enabling Opportunity Splits?

- A. Ensure open opportunities are owned by active users.
- B. Add customized split types to opportunities.
- C. Enable Opportunity Teams and confirm the owner is a team member.

**Answer: C**

Explanation:

Before enabling Opportunity Splits, it is essential to ensure that Opportunity Teams are enabled and that the opportunity owner is a team member. Opportunity Splits rely on the Opportunity Teams feature to function correctly, as splits are allocated among team members. Ensuring that the opportunity owner is part of the team guarantees that the splits are appropriately assigned and managed. This prerequisite is critical to setting up and using Opportunity Splits effectively.

### NEW QUESTION # 172

Cloud Kicks wants to sell to both consumers and businesses. The consumer sales team and business sales team will use different Stages.

Which two Salesforce functions will allow the consultant to meet this requirement?

Choose 2 answers

- A. Opportunity Splits
- B. Sales Processes
- C. Pipeline Inspection
- D. Record Types

**Answer: B,D**

#### **NEW QUESTION # 173**

Access to opportunities at Cloud kicks should be restricted. Sales users should only have access to two categories of opportunities: opportunities they own, and opportunities that are tied to accounts they own.

What are two actions a consultant can take to meet the requirement? Choose 2 answers

- A. Set organization-wide defaults for opportunities to Public Read-Only.
- B. Set Territory Management to grant Read access to opportunities owned by others.
- C. Set organization-wide defaults for opportunities to Private.
- D. Set opportunity access on the role to View All opportunities associated with their accounts.

**Answer: C,D**

Explanation:

Setting opportunity access on the role to View All opportunities associated with their accounts allows sales users to view all opportunities that are related to accounts they own or are above them in the role hierarchy. This meets the requirement of giving sales users access to opportunities that are tied to accounts they own. Setting organization-wide defaults for opportunities to Private restricts access to opportunities by default, so that only the owner and users above them in the role hierarchy can view them. This meets the requirement of giving sales users access to opportunities they own.

#### **NEW QUESTION # 174**

.....
