

300-715 Passleader Review - 300-715 New Braindumps Files

BTW, DOWNLOAD part of CertkingdomPDF 300-715 dumps from Cloud Storage: https://drive.google.com/open?id=1R1F_-m94GGWMAU_itKp9dfC4fcpti0AP

You can easily download these formats of Cisco 300-715 actual dumps and use them to prepare for the Cisco 300-715 certification test. You don't need to enroll yourself in expensive 300-715 Exam Training classes. With the Cisco 300-715 valid dumps, you can easily prepare well for the actual Cisco 300-715 exam at home.

Study Guides for Cisco 300-715 Validation

When studying for an exam, it is important to go beyond and look for extra study materials. So, here are two books you can use to study for the actual exam and test your knowledge:

- **CCNP Security Identity Management SISE 300-715 Official Cert Guide**

The Official Cert Guide by **A. Woland & K. McNamara** gives you a hands-on preparation formula for 300-715 exam. The book uses well-known elements and techniques such as quizzes in each chapter, exam topics to ease your revision process, and chapter-ending tasks to help you assess how well you have grasped the content. What is more, a manual like this covers all the seven domains tested in the Cisco 300-715 test conclusively and is a very good complement to the study course. The book is highly endorsed by Cisco because of its simulating and hands-on approach to preparation for the real exam.

- **Practical Deployment of Cisco Identity Services Engine (ISE) Study Guide**

The revision guide by **Andy Richter and Jeremy Wood** helps to bring into perspective the real-world use of ISE concepts

in enterprise networks. The authors provide various examples of how they have optimized ISE in many work environments in an attempt to help 300-715 Exam candidates understand how they can use their skills in the real work environment. The book shows you how you can employ ISE in different technologies through integration and make it work as a system for your organization. In addition, such a guide gives you a detailed explanation of how you can make ISE work in the real world. In general, it is more of a handbook to use even after passing 300-715. Either way, the book is a great accompaniment to the study course and helps you actualize your knowledge on the ground.

The benefit in Obtaining the Implementing and Configuring Cisco Identity Services Engine (300-715 SISE)

You earn the Cisco Certified Specialist - Security Identity Management Implementation certification.

You will have satisfied the concentration exam requirement for the new CCNP Security certification. To complete CCNP Security, you also need to pass the Implementing and Operating Cisco Security Core Technologies (350-701 SCOR) exam or its equivalent.

This exam is for:

- Wireless network security engineers
- ISE administrators
- Network security engineers
- Cisco integrators and partners

100% Pass Quiz 2026 Professional Cisco 300-715 Passleader Review

Choosing our Cisco 300-715 study material, you will find that it will be very easy for you to overcome your shortcomings and become a persistent person. If you decide to buy our Implementing and Configuring Cisco Identity Services Engine 300-715 study questions, you can get the chance that you will pass your 300-715 exam and get the certification successfully in a short time.

Cisco 300-715 Exam is a certification exam that focuses on the implementation and configuration of the Cisco Identity Services Engine (ISE). 300-715 exam is designed for network security engineers, network administrators, and system engineers who want to demonstrate their expertise in implementing and configuring Cisco ISE solutions.

Cisco Implementing and Configuring Cisco Identity Services Engine Sample Questions (Q58-Q63):

NEW QUESTION # 58

Users in an organization report issues about having to remember multiple usernames and passwords. The network administrator wants the existing Cisco ISE deployment to utilize an external identity source to alleviate this issue.

Which two requirements must be met to implement this change? (Choose two.)

- A. Enable IPC access over port 80.
- B. Ensure that the NAT address is properly configured
- C. Provide domain administrator access to Active Directory.
- D. Configure a secure LDAP connection.
- E. Establish access to one Global Catalog server.

Answer: C,E

NEW QUESTION # 59

An administrator needs to add a new third party network device to be used with Cisco ISE for Guest and BYOD authorizations. Which two features must be configured under Network Device Profile to achieve this? (Choose two.)

- A. dACL
- B. SNMP community
- C. URL Redirect
- D. TACACS

- E. CoA Type

Answer: C,E

NEW QUESTION # 60

A Cisco ISE engineer is creating certificate authentication profile to be used with machine authentication for the network. The engineer wants to be able to compare the user-presented certificate with a certificate stored in Active Directory. What must be done to accomplish this?

- A. Configure the user-presented password hash and a hash stored in Active Directory for comparison.
- B. Add the subject alternative name and the common name to the CAP
- C. Use MS-CHAPv2 since it provides machine credentials and matches them to credentials stored in Active Directory.
- D. Enable the option for performing binary comparison.

Answer: D

NEW QUESTION # 61

An administrator is configuring Cisco ISE to authenticate users logging into network devices using TACACS+. The administrator is not seeing any of the authentication in the TACACS+ live logs. Which action ensures the users are able to log into the network devices?

- A. Enable the device administration service in the Administration persona
- B. Enable the service sessions in the PSN persona.
- C. Enable the session services in the administration persona
- D. Enable the device administration service in the PSN persona.

Answer: D

Explanation:
