2026 Marvelous Network Appliance NS0-005 Frequent Updates

We are dedicated to providing our clients with the most current and accurate NetApp Technology Solutions Professional Exam study material. That is why we provide 1 year of free NS0-005 questions updates if the Network Appliance certification test content changes after your purchase. With this option, our clients can confidently use the most up-to-date and dependable NS0-005 preparatory material.

Network Appliance NS0-005 Exam Syllabus Topics:

Topic	Details
Topic 1	• Infrastructure: This domain covers foundational concepts including basic infrastructure components, data management principles, virtualization technologies, and AI fundamentals relevant to storage environments.
Topic 2	• Intelligent Data Infrastructure: This domain addresses advanced solutions including cyber resiliency, data mobility, hybrid cloud protection, storage architectures, and flexible consumption models for NetApp.
Topic 3	• Data Storage Software: This domain focuses on NetApp's core software platforms including SANtricity, ONTAP, and StorageGRID, along with the data management tools used to operate these systems.

Pass Guaranteed NS0-005 - The Best NetApp Technology Solutions Professional Exam Frequent Updates

Provided you get the certificate this time with our NS0-005 practice materials, you may have striving and excellent friends and promising colleagues just like you. It is also as obvious magnifications of your major ability of profession, so NS0-005 practice materials may bring underlying influences with positive effects. The promotion or acceptance will be easy. So it is quite rewarding investment. Propulsion occurs when using our NS0-005 practice materials. They can even broaden amplitude of your horizon in this line. Of course, knowledge will accrue to you from our NS0-005 practice materials.

Network Appliance NetApp Technology Solutions Professional Exam Sample Questions (Q19-Q24):

NEW QUESTION # 19
A storage administrator is configuring a new 4-node AFF A400 ONTAP cluster. The cluster uses SnapMirror replication and provisions FlexCache origin volumes. The aggregates also use NetApp BlueXP tiering to object storage.
What is the minimum number of intercluster LIFs that are required on this cluster?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

Explanation:
= Intercluster LIFs are logical interfaces that enable communication between clusters for data replication and caching. The minimum number of intercluster LIFs required on a cluster depends on the number of nodes, the number of IPSpaces, and the network topology.
According to the NetApp documentation, the following are the requirements for intercluster LIFs:
- At least one intercluster LIF must be configured on every node in the local cluster, and on every node in the remote cluster. Provisioning intercluster LIFs on only some nodes of the cluster is not supported.
- Each intercluster LIF requires an IP address dedicated for intercluster communication. The IP addresses assigned to intercluster LIFs can reside in the same subnet as data LIFs or in a different subnet.
- Every intercluster LIF on every node of the local cluster should be able to connect to every intercluster LIF on every node of the remote cluster. The cluster peering topology should use full-mesh connectivity. Full-mesh connectivity means that all the Intercluster LIFs of one peer cluster can communicate with all of the Intercluster LIFs of the other peer cluster.
Based on these requirements, the minimum number of intercluster LIFs required on a 4-node cluster is 8, assuming that there is only one IPspace and a full-mesh network topology. This means that each node has one intercluster LIF that can connect to the intercluster LIFs of the other nodes in the same cluster and the remote cluster. If there are more IPSpaces or a different network topology, the number of intercluster LIFs may vary.
References = What is an Intercluster network?, Create intercluster LIFs (Beginning with ONTAP 9.3), Create intercluster interfaces on all nodes (ONTAP 9.2 or earlier)

NEW QUESTION # 20
Which two solutions are natively supported with NetApp Virtual Desktop Service? (Choose two.)

- A. Windows Virtual Desktop
- B. Amazon Workspaces
- C. Citrix Virtual Desktops Essentials
- D. Remote Desktop Protocol

Answer: B,C

NEW QUESTION # 21
Which NetApp platform forms the basis of the StorageGRID appliance?

- A. FAS
- B. SolidFire
- C. E-Series
- D. AFF

Answer: C

NEW QUESTION # 22
A database administrator needs 30 writeable copies of a database that will not take additional space when created.
Which NetApp ONTAP feature meets this requirement?

- A. FlexClone
- B. SnapVault
- C. SnapLock

- D. FlexCache

Answer: A

Explanation:
FlexClone is an ONTAP feature that allows you to instantly create writable virtual copies of data volumes, files, and LUNs, which do not consume storage space. A FlexClone volume, file, or LUN is a writable point-in-time image of the FlexVol volume or another FlexClone volume, file, or LUN. FlexClone is based on Snapshot technology, which captures a read-only image of a volume at a given point in time. FlexClone is perfect for DevOps and test environments, where multiple copies of a database are needed for testing or development purposes.

NEW QUESTION # 23
A company wants to reduce their on-premises footprint by tiering cold data to a more cost-effective location.
Which IMetApp ONTAP feature can be used?

- **A. FabricPool**
- B. SnapVault
- C. SVM DR
- D. FlexGroup

Answer: A

NEW QUESTION # 24
......

Do you want to earn the Network Appliance NS0-005 certification to land a well-paying job or a promotion? Prepare with NS0-005 real exam questions to crack the test on the first try. We offer our NetApp Technology Solutions Professional Exam (NS0-005) Dumps in the form of a real NS0-005 Questions PDF file, a web-based Network Appliance NS0-005 Practice Questions, and NS0-005 desktop practice test software. Now you can clear the NetApp Technology Solutions Professional Exam test in a short time without wasting time and money with actual NS0-005 questions of PDFBraindumps.
