There is no doubt that you will never feel bored on learning our NCA-6.10 practice materials because of the smooth operation. You will find that learning is becoming interesting and easy. During the operation of the NCA-6.10 Study Materials on your computers, the running systems of the NCA-6.10 study guide will be flexible, which saves you a lot of troubles and help you concentrate on study.

Nutanix Certified Associate v6.10 Sample Questions (Q67-Q72):

NEW QUESTION # 67

An administrator needs to license a new cluster using Nutanix Cloud Platform Package Licensing. How can the administrator satisfy this task?

- A. From the My Nutanix Licensing Summary page, click Manage Licenses and follow the specified process.
- B. From the Nutanix Portal Licensing Summary page, click Manage Licenses and follow the specified process.
- C. From Prism Central Licensing, follow the specified process.
- D. From Prism Element Licensing, follow the specified process.

Answer: A

Explanation:

The correct answer is B. From the My Nutanix Licensing Summary page, click Manage Licenses and follow the specified process. With Nutanix Cloud Platform (NCP) Package Licensing, licensing is centrally managed through the My Nutanix Portal, where customers can:

* View license entitlements.

* Allocate or assign licenses to clusters.

* Download license files for upload via Prism Central or Prism Element.

The entry point for license assignment begins at the Licensing Summary page on the My Nutanix Portal.

Clarification of Other Options:

* A and D: Prism Central and Prism Element are used to upload licenses, not assign or generate them.

* C: "Nutanix Portal" is a vague reference; the correct term is "My Nutanix".

Official Reference:

* Nutanix Licensing Guide - Cloud Platform Licensing

* Excerpt: "Log in to My Nutanix > Licensing Summary > Manage Licenses to assign and manage licenses for your clusters."

NEW QUESTION # 68

Which storage protocol is supported for a datastore when using ESXi as the hypervisor within a Nutanix cluster?

- A. iSCSI
- B. SMB
- C. LVM
- D. NFS

Answer: D

Explanation:

When using ESXi as the hypervisor in a Nutanix cluster, the supported storage protocol for a datastore is NFS (Network File System). Nutanix exposes its distributed storage to ESXi hosts using NFS for VM storage.

This protocol is simple to configure and provides high performance and reliability through Nutanix's data services.

Other options:

* iSCSI: Not typically used for ESXi datastores but can be utilized for specific use cases like external storage connectivity.

* SMB: Not supported for ESXi datastores.

* LVM: Logical Volume Management is not used in this context.

Nutanix Storage Protocol Support Overview.

NEW QUESTION # 69

Nutanix Support has asked an administrator to provide an NCC output, but there is no access to the command line.

What should the administrator do to provide the requested NCC output?

- A. Run Health Checks in the Event Dashboard.
- B. Configure email in Alert Settings and Run Health Checks in the Alert Dashboard.
- C. Run Health Checks in the Alert Dashboard and enter an email to send it to.
- D. Configure email in Alert Settings and Run Health Checks in the Health Dashboard.

Answer: B

NEW QUESTION # 70

An administrator needs to remove several old VM snapshots.

From which Prism Element dashboard should the administrator complete this task?

- A. Tasks
- B. Storage
- C. Settings
- D. VM

Answer: D

NEW QUESTION # 71

Which storage protocol is supported for a datastore when using ESXi as the hypervisor within a Nutanix cluster?

- A. iSCSI
- B. SMB
- C. LVM
- **D. NFS**

Answer: D

NEW QUESTION # 72
