Download Salesforce AP-215 Exam Dumps after Paying Affordable Charges

Now is the ideal time to prepare for and crack the AP-215 exam. To do this, you just need to enroll in the AP-215 examination and start preparation with top-notch and updated Salesforce AP-215 actual exam dumps. All three formats of Marketing Cloud Intelligence Accredited Professional AP-215 Practice Test are available with up to three months of free Marketing Cloud Intelligence Accredited Professional exam questions updates, free demos, and a satisfaction guarantee. Just pay an affordable price and get AP-215 updated exam dumps.

Salesforce Marketing Cloud Intelligence Accredited Professional Sample

Questions (Q58-Q63):

NEW QUESTION # 58

A client Ingested the following We into Marketing Cloud Intelligence:

□ The mapping of the above file can be seen below:

Date - Day

Media Buy Key - Media Buy Key

Campaign Name - Campaign Name

Campaign Group -. Campaign Custom Attribute 01

Clicks -> Clicks

Media Cost -> Media Cost

Campaign Planned Clicks -> Delivery Custom Metric 01

The client would like to have a "Campaign Planned Clicks" measurement.

This measurement should return the "Campaign Planned Clicks" value per Campaign, for example:

For Campaign Name 'Campaign AAA', the "Campaign Planned Clicks" should be 2000, rather than 6000 (the total sum by the number of Media Buy keys).

In order to create this measurement, the client considered multiple approaches. Please review the different approaches and answer the following question:

□ Which two options will yield a false result:

- A. Option 5
- B. Option 4
- C. Option 1
- D. Option 3
- E. Option 2

Answer: A,C

Explanation:

The goal is to obtain a "Campaign Planned Clicks" value per Campaign, not accumulated by Media Buy keys. Option 1 (SUM aggregation function) would sum all the "Campaign Planned Clicks" across Media Buy keys which would not yield the unique value per Campaign. Similarly, Option 5 (AVG aggregation function at Campaign Key level) would incorrectly average the values. Both options do not provide a way to return a singular "Campaign Planned Clicks" value for each Campaign.

NEW QUESTION # 59

Your client is interested in ingesting the below file:

□ The client decided to upload the file to a new generic data stream type and map 'Date' to 'Day' and 'Number of Topics' to a generic custom metric.

In regards to the fields 'Meeting Code' and 'Meeting Name', your client is debating several options.

Which two options would you recommend in order to avoid data loss?

- A. 'Meeting Code' will be mapped to 'Main Generic Entity custom attribute'.
'Meeting Name' will be mapped to 'Generic Entity Key'
- B. 'Meeting Code' will be mapped to 'Main Generic Entity Attribute 1'.
'Meeting Name' will be mapped to 'Main Generic Entity Attribute 2'.
- C. 'Meeting Code' will be mapped to 'Main Generic Entity Key'.
'Meeting Name' will be mapped to 'Main Generic Entity custom attribute'.
- D. 'Meeting Code' will be mapped to 'Main Generic Entity Key'.
'Meeting Name' will be mapped to 'Generic Entity 2 Key'.
- E. Concatenation of both 'Meeting Code' and 'Meeting Name' will be mapped to 'Main Generic Entity Key'.
'Meeting Code' will be mapped to 'Main Generic Entity Attribute 1'.

Answer: C,E

Explanation:

'Meeting Name' will be mapped to 'Main Generic Entity Attribute 2'.

Explanation:

To avoid data loss and ensure each meeting is uniquely identified and its details are preserved, two mappings are recommended:

Option A:

'Meeting Code' should be mapped to the 'Main Generic Entity Key' to uniquely identify each meeting.

'Meeting Name' should be mapped to a 'Main Generic Entity custom attribute' to store additional information about the meeting.

Option E:

Concatenation of 'Meeting Code' and 'Meeting Name' should be mapped to 'Main Generic Entity Key'. This ensures a unique identifier for each meeting is created combining both pieces of information, preventing any mix-ups between meetings with similar codes or names.

Additionally, mapping 'Meeting Code' and 'Meeting Name' to their respective 'Main Generic Entity Attribute' fields will allow for more detailed filtering and reporting capabilities within Marketing Cloud Intelligence.

NEW QUESTION # 60

A client would like to integrate the following two sources:

Google Campaign Manager:

IAS:

After configuring a Parent-Child relationship between the files, which query should an implementation engineer run in order to QA the setup?

- A. Media Buy Type, Media Buy Name, Impressions, Analyzed Impressions
- B. Media Buy Type, Analyzed Impressions
- C. Media Buy Name, Impressions
- D. Creative Name, Impressions, Analyzed Impressions

Answer: A

Explanation:

To QA the Parent-Child relationship setup between Google Campaign Manager and IAS data sources, it is essential to query fields that are common to both sources and that are relevant to the relationship. 'Media Buy Type' and 'Media Buy Name' are common identifiers between the two datasets. 'Impressions' from the Google Campaign Manager and 'Analyzed Impressions' from the IAS data are the metrics that should be compared to ensure they match or correlate as expected due to the Parent-Child relationship. The QA process involves checking that the data is correctly aligned and that the metrics from the parent source (Google Campaign Manager) are properly related to the metrics from the child source (IAS). Reference: Salesforce Marketing Cloud Intelligence documentation on data integration, Parent-Child relationships, and QA procedures for data setup.

NEW QUESTION # 61

A client's data consists of three data streams as follows:

Data Stream A:

* The data streams should be linked together through a parent-child relationship.

* Out of the three data streams, Data Stream C is considered the source of truth for both the dimensions and measurements.

How should the "Override Media Buy Hierarchies" checkbox be set in order to meet the client's requirements?

- A. It should be checked in Data Stream C
- B. It should not be checked in any of the three Data Streams.
- C. It should be checked in Data Stream B
- D. It should be checked in Data Stream A

Answer: A

Explanation:

If Data Stream C is the source of truth, the "Override Media Buy Hierarchies" checkbox should be checked for Data Stream C. This means that the hierarchy defined within Data Stream C will take precedence over any other media buy hierarchies present in Data Streams A or B. By doing so, it enforces that the hierarchy from the source of truth (Data Stream C) is used throughout the dataset, maintaining the integrity of the hierarchical relationships as defined by the most reliable data source.

NEW QUESTION # 62

Which option will yield the desired result:?

- A. Option 1
- B. Option 3

- C. Option 4
- D. Option 2

Answer: C

Explanation:

Option 4 presents two calculated measurements for 'Group Min Cost' with 'MIN' and 'AVG' aggregations. This approach aligns with the client's need for the minimum and average media cost values. 'Group Min Cost 4 MIN' will calculate the minimum media cost across the 'Media Buy Key', while 'Group Min Cost 4 FINAL' will average these minimum costs at the 'Campaign Key' level. This will yield the desired result where minimum costs are calculated at the Media Buy Key level and then averaged at the Campaign Key level.

NEW QUESTION # 63

.....

As the saying goes, practice makes perfect. We are now engaged in the pursuit of Craftsman spirit in all walks of life. Professional and mature talents are needed in each field, similarly, only high-quality and high-precision AP-215 practice materials can enable learners to be confident to take the qualification examination so that they can get the certificate successfully, and our AP-215 learning materials are such high-quality learning materials, it can meet the user to learn the most popular test site knowledge. Because our experts have extracted the frequent annual test centers are summarized to provide users with reference. Only excellent learning materials such as our AP-215 practice materials can meet the needs of the majority of candidates, and now you should make the most decision is to choose our products.

AP-215 Reliable Test Online: <https://www.dumpsactual.com/AP-215-actualtests-dumps.html>

Candidates are looking for valid AP-215 questions which belong to AP-215 urgently, You can now easily increase your chances of your success by using Salesforce AP-215 vce real Questions and Answers, APP version of AP-215 test online materials is also client that its functions are similar with soft version, You can completely feel safe to take advantage of these AP-215 quiz braindumps.

Now we are going to introduce the online AP-215 version for you, Similarly, you could use the same feature to connect with clients for a quick online conference, Candidates are looking for valid AP-215 Questions which belong to AP-215 urgently.

Latest AP-215 PDF Download, AP-215 Reliable Test Online

You can now easily increase your chances of your success by using Salesforce AP-215 vce real Questions and Answers, APP version of AP-215 test online materials is also client that its functions are similar with soft version.

You can completely feel safe to take advantage of these AP-215 quiz braindumps, Once you have well prepared with our AP-215 dumps collection, you will go through the formal test without any difficulty.
