Achieving this certification demonstrates to employers and peers that you have the skills and knowledge necessary to provide strategic financial direction to organizations, making you a valuable asset to any team.

CIMA F3 Financial Strategy Sample Questions (Q276-Q281):

NEW QUESTION # 276

The ex div share price of a company's shares is \$2.20.

An investor in the company currently holds 1,000 shares.

The company plans to issue a scrip dividend of 1 new share for every 10 shares currently held.

After the scrip dividend, what will be the total wealth of the shareholder?

Give your answer to the nearest whole \$.

\$?.

Answer:

Explanation:
2200

NEW QUESTION # 277

B has a \$3 million loan outstanding on which the interest rate is reset every 6 months for the following 6 months and the interest is payable at the end of that 6 month period. The next 6 monthly reset period starts in 3 months and the treasurer of B thinks interest rates are likely to rise between then and then. Current 6-month rates are 6.4% and the treasurer can get a rate of 6.9% for a 6-month forward rate agreement (FRA) starting in 3 months time. By transacting an TRA the treasurer can lock in a rate today of 6.9%. If interest rates are 7.5% in 3 months' time, what will the net amount payable be? Give your answer to the nearest thousand dollars.

Answer:

Explanation:
104

NEW QUESTION # 278

A company wishes to raise new finance using a rights issue. The following data applies:

- * There are 20 million shares in issue with a market value of \$6 each
 - * The terms of the rights will be 1 new share for 4 existing shares held
 - * After the rights issue, the theoretical ex-rights price (TERP) will be \$5.75 Assuming all shareholders take up their rights, how much new finance will be raised ?
- Give your answer to one decimal place.

Answer:

Explanation:
\$? million
7.5, 7.50

NEW QUESTION # 279

Company A is planning to acquire Company B at a price of \$ 65 million by means of a cash bid. Company A is confident that the merged entity can achieve the same price earnings ratio as that of Company A. What does Company A expect the value of the merged entity to be post acquisition?

- A. \$122.5 million
- B. \$187.5 million
- C. \$156.0 million
- D. \$207.0 million

Answer: A

Explanation:
Step 1 - Work out the current P/E of Company A
From the table:
Share price A = \$5.00
EPS A = \$0.40
$$P/E = \frac{\text{Price}}{\text{EPS}} = \frac{5.00}{0.40} = 12.5$$

So A trades on a P/E of 12.5.
Step 2 - Calculate A's and B's current earnings
A's shares = 20m # Earnings A = $0.40 \times 20\text{m} = \8m
B's shares = 14m # Earnings B = $0.50 \times 14\text{m} = \7m
Current equity value of A (check):
 $8\text{m} \times 12.5 = 100\text{m}$ (matches 5×20)
Step 3 - Revalue B using A's P/E after acquisition Company A believes that after acquisition, the combined group will be seen as having

the same P/E as A (12.5).

So the value of B's earnings inside the merged group is:

Value of B in merged group = $7m \times 12.5 = 87.5m$ $\text{Value of B in merged group} = 7m \times 12.5 = 87.5m$
Value of B in merged group = $7m \times 12.5 = 87.5m$ Step 4 - Value of A after paying for B in cash To get the post-acquisition value to A's shareholders, take:

Post-acquisition value = Current value of A #100m + Value of B in merged group #87.5m

5m # Cash paid for B #65m $\text{Post-acquisition value} = \underbrace{\text{Current value of A}}_{100m} +$

$\underbrace{\text{Value of B in merged group}}_{87.5m} - \underbrace{\text{Cash paid for B}}_{65m}$ Post-acquisition

value = $100m$ Current value of A + $87.5m$ Value of B in merged group # $65m$ Cash paid for B

= $100 + 87.5 - 65 = 122.5$ million = $100 + 87.5 - 65 = 122.5$ million So Company A expects the value of the merged entity (i.e. A after acquiring B for cash) to be:

\$122.5 million $\boxed{\$122.5 \text{ million}}$ \$122.5 million

Correct option: A. \$122.5 million

NEW QUESTION # 280

Which of the following statements about companies seeking a stock market listing is correct?

- A. A listing will require the owners to either sell a majority of their shares, or, if they retain their shares, to step down from the board.
- **B. The enhanced reputation of the company can improve its credit rating reducing the risk of non-payment to suppliers and lenders.**
- C. When a company seeks a listing this may unsettle its staff, potentially resulting in a loss of valued employees.
- D. A listing may make it harder for a company to raise money from its existing lenders.

Answer: B

Explanation:

A listing usually improves access to finance; it doesn't make it harder to borrow.

A stock exchange listing can enhance reputation, transparency and access to capital, which can improve the company's credit rating, lowering the perceived risk to suppliers and lenders # B is correct.

C may sometimes happen but isn't a standard, expected consequence in the way B is.

D is wrong - owners do not have to sell a majority or leave the board when listing.

NEW QUESTION # 281

.....

The passing rate of our CIMAPRA19-F03-1 training quiz is high as 98% to 100% and the hit rate is also high. Our professional expert team seizes the focus of the exam and chooses the most important questions and answers which has simplified the important information and follow the latest trend to make the client learn easily and efficiently on our CIMAPRA19-F03-1 Study Guide.
