## Sharing-and-Visibility-Architect合格体験談、Sharing-and-Visibility-Architect認定資格試験問題集

当社のSharing-and-Visibility-Architect認定テストは、技術スキルを向上させ、さらに重要なこととして、厳しい労働環境で明るい未来のために戦う自信を築くのに役立ちます。当社の専門家は、Sharing-and-Visibility-Architect学習ツールの開発に多くの時間とエネルギーを費やしています。あなたは私たちを信頼し、あなたの将来の発展において私たちをあなたの正直な協力者にすることができます。参考までに、Sharing-and-Visibility-Architect試験の利点をいくつかご紹介します。Sharing-and-Visibility-Architect試験の質問については、ウェブ上の次の項目を一目で確認するために時間を割くことをお勧めします。

Salesforce Sharing-and-Visibility-Architect 試験は、Salesforceプラットフォームの共有と可視性の側面に特化したプロフェッショナル向けの認定試験です。この認定は、Salesforceエコシステム内で安全で効率的でスケーラブルな共有と可視性ソリューションを計画、設計、実装する能力を検証することを意図しています。試験は、共有ルール、役割階層、権限セット、共有グループ、マニュアル共有、Apex共有など、Salesforceのさまざまな共有と可視性の機能に関する知識をテストします。

### Salesforce Certified Sharing and Visibility Architect 認定 Sharing-and-Visibility-Architect 試験問題 (Q64-Q69):

#### 質問 # 64

To grant Universal Containers sales manager access to shipment records properly, it was necessary to leverage Apex managed sharing. The IT team is worried about improper access to records.

Which two features and best practices should a Salesforce architect recommend to mitigate this risk?

- A. Use runAs system method in test classes to test using different users and profiles.
- B. Use isShareable in Apex classes to assure record visibility will be followed.
- C. Use isAccessible keyword in Apex classes to assure record visibility will be followed
- D. Use with Sharing keyword in Apex classes to assure record visibility will be followed.

正解: A、D

#### 質問 # 65

Universal Containers is planning to pilot a new application to a small set of Sales Reps.

What is the optimal way to grant inly this Sales Reps access to the new functionality, while hiding ..

- A. Create a permission set to grant access to the new functionality and hide the old functionality.
- B. Revoke access to legacy function in the Sales Rep profile and create a permission set for the ..
- C. Clone the Sales Rep profile, adjust settings, and assign the pilot users the new profile.
- D. Create new user records for the pilot user that they will use for the pilot.

正解: C

解説:

Explanation

Cloning the Sales Rep profile, adjusting settings, and assigning the pilot users the new profile is the optimal way to grant only this Sales Reps access to the new functionality, while hiding it from other users. This way, the pilot users can have different permissions and access than the other Sales Reps who are not part of the pilot. Option B is incorrect, since revoking access to legacy function in the Sales Rep profile and creating a permission set for the new functionality would affect all Sales Reps, not just the pilot users.

Option C is incorrect, since creating a permission set to grant access to the new functionality and hide the old functionality would not work, as permission sets cannot revoke access. Option D is incorrect, since creating new user records for the pilot user that they will use for the pilot would be unnecessary and inefficient.

#### 質問 # 66

In order to allow community users to collaborate on Opportunities, which license type must the users.

- A. Partner Community
- B. Sales Community
- C. Customer Community plus

- D. Customer Community

正解: A

#### 質問 # 67

What is a workaround to ownership data skew?

正解:

解説:

You can minimize possible performance impacts by not assigning the user(s) to a role.

Explanation

A workaround to ownership data skew is to minimize possible performance impacts by not assigning the user(s) to a role.

Ownership data skew occurs when a single user owns a large number of records (more than 10,000) of an object, which can cause performance issues when sharing calculations are performed.

By not assigning the user to a role, you can prevent the sharing rules from being applied to the records owned by that user, and reduce the number of rows in the sharing tables.

#### 質問 # 68

Sales operations at Universal Containers (UC) has created Public Reports and Dashboards folders for sales managers. Sales operations and sales managers report to the VP of Sales. Sales operations currently spends a few hours each month updating users that should have access to edit reports and dashboards in these folders.

How should UC grant access to sales managers to automate access to these Public Reports and Dashboards folders?

- A. Share the folders with the lowest roles in the Role Hierarchy; superiors will get access automatically.
- B. Share the folders with the Sales Managers profile.
- C. Share the folders with a "Sales Managers" Public Group.

正解: C

解説:

To efficiently manage access to public report and dashboard folders for a group of users (like sales managers), using a Public Group is the best practice. Public Groups can be used to define access centrally and avoid manual updates.

\* Option A: Sharing via the Role Hierarchy provides hierarchical access but does not allow specific access control for folders.

\* Option B: Sharing folders with a profile is not supported in Salesforce.

\* Option C (Correct): Sharing folders with a Public Group ensures efficient and automated access management for sales managers.
