Successfully passing the Salesforce B2C-Commerce-Architect Exam demonstrates that an individual has a deep understanding of B2C commerce architecture and can design and implement effective solutions using the Salesforce Commerce Cloud platform. This credential is highly valued in the industry and can open up lucrative career opportunities for professionals looking to specialize in B2C commerce architecture.

Achieving the Salesforce Certified B2C Commerce Architect certification demonstrates a high level of expertise in designing and implementing B2C commerce solutions on the Salesforce Commerce Cloud platform. It also provides a competitive advantage in the job market and opens up new career opportunities. Salesforce Certified B2C Commerce Architect certification showcases the ability to design and implement complex B2C commerce solutions, as well as the ability to manage and lead a team of developers and architects. With the growing demand for B2C commerce solutions, this certification is becoming increasingly valuable for professionals in the industry.

Salesforce Certified B2C Commerce Architect Sample Questions (Q28-Q33):

NEW QUESTION # 28

The Client has requested an Architect's help in documenting the architectural approach to a new home page.

The requirements provided by the business are:

- * Multiple areas of static image content, some may need text shown at well
- * The content page must be Realizable
- * A carousel of featured products must be shown below a banner 101191
- * Recommended categories will be featured based on the time of year

Which two solutions would fulfil these requirements?

Choose 2 answers

- **A. Leverage B2C Commerce Page Designer with a dynamic layout.**
- B. Leverage B2C Commerce ContentManagement Service
- **C. Leverage B2C Commerce content slots and assets**
- D. Leverage B2C Commerce locales in Business Manager

Answer: A,C

Explanation:

To fulfill the requirements of having multiple static image content areas, a carousel of featured products, and dynamic content adjustments based on the time of year:

- * Option C (Leverage B2C Commerce content slots and assets): This solution allows for dynamic content management where different assets and slots can be used to manage and display static images, text overlays, and other content variations effectively.
- * Option D (Leverage B2C Commerce Page Designer with a dynamic layout): Using the Page Designer with a dynamic layout enables the easy assembly of complex page designs, including carousels and responsive elements that adjust based on viewing device or other criteria like time of year. This tool provides the flexibility required for real-time customization and resizability of page elements.

These solutions provide robust and flexible management of site content that meets the business's needs for a visually engaging and adaptable homepage.

NEW QUESTION # 29

A university is considering using Experience Cloud so its students can interact with advisors who have Service Cloud licenses. The university would like to offer the easiest path for existing students to log in while still maintaining security. They have an on-premises Active Directory identity provider and use Google Workspace (formerly known as G Suite) for student email addresses.

What should a Solution Architect recommend?

- A. Implement Social Sign On with OpenId Connect and Google Workspace as Auth Provider.
- **B. Implement OAuth 2.0 authentication protocol with Google Workspace as Service Provider.**
- C. Implement Aloha template for students to access email with Salesforce Authenticator app.
- D. Implement Active Directory and Salesforce Identity for SAML delegated Single Sign On.

Answer: B

NEW QUESTION # 30

The Client has requested an Architect's help in documenting the architectural approach to a new home page. The requirements provided by the business are:

- * Multiple areas of static image content, some may need text shown at well
- * The content page must be Realizable
- * A carousel of featured products must be shown below a banner 101191
- * Recommended categories will be featured based on the time of year

Which two solutions would fulfil these requirements?

Choose 2 answers

- **A. Leverage B2C Commerce Page Designer with a dynamic layout.**
- B. Leverage B2C Commerce ContentManagement Service
- **C. Leverage B2C Commerce content slots and assets**
- D. Leverage B2C Commerce locales in Business Manager

Answer: A,C

Explanation:

To fulfill the requirements of having multiple static image content areas, a carousel of featured products, and dynamic content adjustments based on the time of year:

Option C (Leverage B2C Commerce content slots and assets): This solution allows for dynamic content management where different assets and slots can be used to manage and display static images, text overlays, and other content variations effectively.

Option D (Leverage B2C Commerce Page Designer with a dynamic layout): Using the Page Designer with a dynamic layout enables the easy assembly of complex page designs, including carousels and responsive elements that adjust based on viewing device or other criteria like time of year. This tool provides the flexibility required for real-time customization and resizability of page elements. These solutions provide robust and flexible management of site content that meets the business's needs for a visually engaging and adaptable homepage.

NEW QUESTION # 31

New client is going to migrate to the Salesforce Commerce Cloud. Website is ready to be live but just is missing the customers and previous orders. What should we do?

- **A. Import at least orders before going live.**
- B. There are no blockers. If everything else is working, the site can go live.
- C. Change Site status from password protected to live and import missing data when ready.
- D. Send a ticket to Salesforce to publish the new site and import later missing data.

Answer: A

NEW QUESTION # 32

A developer is checking for Cross Site Scripting (XSS) and found that the quick search is not escaped (allows inclusion of Javascript) in the following script:

How would the developer resolve this issue?

- A. Replace 'with double Quote*
- B. Use `<toPrint value="{searchPhrase}" />`
- C. Use `<isprint value="{searchPhrase} encoding-'jsblock' />`
- **D. Use `<isprint value="{searchPhrase} * encoding-'jshtml' />`**

Answer: D

Explanation:

To resolve the issue of Cross Site Scripting (XSS) where the quick search is not escaped, the developer should use the `<isprint>` tag with the 'jshtml' encoding option (Answer B). This method ensures that any JavaScript included in the search phrase is properly escaped, preventing the execution of potentially malicious scripts.

The 'jshtml' encoding is specifically designed to encode text for HTML contexts where JavaScript is embedded, providing a secure way to handle user input in Salesforce B2C Commerce.
