Fast Download JN0-106 Reliable Exam Cost - First-Grade JN0-106 Exam Tool Guarantee Purchasing Safety

When you take Juniper JN0-106 practice exams again and again you get familiar with the Junos, Associate (JNCIA-Junos) (JN0-106) real test pressure and learn to handle it for better outcomes. Features of the web-based and desktop JN0-106 Practice Exams are similar. The only difference is that the Junos, Associate (JNCIA-Junos) (JN0-106) web-based version works online.

Juniper Junos, Associate (JNCIA-Junos) Sample Questions (Q115-Q120):

NEW QUESTION # 115

Which advantage is provided by multiple software processes running in the Junos OS?

- A. Each process is started manually to ensure system stability.
- B. Each process allocates a fixed amount of CPU resources.
- C. Each process runs in a protected memory space.
- D. Each process dependency can be mapped independently.

Answer: C

Explanation:

Multiple software processes in Junos OS run in separate, protected memory spaces, which increases system stability and reliability by isolating faults to individual processes.

NEW QUESTION # 116

You are configuring a firewall filter on a Juniper device. In this scenario, what are two valid terminating actions? (Choose two.)

- A. count
- B. accept
- C. next term
- D. discard

Answer: B,D

Explanation:

In Juniper firewall filter configurations, "discard" and "accept" are two valid terminating actions for a term within a filter. The "discard" action drops the packet, preventing it from reaching its intended destination, while the "accept" action allows the packet to pass through the filter, proceeding to its next hop or destination. "Count" is a non-terminating action that increments a counter every time a packet matches the term but does not inherently determine the packet's fate. "Next term" directs the evaluation to proceed to the next term in the filter for further processing, also a non-terminating action.

NEW QUESTION # 117

You have just increased the MTU size of interface ge-0/0/0 and committed the configuration. Which command would help you identify the applied MTU change?

- A. show interfaces ge-0/0/0
- B. monitor interface ge-0/0/0
- C. monitor traffic interface ge-0/0/0
- D. show interfaces ge-0/0/0 terse

Answer: A

Explanation:

After increasing the MTU size of an interface and committing the configuration, the command to verify the applied MTU change is D, "show interfaces ge-0/0/0." This command displays detailed information about the interface, including the current MTU size, making it the best choice for verifying the applied changes.

NEW QUESTION # 118

Which service does RADIUS provide?

- A. DNS resolution
- B. time synchronization
- C. routing
- D. authentication

Answer: D

Explanation:

RADIUS, which stands for Remote Authentication Dial-In User Service, provides authentication services for users trying to access a network. It is a networking protocol that provides centralized Authentication, Authorization, and Accounting (AAA) management for users who connect and use a network service.

NEW QUESTION # 119

Click the Exhibit button.

Referring to the exhibit, what is the source IP address of the ping that was executed?

- A. 10.12.0.2
- B. 10.23.0.3
- C. 10.23.0.2
- D. 10.24.0.4

Answer: C

Explanation:

The exhibit shows a ping test being executed from router R2 to the IP address 10.23.0.3. Since the ping command is issued on R2 and we see successful replies from 10.23.0.3, it means the source of the ping must be an interface on R2. Given the network diagram and the IP address scheme, the source IP address of the ping is on the interface ge-0/0/2 of R2, which is in the subnet 10.23.0.0/24. The only logical IP address for R2's interface in this subnet, based on standard networking practices and the given options, would be 10.23.0.2. The other addresses provided in the options belong to different subnets or are the destination of the ping itself.

NEW QUESTION # 120

.....

It will improve your skills to face the difficulty of the JN0-106 exam questions and accelerate the way to success in IT filed with our latest study materials. Free demo of our JN0-106 dumps pdf can be downloaded before purchase and 24/7 customer assisting support can be access.
