

H19-401_V2.0 Valid Test Cost - H19-401_V2.0 Training Courses

We all know, the IT industry is a new industry, and it is one of the chains promoting economic development, so its important role can not be ignored. Our VCEdumps's H19-401_V2.0 exam training materials is the achievement of VCEdumps's experienced IT experts with constant exploration, practice and research for many years. Its authority is undeniable. If you buy our H19-401_V2.0 VCE Dumps, we will provide one year free renewal service.

Huawei H19-401_V2.0 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> • Technical Fundamentals and Applications of Multi-Branch WAN Interconnection: Addresses enterprise WAN technologies including private lines, VPN, and SD-WAN for connecting distributed branch offices.
Topic 2	<ul style="list-style-type: none"> • Huawei iMaster NCE-CampusInsight: Campus Network Analyzer: Presents Huawei's intelligent O&M analytics platform offering network health, user experience, application experience views, and a campus digital map.
Topic 3	<ul style="list-style-type: none"> • Technical Fundamentals and Applications of Office Campus Networks: Explores the full spectrum of office campus network design including routing, switching, security, reliability, virtualization, IPv6, and energy efficiency.
Topic 4	<ul style="list-style-type: none"> • Key Technical Principles and Applications in Industrial Scenarios: Covers the development, key technologies, and sector-specific applications of high-performance industrial campus networks.
Topic 5	<ul style="list-style-type: none"> • Huawei Xinghe Intelligent Cloud Managed Campus Network Design Guide for Small and Midsize Enterprises: Provides design guidance for SME cloud-managed campus networks covering architecture, IP services, wireless, access control, and O&M.

Topic 6	<ul style="list-style-type: none"> • Huawei Xinghe Intelligent Campus Network Multi-Branch WAN Interconnection Solution Design Guide: Provides end-to-end SD-WAN design guidance for multi-branch WAN interconnection including architecture, services, deployment, and O&M.
Topic 7	<ul style="list-style-type: none"> • Huawei Xinghe Intelligent Large-and Medium-Sized Campus Network Design Guide (VLAN Networking): Covers VLAN-based design for large and medium campuses including wired, wireless, access control, O&M, and multi-campus interconnection.
Topic 8	<ul style="list-style-type: none"> • Huawei iMaster NCE-Campus: Campus Network Management System: Introduces the iMaster NCE-Campus platform covering automated network planning, construction, O&M, and its various deployment modes.
Topic 9	<ul style="list-style-type: none"> • Huawei High-Quality Campus MSP Solution: Introduces Huawei's Managed Service Provider business model, solutions, product offerings, and industry-specific differentiators for campus networks.
Topic 10	<ul style="list-style-type: none"> • Technical Fundamentals and Applications of WLAN: Covers the origin, core concepts, networking architectures, and key technologies behind wireless LAN deployments in campus environments.
Topic 11	<ul style="list-style-type: none"> • Huawei Xinghe Intelligent Campus Solution: Details the Xinghe solution's core capabilities including automation, ultra-broadband, network simplification, access authentication, intelligent policy, O&M, and security.

Huawei H19-401_V2.0 PDF Questions - Ensure Your Success In Exam

The H19-401_V2.0 test prep mainly help our clients pass the H19-401_V2.0 exam and gain the certification. The certification can bring great benefits to the clients. The clients can enter in the big companies and earn the high salary. You may double the salary after you pass the H19-401_V2.0 Exam. If you own the certification it proves you master the H19-401_V2.0 quiz torrent well and you own excellent competences and you will be respected in your company or your factory. If you want to change your job it is also good for you.

Huawei HCSP-Presales-Campus Network Planning and Design V2.0 Sample Questions (Q46-Q51):

NEW QUESTION # 46

Which protocol is used to automatically advertise VN routes between sites?

- A. BGP EVPN
- B. RIP
- C. Static routing
- D. OSPF

Answer: A

Explanation:

BGP EVPN (Border Gateway Protocol Ethernet Virtual Private Network) is the standard control plane protocol used in Huawei's SD-WAN and Fabric solutions. It acts as the "messenger" that automatically advertises Virtual Network (VN) routes, MAC addresses, and tunnel encapsulation information between sites. This replaces the need for complex static routing or legacy protocols like RIP/OSPF for overlay communication, enabling massive scalability and automation.

NEW QUESTION # 47

What is the single-link failover time supported by Huawei's M-LAG solution?

- A. < 1s

- B. < 2s
- C. < 400 ms
- D. < 50 ms

Answer: D

Explanation:

M-LAG (Multichassis Link Aggregation Group) is a key reliability technology in the Huawei Xinghe Intelligent Campus architecture. It provides device-level redundancy by virtualizing two switches into a single logical entity. One of the primary performance requirements for M-LAG in high-availability designs is ensuring millisecond-level failover. In the event of a single link failure (e.g., an uplink from an access switch to one of the M-LAG core switches), the traffic is rerouted through the peer-link or the remaining active member of the Eth-Trunk in less than 50 ms, ensuring "hitless" service for sensitive applications like voice or industrial control.

NEW QUESTION # 48

Which of the following cannot be monitored by the controller?

- A. Traffic statistics of different applications on links
- B. Link traffic statistics of sites
- C. Devices' original flow information collected using NetStream
- D. VPN topology information

Answer: C

Explanation:

The iMaster NCE-Campus controller monitors the network via protocols like SNMP, NETCONF, and Telemetry to provide visibility into application traffic (A), topology (B), and link stats (D). However, original

/raw NetStream flow information (C) is typically too voluminous for a management controller to process.

Instead, these raw packets are sent to a dedicated Analyzer (like iMaster NCE-CampusInsight) which performs deep data mining. The controller only receives summarized reports or metadata from the analyzer.

NEW QUESTION # 49

Which of the following information is contained in the DHCP snooping binding table?

- A. VLAN
- B. Interface
- C. IP address
- D. MAC address

Answer: A,B,C,D

Explanation:

DHCP Snooping is a key security feature in campus access layer design. When a client obtains an IP address, the switch populates a binding table that links the MAC address (B) and the assigned IP address (D) to the specific physical Interface (C) and the VLAN (A) ID. This table is then used by other security features like Dynamic ARP Inspection (DAI) and IP Source Guard (IPSG) to prevent spoofing attacks by verifying that incoming traffic matches the authorized entries in the binding table.

NEW QUESTION # 50

Which of the following authentication modes are used for user access on a campus network?

- A. OSPF authentication
- B. 802.1X authentication
- C. Portal authentication
- D. MAC address authentication

Answer: B,C,D

Explanation:

In Huawei's Xinghe Intelligent Campus solution, user access control is handled through three primary methods: 802.1X (B) for high-

security enterprise environments, Portal (A) for flexible guest and web-based access, and MAC address authentication (C) for IoT devices like printers and IP cameras that lack a user interface. OSPF authentication (D) is a routing security feature used to verify the identity of neighboring routers, not an end-user access authentication method.

NEW QUESTION # 51

.....

A second format is a H19-401_V2.0 web-based practice exam that can take for self-assessment. However, it differs from desktop-based H19-401_V2.0 practice exam software as it can be taken via any browser, including Chrome, Firefox, Safari, and Opera. This Huawei H19-401_V2.0 web-based practice exam does not require any other plugins. You can take this H19-401_V2.0 self-assessment test on Windows, iOS, Linux, Mac, and Android. It also includes all of the functionalities of desktop H19-401_V2.0 software and will assist you in passing the H19-401_V2.0 certification test.
