## PrepAwayPDF Apple DEP-2025 Practice Test

Apple DEP-2025 Practice Material is from our company which made these DEP-2025 practice materials with accountability. And DEP-2025 Training Materials are efficient products. What is more, Apple DEP-2025 Exam Prep is appropriate and respectable practice material.

### Apple Deployment and Management Exam Sample Questions (Q147-Q152):

#### NEW QUESTION # 147

Which role in Apple Business Manager can purchase apps and assign devices?

- A. Content Manager
- B. People Manager
- C. Device Enrollment Manager
- **D. Administrator**

**Answer: D**

Explanation:

In Apple Business Manager (ABM), the Administrator role has broad permissions, including purchasing apps and assigning devices to MDM servers. The Content Manager (option B) can manage and distribute content (e.g., apps, books) but cannot purchase apps or assign devices. The Device Enrollment Manager (option C) focuses on enrolling and assigning devices but lacks purchasing authority. The People Manager (option D) manages user accounts, not apps or devices. The Apple Business Manager User Guide outlines the Administrator's comprehensive responsibilities, making it the correct choice. Reference: Apple Business Manager User Guide (Section: Roles and Permissions).

#### NEW QUESTION # 148

Which MDM feature skips all Setup Assistant panes automatically on a Mac that's plugged into Ethernet?

- A. Quick Setup
- **B. Auto Advance**
- C. Fast Track
- D. Express Setup

**Answer: B**

Explanation:

Auto Advance skips Setup Assistant. The macOS Deployment Reference states, "Auto Advance automatically skips all Setup Assistant panes on a Mac connected to Ethernet, streamlining deployment." Options B, C, and D are not standard MDM features.

References:

macOS Deployment Reference, "Auto Advance" section.

Apple Platform Deployment Guide, "Setup Automation" section.

**NEW QUESTION # 149**

Your organization is migrating to a new MDM solution. iPhone and iPad devices were reassigned to the new MDM solution using Apple Business Manager. What must you do before you can enroll the devices in the new MDM solution using Automated Device Enrollment?

- A. Release the devices in Apple School Manager or Apple Business Manager.
- B. Revive the devices.
- C. Send a remote wipe command from Apple School Manager or Apple Business Manager.
- **D. Erase the devices.**

**Answer: D**

Explanation:

Apple explains that for a device to enroll into a new MDM server through Automated Device Enrollment (ADE), it must go through the Setup Assistant workflow again. This requires the device to be erased before it will attempt to re-enroll. Simply reassigning the device in Apple Business Manager does not trigger enrollment until the device is reset and Setup Assistant runs. Apple stresses that erase is necessary because ADE workflows are tied to the initial setup sequence. Remote wipe from ABM/ASM is not a feature, and Revive is a low-level restore process for Apple silicon, not for standard redeployment. Releasing devices removes them entirely from ABM. Therefore, erasing is the only required action before the device can enroll in the new MDM.

References: Apple Platform Deployment - "Reassign devices to a new MDM server with ADE."

**NEW QUESTION # 150**

What must be installed on a device so you can manage it with MDM?

- A. Apple Configurator
- **B. An enrollment profile**
- C. A provisioning profile
- D. A supervision identity

**Answer: B**

Explanation:

An enrollment profile establishes MDM control. The Mobile Device Management Protocol Reference states, "An enrollment profile must be installed on a device to establish a connection with the MDM solution, enabling management." Options A, B, and D are unrelated to basic MDM enrollment.

Reference:

Mobile Device Management Protocol Reference, "Enrollment" section.

Apple Platform Deployment Guide, "MDM Basics" section.

**NEW QUESTION # 151**

Which type of enrollment requires supervision?

- A. Device Enrollment
- B. User Enrollment
- **C. Automated Device Enrollment**

**Answer: C**

Explanation:

Automated Device Enrollment (ADE), used with Apple Business Manager or Apple School Manager, automatically supervises devices during setup, enabling advanced restrictions and management. Supervision is a default outcome of ADE for organization-owned devices. Device Enrollment (option B) can include supervision if paired with tools like Apple Configurator, but it's not inherent. User Enrollment (option C) is for BYOD and doesn't support supervision to protect user privacy. The Apple Platform Deployment Guidelines supervision to ADE.

Reference: Apple Platform Deployment Guide (Chapter: Automated Device Enrollment).

## NEW QUESTION # 152

.....

On PrepAwayPDF website, you can easily prepare DEP-2025 exam, also can avoid some common mistakes. Our IT elite team take advantage of their professional knowledge and experience, and probe into the IT industry development status by trial and error, finally summarizes PrepAwayPDF's Apple DEP-2025 Exam Training materials. It is very accurate, authoritative. PrepAwayPDF's Apple DEP-2025 exam dumps will be your best choice.
