Our FCP_FAZ_AD-7.4 exam questions can assure you that you will pass the FCP_FAZ_AD-7.4 exam as well as getting the related certification under the guidance of our FCP_FAZ_AD-7.4 study materials as easy as pie. Firstly, the pass rate among our customers has reached as high as 98% to 100%, which marks the highest pass rate in the field. Secondly, you can get our FCP_FAZ_AD-7.4 Practice Test only in 5 to 10 minutes after payment, which enables you to devote yourself to study as soon as possible.

Fortinet FCP_FAZ_AD-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	• Device Management: Here, Fortinet network and security analysts are evaluated on their ability to handle devices linked to FortiAnalyzer. This includes adding new devices, managing them efficiently, and troubleshooting communication issues.
Topic 2	• Administration: This section evaluates the ability of network and security analysts to configure administrative access and manage Administrative Domains (ADOMs). It covers tasks such as setting user permissions, managing backups, and disk quotas, and ensuring secure and efficient management of administrative privileges within FortiAnalyzer systems.

Topic 3	• System Configuration: This section assesses the capabilities of network and security analysts in managing FortiAnalyzer systems. It includes tasks like performing initial configurations, setting up high-availability systems, and configuring RAID for storage.
Topic 4	• Logs and Reports Management: This part of the exam measures the candidate's ability to handle log data and generate reports using FortiAnalyzer. Network and security analysts must show proficiency in managing, analyzing, and reviewing logs to ensure effective system monitoring and auditing processes are in place.

Our website of the FCP_FAZ_AD-7.4 study guide only supports credit card payment, but do not support card debit card, etc. Pay attention here that if the money amount of buying our FCP_FAZ_AD-7.4 study materials is not consistent with what you saw before, you need to see whether you purchased extra copies of the product or were taxed. As our FCP_FAZ_AD-7.4 Guide materials are sold all around the world, you can find that the content and language is easy to understand.

Fortinet FCP - FortiAnalyzer 7.4 Administrator Sample Questions (Q110-Q115):

NEW QUESTION # 110

What are two benefits of using fabric connectors? (Choose two.)

- A. They allow FortiAnalyzer to send logs in real-time to public cloud accounts.
- B. You do not need an additional license to send logs to the cloud platform.
- C. Fabric connectors allow you to improve redundancy.
- D. Using fabric connectors is more efficient than using third-party polling with API.

Answer: A,C

NEW QUESTION # 111

Which two statements about deleting ADOMs are true? (Choose two.)

- A. Logs must be purged or migrated before you can delete an ADOM.
- B. Default ADOMs cannot be deleted.
- C. ADOMs with registered devices cannot be deleted.
- D. The status of the ADOMs must be unlocked.

Answer: C

Explanation:

DOMs with registered devices cannot be deleted.

An ADOM cannot be deleted if it has registered devices. You must first remove or deregister the devices before deleting the ADOM.

The status of the ADOMs must be unlocked.

An ADOM must be in an unlocked state before it can be deleted. If the ADOM is locked, it will not allow deletion.

NEW QUESTION # 112

An administrator has configured the following settings:

What is the purpose of executing these commands?

- A. To verify the integrity of the log files received.
- B. To encrypt log transfer between FortiAnalyzer and other devices.
- C. To record the hash value and authentication code of log files.
- D. To create the secure channel used by the OFTP process.

Answer: A

Explanation:

The purpose of executing the provided CLI commands, which include setting the log-checksum to md5- auth, is to ensure the integrity of the log files. This setting is used to record the MD5 hash value of log files, which is a widely used cryptographic hash function that produces a 128-bit (16-byte) hash value. By using MD5 authentication, FortiAnalyzer ensures that the log files have not been altered or tampered with during transit, thereby verifying their integrity upon receipt. This is not related to encrypting log transfers, scheduling reports, or creating secure channels for OFTP (Over-the-FortiGate Protocol) processes.

NEW QUESTION # 113

What does the disk status Degraded mean for RAID management?

- A. The device is writing data to the disk to restore the volume to an optimal state.
- B. One or more drives are missing from the FortiAnalyzer unit.
- C. FortiAnalyzer determined that the parity data in the disk is not valid.
- D. The hard drive is no longer being used by the RAID controller.

Answer: B

Explanation:

When the RAID status is Degraded, it typically indicates that one or more drives in the RAID array have failed or are missing, causing the RAID array to operate with reduced redundancy. In this state, the array is still functioning, but it's at risk because the fault tolerance provided by RAID is compromised.

NEW QUESTION # 114

View the exhibit:

The screenshot shows the FortiAnalyzer Data Policy configuration interface. It includes the following settings:

- Data Policy:**
 - Keep Logs for Analytics: 60 Days
 - Keep Logs for Archive: 365 Days
- Disk Utilization:**
 - Maximum Allowed: 1000 MB
- Analytics: Archive:** 70%
- Alert and Delete When Usage Reaches:** 90%
- Out of Available:** 62.8 GB
- Modify:** (checkbox)

What does the 1000MB maximum for disk utilization refer to?

- A. The disk quota for all devices in the ADOM
- B. The disk quota for each device in the ADOM
- C. The disk quota for the FortiAnalyzer model
- D. The disk quota for the ADOM type

Answer: A

Explanation:

<https://docs.fortinet.com/document/fortianalyzer/6.2.0/administration-guide/743670/configuring-log-storage-policy>

NEW QUESTION # 115

.....

Preparing for the exam may be not an easy thing for some candidates, if you choose us, we will do the things for you, what you need to do is practicing. We offer you free demo for FCP_FAZ_AD-7.4 training materials, you can have a try before buying. And you will receive the downloading link and password within ten minutes after purchasing the FCP_FAZ_AD-7.4 Exam Dumps. In addition, we have after-service stuff to resolve the confusions you have. If you fail to pass the exam, we are money back guaranteed, or if you have other exam to attend, we can also replace other 2 valid exam dumps for you.
