

# FCP\_FGT\_AD-7.4 Latest Exam Papers - Latest Fortinet FCP - FortiGate 7.4 Administrator - FCP\_FGT\_AD-7.4 Reliable Exam Materials

2025 Latest PDFTorrent FCP\_FGT\_AD-7.4 PDF Dumps and FCP\_FGT\_AD-7.4 Exam Engine Free Share:  
[https://drive.google.com/open?id=1D9\\_ly9u6FXheAymEBejhI-Iquh2UkcP](https://drive.google.com/open?id=1D9_ly9u6FXheAymEBejhI-Iquh2UkcP)

The web-based FCP\_FGT\_AD-7.4 practice exam can be taken via the internet from any browser like Firefox, Safari, Opera, MS Edge, Internet Explorer, and Chrome. You don't need to install any excessive plugins and software to take this Fortinet FCP\_FGT\_AD-7.4 Practice Test. Windows, Mac, iOS, Android, and Linux support this FCP - FortiGate 7.4 Administrator (FCP\_FGT\_AD-7.4) practice exam.

## Fortinet FCP\_FGT\_AD-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>VPN: In this section, the focus is on how to configure SSL VPNs for secure network access and implement meshed or redundant IPsec VPNs.</li></ul>

Topic 2	<ul style="list-style-type: none"> <li>• Deployment and System Configuration: This section covers how to set up initial configurations, implement Fortinet Security Fabric, and configure an FGCP HA cluster; diagnose resources and connectivity.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• Content Inspection: This section covers how to inspect encrypted traffic, configure inspection modes, apply web filtering, manage applications, set antivirus modes, and implement IPS for security.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• Firewall Policies and Authentication: This topic covers how to set firewall policies, configure SNAT</li> <li>• DNAT, implement authentication methods, and deploy FSSO.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• Routing: This section covers how to set up packet routing with static routes and configure SD-WAN for efficient traffic load balancing.</li> </ul>

## Pass-Sure FCP\_FGT\_AD-7.4 Latest Exam Papers | 100% Free FCP\_FGT\_AD-7.4 Reliable Exam Materials

When you select to use PDFTorrent's products, you have set the first foot on the peak of the IT industry and the way to your dream is one step closer. The practice questions of PDFTorrent can not only help you pass Fortinet Certification FCP\_FGT\_AD-7.4 Exam and consolidate your professional knowledge, but also provide you one year free update service.

### Fortinet FCP - FortiGate 7.4 Administrator Sample Questions (Q65-Q70):

#### NEW QUESTION # 65

What are three key routing principles in SD-WAN? (Choose three.)

- A. Regular policy routes have precedence over SD-WAN rules
- B. By default, SD-WAN rules are skipped if the best route to the destination is not an SD-WAN member
- C. By default, SD-WAN rules are skipped if only one route to the destination is available
- D. SD-WAN rules have precedence over any other type of routes
- E. By default, SD-WAN members are skipped if they do not have a valid route to the destination

**Answer: B,D,E**

Explanation:

By default, SD-WAN members are skipped if they do not have a valid route to the destination SD-WAN ensures that only members with valid routes to the destination are considered during routing decisions.

By default, SD-WAN rules are skipped if the best route to the destination is not an SD-WAN member If the best route is not an SD-WAN member, SD-WAN rules are bypassed and standard routing takes over.

SD-WAN rules have precedence over any other type of routes

SD-WAN rules are evaluated first, meaning they take precedence over other routing mechanisms, such as static routes or policy-based routes.

#### NEW QUESTION # 66

Refer to the exhibit.

## Edit IPS Sensor

Name

WINDOWS\_SERVERS

[\[View IPS Signature\]](#)

Comments

0/255

Block malicious URLs

### IPS Signatures

<div><div><div><div></div><div></div></div><div>+ Add Signatures</div></div><div><div><div></div><div></div></div><div>Delete</div></div><div><div><div></div><div></div></div><div>Edit IP Exemptions</div></div></div>							
Name	Exempt IPs	Severity	Target	Service	OS	Action	Packet Logging
NTP.Spoofed.KoD.DoS	0	<div><div></div><div></div><div></div><div></div></div>	Server, Client	UDP	Linux	<div><div></div><div>Monitor</div></div>	<div><div></div></div>

### IPS Filters

<a href="#">+ Add Filter</a>	<a href="#">Edit Filter</a>	<a href="#">Delete</a>			
Filter Details		Action	Packet Logging		
Location: server	OS: Windows	Block			

The exhibit shows the IPS sensor configuration.

If traffic matches this IPS sensor, which two actions is the sensor expected to take? (Choose two.)

- A. The sensor will allow attackers matching the NTP.Spoofed.KoD.DoS signature.
- B. The sensor will gather a packet log for all matched traffic.
- C. The sensor will block all attacks aimed at Windows servers.
- D. The sensor will reset all connections that match these signatures.

**Answer: A,C**

Explanation:

The correct answers are:

A. The sensor will allow attackers matching the NTP.Spoofed.KoD.DoS signature.

B. The sensor will block all attacks aimed at Windows servers.

For option A, the sensor is configured to "Deny Attacker Inline" for the NTP.Spoofed.KoD.DoS signature, which means it will block traffic matching this signature.

For option B, the sensor is configured to "Deny Attacker Inline" for the Windows Servers category, which means it will block all attacks aimed at Windows servers.

### NEW QUESTION # 67

Examine the exhibit, which shows a firewall policy configured with multiple security profiles.

Action: ☒ ACCEPT ☐ DENY

Inspection Mode: ☐ Flow-based ☒ Proxy-based

Firewall/Network Options

NAT: ☒

IP Pool Configuration: ☒ Use Outgoing Interface Address ☐ Use Dynamic IP Pool

Preserve Source Port: ☐

Protocol Options: ☒ PROT default

Security Profiles

AntiVirus	<input checked="" type="checkbox"/>	AV	default	
Web Filter	<input checked="" type="checkbox"/>	WLB	default	
Video Filter	<input checked="" type="checkbox"/>	VF	training	
DNS Filter	<input checked="" type="checkbox"/>	DNS	default	
Application Control	<input checked="" type="checkbox"/>	APP	default	
IPS	<input checked="" type="checkbox"/>	IPS	default	
File Filter	<input checked="" type="checkbox"/>	FF	default	
SSL Inspection	<input checked="" type="checkbox"/>	SSL	certificate-inspection	

Which two security profiles are handled by the IPS engine? (Choose two.)

- A. IPS
- B. Application Control
- C. AntiVirus
- D. Web Filter

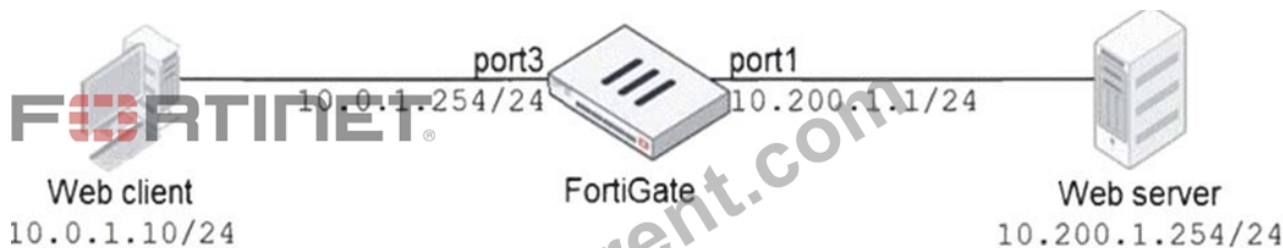

**Answer: A,B**

Explanation:

When the FortiGate is set for proxy inspection mode, the IPS engine will handle the Application Control and IPS security profiles. The security profiles that will be handled by the IPS engine when the FortiGate is set for proxy inspection mode are Application Control and IPS. In this mode, the FortiGate acts as an intermediary between the client and the server, intercepting and inspecting traffic to enforce security policies. The IPS engine is responsible for analyzing network traffic and identifying any malicious or suspicious activity based on predefined rules and signatures.

#### NEW QUESTION # 68

Refer to the exhibit.

```
FortiGate # diagnose sniffer packet any "port 80" 4
interfaces=[any]
filters=[port=80]
11.510058 port3 in 10.0.1.10.49255 -> 10.200.1.254.80: syn 697263124
11.760531 port3 in 10.0.1.10.49256 -> 10.200.1.254.80: syn 868017830
14.505371 port3 in 10.0.1.10.49255 -> 10.200.1.254.80: syn 697263124
14.755510 port3 in 10.0.1.10.49256 -> 10.200.1.254.80: syn 868017830
```

In the network shown in the exhibit, the web client cannot connect to the HTTP web server. The administrator runs the FortiGate built-in sniffer and gets the output shown in the exhibit.

What should the administrator do next, to troubleshoot the problem?

- A. Capture the traffic using an external sniffer connected to port1.
- B. Execute another sniffer on FortiGate, this time with the filter "host 10.0.1.10".
- C. Run a sniffer on the web server.
- **D. Execute a debug flow.**

**Answer: D**

#### NEW QUESTION # 69

A network administrator has configured an SSL/SSH inspection profile defined for full SSL inspection and set with a private CA certificate. The firewall policy that allows the traffic uses this profile for SSL inspection and performs web filtering. When visiting any HTTPS websites, the browser reports certificate warning errors.

What is the reason for the certificate warning errors?

- **A. The browser does not recognize the certificate in use as signed by a trusted CA.**
- B. The SSL cipher compliance option is not enabled on the SSL inspection profile. This setting is required when the SSL inspection profile is defined with a private CA certificate.
- C. The certificate used by FortiGate for SSL inspection does not contain the required certificate extensions.
- D. With full SSL inspection it is not possible to avoid certificate warning errors at the browser level.

**Answer: A**

Explanation:

The certificate warning errors occur because the SSL inspection profile is configured to use a private CA certificate that is not recognized by the browser as being signed by a trusted CA. For the browser to trust the FortiGate's re-signed certificates, the CA certificate used by FortiGate for SSL inspection must be installed in the browser's trusted certificate store. Until the browser recognizes the certificate authority (CA) as trusted, it will continue to display warning errors when accessing HTTPS websites.

#### NEW QUESTION # 70

.....

The customer is God. FCP\_FGT\_AD-7.4 learning dumps provide all customers with high quality after-sales service. After your payment is successful, we will dispatch a dedicated IT staff to provide online remote assistance for you to solve problems in the process of download and installation. During your studies, FCP\_FGT\_AD-7.4 study tool will provide you with efficient 24-hour online services. You can email us anytime, anywhere to ask any questions you have about our FCP\_FGT\_AD-7.4 Study Tool. At the same time, FCP\_FGT\_AD-7.4 test question will also generate a report based on your practice performance to make you aware of the deficiencies in your learning process and help you develop a follow-up study plan so that you can use the limited energy where you need it most. So with FCP\_FGT\_AD-7.4 study tool you can easily pass the exam.
