BTW, DOWNLOAD part of SureTorrent FCP\_FGT\_AD-7.6 dumps from Cloud Storage: <https://drive.google.com/open?id=1DiZs0TAGzBHz-LALAHxUzvFQe5USqgLa>

These are Fortinet FCP\_FGT\_AD-7.6 desktop software and web-based. As the name suggests, desktop Fortinet FCP\_FGT\_AD-7.6 practice exam software works offline on Windows computers and you need an active internet connection to operate the Fortinet FCP\_FGT\_AD-7.6 web-based practice test. Both FCP\_FGT\_AD-7.6 practice exams mimic the Fortinet FCP\_FGT\_AD-7.6 actual test, identify your mistakes, offer customizable FCP\_FGT\_AD-7.6 mock tests, and help you overcome mistakes.

## Fortinet FCP\_FGT\_AD-7.6 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Firewall policies and authentication: This section of the exam measures the skills of firewall administrators and covers the implementation and management of security policies. It involves configuring basic and advanced firewall rules, applying Source NAT (SNAT) and Destination NAT (DNAT) options, and enforcing various firewall authentication methods. The section also includes deploying and configuring Fortinet Single Sign-On (FSSO) to streamline user access across the network.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• Deployment and system configuration: This section of the exam measures the skills of network security engineers and covers essential tasks for setting up a FortiGate device in a production environment. Candidates are expected to perform the initial configuration, establish basic connectivity, and integrate the device within the Fortinet Security Fabric. They must also be able to configure a FortiGate Cluster Protocol (FGCP) high availability setup and troubleshoot resource and connectivity issues to ensure system readiness and network uptime.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• Routing: This section of the exam measures the skills of firewall administrators and covers the configuration of routing features on FortiGate devices. It includes defining and applying static routes for directing traffic within and outside the network, as well as setting up Software-Defined WAN (SD-WAN) to distribute and balance traffic loads across multiple WAN connections efficiently.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>• VPN: This section of the exam measures the skills of network security engineers and covers the configuration and deployment of Virtual Private Network (VPN) solutions. Candidates are required to implement SSL VPNs to grant secure remote access to internal resources and configure IPsec VPNs in either meshed or partially redundant topologies to ensure encrypted communication between distributed network locations.</li></ul>

Topic 5	<ul style="list-style-type: none"> <li>• Content inspection: This section of the exam measures the skills of network security engineers and covers the setup and management of content inspection features on FortiGate. Candidates must demonstrate an understanding of encrypted traffic inspection using digital certificates, identify and apply FortiGate inspection modes, and configure web filtering policies. The ability to implement application control for monitoring and regulating network application usage, configure antivirus profiles to detect and block malware, and set up Intrusion Prevention Systems (IPS) to shield the network from threats and vulnerabilities is also assessed.</li> </ul>

## 100% Pass 2025 Fortinet FCP\_FGT\_AD-7.6: FCP - FortiGate 7.6 Administrator –High Hit-Rate Exam Duration

Only 20-30 hours are needed for you to learn and prepare our FCP\_FGT\_AD-7.6 test questions for the exam and you will save your time and energy. No matter you are the students or the in-service staff you are busy in your school learning, your jobs or other important things and can't spare much time to learn. But you buy our FCP\_FGT\_AD-7.6 exam materials you will save your time and energy and focus your attention mainly on your most important thing. You only need several hours to learn and prepare for the exam every day. We choose the most typical questions and answers which seize the focus and important information and the questions and answers are based on the real exam. So you can master the most important FCP\_FGT\_AD-7.6 Exam Torrent in the shortest time and finally pass the exam successfully.

### Fortinet FCP - FortiGate 7.6 Administrator Sample Questions (Q48-Q53):

#### NEW QUESTION # 48

When configuring a FortiGate in a multi-WAN setup, why would an administrator enable session preservation on an interface?

- A. To allow the FortiGate to dynamically change interfaces for all active sessions when a WAN link fails
- B. To make sure all sessions without source NAT enabled always use the primary WAN link
- C. To improve security by forcing users to authenticate again when the WAN link changes
- D. To ensure that existing SSL VPN connections remain on the same interface even if route changes occur

**Answer: D**

Explanation:

Session preservation keeps active sessions, such as SSL VPNs, tied to the original interface to prevent disruption when WAN routes change.

#### NEW QUESTION # 49

You are analyzing connectivity problems caused by intermediate devices blocking traffic in SSL VPN environment. In which two ways can you effectively resolve the problem? (Choose two.)

- A. You can turn off IKE fragmentation to fix large certificate negotiation problems.
- B. You should use IPsec to solve issues with fragment drops and large certificate exchanges.
- C. You can use SSL VPN tunnel mode to prevent problems with blocked ESP and UDP ports (500 or 4500).
- D. You can configure a hub-and-spoke topology with SSL VPN tunnels to bypass blocked UDP ports.

**Answer: A,C**

Explanation:

Disabling IKE fragmentation helps resolve issues caused by intermediate devices blocking large fragmented packets during certificate negotiation.

Using SSL VPN tunnel mode encapsulates traffic over HTTPS, bypassing blocks on ESP and UDP ports commonly used by IPsec.

#### NEW QUESTION # 50

An administrator wanted to configure an IPS sensor to block traffic that triggers a signature set number of times during a specific time period.

How can the administrator achieve the objective?

- A. Use IPS packet logging option with periodical filter option.
- **B. Use IPS filter, rate-mode periodical option.**
- C. Use IPS filter, rate-mode periodical option.
- D. Use IPS group signatures, set rate-mode 60.

**Answer: B**

Explanation:

The IPS filter with the rate-mode set to "periodical" allows the administrator to block traffic that triggers a signature a specified number of times within a defined time period, meeting the requirement.

## NEW QUESTION # 51

Application sensor

Refer to the exhibits.

You have implemented the application sensor and the corresponding firewall policy as shown in the exhibits.

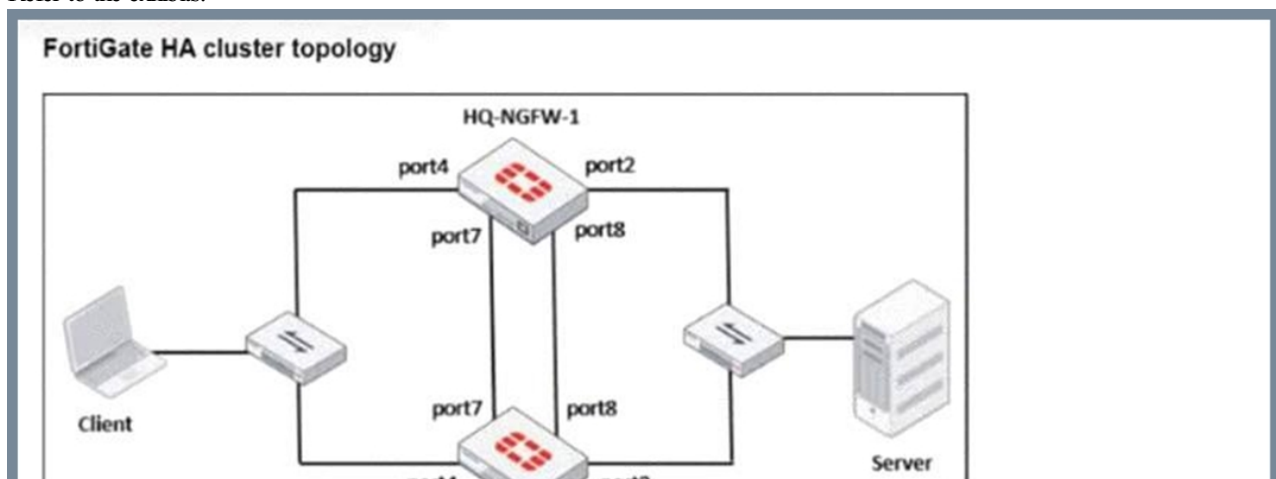

Which two factors can you observe from these configurations? (Choose two.)

- **A. YouTube access is blocked based on Excessive-Bandwidth Application and Filter override settings.**
- B. YouTube search is allowed based on the Google Application and Filter override settings.
- **C. Facebook access is blocked based on the category filter settings.**
- D. Facebook access is allowed but you cannot play Facebook videos based on Video/Audio category filter settings.

**Answer: A,C**

## NEW QUESTION # 52

Refer to the exhibits.

### Current HA status

```
HQ-NGFW-1 # get system ha status
...
Configuration Status:
FGVM02TM24013423(updated 0 seconds ago): in-sync
FGVM02TM24013423 chksum dump: e1 60 2e 42 b8 c1 c6 df 11 34 0c 21 80 79 a4 9f
FGVM02TM24013501(updated 4 seconds ago): in-sync
FGVM02TM24013501 chksum dump: e1 60 2e 42 b8 c1 c6 df 11 34 0c 21 80 79 a4 9f
...
number of member: 2
HQ-NGFW-1      , FGVM02TM24013423, HA cluster index = 1
HQ-NGFW-2      , FGVM02TM24013501, HA cluster index = 0
number of vcluster: 1
vcluster 1: work 169.254.0.2
Primary: FGVM02TM24013423, HA operating index = 0
Secondary: FGVM02TM24013501, HA operating index = 1
```

### New FortiGate HA configuration

```
HQ-NGFW-1
# config system ha
  set group-id 5
  set group-name "Fortinet"
  set mode a-p
  set password *
  set hbdev "port7" 50 "port8" 60
  set session-pick enable
  set override disable
  set priority 50
  set monitor "port3"

HQ-NGFW-2
# config system ha
  set group-id 5
  set group-name "Fortinet"
  set mode a-p
  set password *
  set hbdev "port7" 50 "port8" 60
  set session-pick enable
  set override enable
  set priority 110
  set monitor "port3"
```

Based on the current HA status, an administrator updates the override and priority parameters on HQ-NGFW-1 and HQ-NGFW-2 as shown in the exhibit.

What would be the expected outcome in the HA cluster?

- A. HQ-NGFW-1 will synchronize the override disable setting with HQ-NGFW-2.
- B. HQ-NGFW-2 will take over as the primary because it has the override enable setting and higher priority than HQ-NGFW-1.
- C. HQ-NGFW-1 will remain the primary because HQ-NGFW-2 has lower priority.
- D. The HA cluster will become out of sync because the override setting must match on all HA members.

**Answer: B**

Explanation:

With override enabled on HQ-NGFW-2 and its higher priority (110 vs. 90), HQ-NGFW-2 will become the primary device, preempting HQ-NGFW-1 despite the current primary status.

## NEW QUESTION # 53

.....

Our valid FCP\_FGT\_AD-7.6 practice questions are created according to the requirement of the certification center based on the real questions. Our team always checked and revised FCP\_FGT\_AD-7.6 dumps pdf to ensure the accuracy of our preparation study materials. We guarantee that our FCP\_FGT\_AD-7.6 Exam Prep is cost-efficient and affordable for most candidates who want to get certification quickly in their first try.
