You can alter the duration and quantity of Fortinet FCP_FGT_AD-7.6 questions in these Fortinet FCP_FGT_AD-7.6 practice exams as per your training needs. For offline practice, our FCP_FGT_AD-7.6 desktop practice test software is ideal. This FCP_FGT_AD-7.6 software runs on Windows computers. The FCP_FGT_AD-7.6 web-based practice exam is compatible with all browsers and operating systems.

Fortinet FCP_FGT_AD-7.6 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Routing: This section of the exam measures the skills of firewall administrators and covers the configuration of routing features on FortiGate devices. It includes defining and applying static routes for directing traffic within and outside the network, as well as setting up Software-Defined WAN (SD-WAN) to distribute and balance traffic loads across multiple WAN connections efficiently.
Topic 2	<ul style="list-style-type: none">• Content inspection: This section of the exam measures the skills of network security engineers and covers the setup and management of content inspection features on FortiGate. Candidates must demonstrate an understanding of encrypted traffic inspection using digital certificates, identify and apply FortiGate inspection modes, and configure web filtering policies. The ability to implement application control for monitoring and regulating network application usage, configure antivirus profiles to detect and block malware, and set up Intrusion Prevention Systems (IPS) to shield the network from threats and vulnerabilities is also assessed.
Topic 3	<ul style="list-style-type: none">• Deployment and system configuration: This section of the exam measures the skills of network security engineers and covers essential tasks for setting up a FortiGate device in a production environment. Candidates are expected to perform the initial configuration, establish basic connectivity, and integrate the device within the Fortinet Security Fabric. They must also be able to configure a FortiGate Cluster Protocol (FGCP) high availability setup and troubleshoot resource and connectivity issues to ensure system readiness and network uptime.
Topic 4	<ul style="list-style-type: none">• VPN: This section of the exam measures the skills of network security engineers and covers the configuration and deployment of Virtual Private Network (VPN) solutions. Candidates are required to implement SSL VPNs to grant secure remote access to internal resources and configure IPsec VPNs in either meshed or partially redundant topologies to ensure encrypted communication between distributed network locations.

Topic 5	<ul style="list-style-type: none"> • Firewall policies and authentication: This section of the exam measures the skills of firewall administrators and covers the implementation and management of security policies. It involves configuring basic and advanced firewall rules, applying Source NAT (SNAT) and Destination NAT (DNAT) options, and enforcing various firewall authentication methods. The section also includes deploying and configuring Fortinet Single Sign-On (FSSO) to streamline user access across the network.

New FCP_FGT_AD-7.6 Test Question & Valid FCP_FGT_AD-7.6 Exam Tips

Itcertmaster Fortinet FCP_FGT_AD-7.6 Training Kit is designed and ready by Itcertmaster IT experts. Its design is closely linked to today's rapidly changing IT market. Itcertmaster training to help you take advantage of the continuous development of technology to improve the ability to solve problems, and improve your job satisfaction. The coverage Itcertmaster Fortinet FCP_FGT_AD-7.6 Questions can reach 100%, as long as you use our questions and answers, we guarantee you pass the exam the first time!

Fortinet FCP - FortiGate 7.6 Administrator Sample Questions (Q46-Q51):

NEW QUESTION # 46

A network administrator is reviewing firewall policies in both Interface Pair View and By Sequence View. The policies appear in a different order in each view.

Why is the policy order different in these two views?

- A. The firewall dynamically reorders policies in Interface Pair View based on recent traffic patterns, but By Sequence View remains static.
- B. By Sequence View groups policies based on rule priority, while Interface Pair View always follows the order of traffic logs.
- **C. Interface Pair View sorts policies based on matching interfaces, while By Sequence View shows the actual processing order of rules.**
- D. Policies in Interface Pair View are prioritized by security levels, while By Sequence View strictly follows the administrator's manual ordering.

Answer: C

Explanation:

Interface Pair View organizes policies grouped by source and destination interfaces, whereas By Sequence View displays policies in the exact order they are processed by the firewall.

NEW QUESTION # 47

You have created a web filter profile named restrict_media-profile with a daily category usage quota.

When you are adding the profile to the firewall policy, the restrict_media-profile is not listed in the available web profile drop down. What could be the reason?

- A. The web filter profile is already referenced in another firewall policy.
- B. The firewall policy is in no-inspection mode instead of deep-inspection.
- C. The naming convention used in the web filter profile is restricting it in the firewall policy.
- **D. The inspection mode in the firewall policy is not matching with web filter profile feature set.**

Answer: D

Explanation:

Web filter profiles with category usage quotas require the firewall policy to be in proxy-based (deep) inspection mode; if the inspection mode does not match this requirement, the profile will not appear in the drop-down list.

NEW QUESTION # 48

Refer to the exhibit, which shows a partial configuration from the remote authentication server.

Attribute	Value	Vendor	Actions
Fortinet-Group-Name	Training	Fortinet	 

Why does the FortiGate administrator need this configuration?

- A. To authenticate and match the Training OU on the RADIUS server.
- B. To set up a RADIUS server Secret.
- **C. To authenticate only the Training user group.**
- D. To authenticate Any FortiGate user groups.

Answer: C

Explanation:

The Fortinet-Group-Name attribute is used to restrict authentication to users who belong specifically to the "Training" user group on the RADIUS server.

NEW QUESTION # 49

You have configured the below commands on a FortiGate.

```
config system settings
set strict-src-check enable
end
```

```
Config system interface
edit port1
set src-check disable
next
end
```

What would be the impact of this configuration on FortiGate?

- A. Port1 will be enabled with flexible RPF, and all other interfaces will be enabled for strict RPF
- B. FortiGate will enable strict RPF on all its interfaces and port1 will be enable for asymmetric routing.
- **C. FortiGate will enable strict RPF on all its interfaces and port1 will be exempted from RPF checks.**
- D. The global configuration will take precedence and FortiGate will enable strict RPF on all interfaces.

Answer: C

Explanation:

The global setting enables strict source checking (RPF) on all interfaces by default. The per-interface setting disables the source check on port1, exempting it from strict RPF enforcement.

NEW QUESTION # 50

What are three key routing principles in SD-WAN? (Choose three.)

- **A. SD-WAN rules have precedence over any other type of routes.**
- B. Regular policy routes have precedence over SD-WAN rules.
- C. By default, SD-WAN rules are skipped if only one route to the destination is available.
- **D. By default, SD-WAN rules are skipped if the included SD-WAN members do not have a valid route to the destination.**
- **E. By default, SD-WAN rules are skipped if the best route to the destination is not an SD-WAN member.**

Answer: A,D,E

Explanation:

SD-WAN rules are skipped if none of the SD-WAN members have a valid route to the destination.

SD-WAN rules take precedence over other route types.

SD-WAN rules are skipped if the best route to the destination is not an SD-WAN member by default.

NEW QUESTION # 51

.....

A FCP - FortiGate 7.6 Administrator (FCP_FGT_AD-7.6) practice questions is a helpful, proven strategy to crack the FCP - FortiGate 7.6 Administrator (FCP_FGT_AD-7.6) exam successfully. It helps candidates to know their weaknesses and overall performance. Itcertmaster software has hundreds of FCP - FortiGate 7.6 Administrator (FCP_FGT_AD-7.6) exam dumps that are useful to practice in real-time. The FCP - FortiGate 7.6 Administrator (FCP_FGT_AD-7.6) practice questions have a close resemblance with the actual FCP - FortiGate 7.6 Administrator (FCP_FGT_AD-7.6) exam.
