FCP_FMG_AD-7.6 Exam Paper Pdf, FCP_FMG_AD-7.6 Study Guides

For candidates who are going to buy FCP_FMG_AD-7.6 exam dumps online, the safety for the website is quite important. If you choose us, we will provide you with a clean and safe online shopping environment. We have professional technicians to check the website at times, therefore the website safety can be guaranteed. In addition, FCP_FMG_AD-7.6 Exam Materials of us contain both questions and answers, and you can have a quickly check after practicing. We have online and offline chat service for FCP_FMG_AD-7.6 training materials. If you have any questions, you can contact with us, and we will give you reply as soon as possible.

Fortinet FCP - FortiManager 7.6 Administrator Sample Questions (Q26-Q31):

NEW QUESTION # 26

Refer to the exhibits. FortiGate HQ-NGFW-1 downloads and validates FortiGuard databases from FortiManager which acts as a local FortiGuard Distribution Server (FDS) in a closed network. An administrator pushes a new firewall policy with an intrusion prevention system (IPS) profile from FortiManager to FortiGate HQ- NGFW-1 However, FortiGate does not recognize the new IPS signature from FortiManager.

FortiGate GUI—FortiGuard

FortiGate CLI—Central management

```
HQ-NGFW-1 (central-management) # sh
config system central-management
    set type fortimanager
    set allow-push-firmware disable
    set allow-remote-firmware-upgrade disable
    set serial-number "FMG-VMTM24012945"
    set fmg "::ffff:10.0.13.120"
    config server-list
        edit 1
            set server-type update
            set server-address 192.168.1.120
        next
    end
    set include-default-servers disable
end
```

What is the most likely reason why FortiGate HQ-NGFW-1 does not recognize the new IPS signature?

- A. The administrator must enable IPv6 connections for FortiGuard services on FortiManager.
- B. The administrator must enable the fortiguard-anycast option to correctly download all signatures from the local FDS.
- C. FortiManager and FortiGate have different IPS database versions.
- D. FortiGate must enable rating for the FortiManager IP address, 192.168.1.120, in server list 1.

Answer: C

Explanation:

The most likely reason FortiGate HQ-NGFW-1 does not recognize the new IPS signature is that FortiManager and FortiGate have different IPS database versions. The FortiManager may have pushed a signature update that FortiGate has not yet synchronized or validated locally, causing the signature to be unrecognized.

NEW QUESTION # 27

Company policy dictates that any time a change is made to a policy package on FortiManager an ADOM revision is created before the change installed, and that revision is held for a minimum of 90 days.

Over the past three months, each installed change has resulted in several unused policies and duplicate objects.

The FortiManager administrator plans to upgrade the FortiGate devices and then upgrade the FortiManager ADOM from version 7.4 to 7.6.

Which action can the administrator take to avoid slow ADOM upgrades?

- A. Find unused firmware templates, then delete them before upgrading.
- B. Export firewall policies to Excel, delete them on the ADOM, then reimport them after upgrading the ADOM.
- C. Check and repair the global configuration database before upgrading.
- D. Limit ADOM revisions before upgrading.

Answer: D

Explanation:

Limiting ADOM revisions reduces the number of stored historical configurations, which helps avoid performance degradation and slow ADOM upgrades caused by a large volume of revisions.

NEW QUESTION # 28

An administrator has assigned a global policy package to a new ADOM named ADOM1.

What will happen if the administrator tries to create a new policy package in ADOM1?

- A. The administrator will be able to select the option to assign the global policy package to the new policy package.

- B. FortiManager will automatically assign the global policy package to the new policy package.
- C. The administrator will have to assign the global policy package from the global ADOM.
- D. FortiManager will automatically install policies on the policy package in ADOM1.

Answer: A

Explanation:

When a global policy package is assigned to an ADOM, administrators creating new policy packages within that ADOM have the option to select and assign the global policy package to the new policy package if desired.

NEW QUESTION # 29

Refer to the exhibit. What are two results from the configuration shown in the exhibit? (Choose two.)

```
FortiManager # config system global
(global)# set workspace-mode normal
(global)# end
FortiManager #
```

- A. The administrator must have access to the ADOM to approve changes.
- B. The administrator can lock policy blocks and FortiManager global ADOM.
- C. Ungraceful closed sessions will keep the ADOM in a locked state until the administrator session times out.
- D. The same administrator can lock more than one ADOM at the same time.

Answer: B,C

Explanation:

In normal workspace mode, ungraceful session closures will keep the ADOM locked until the session times out, preventing other administrators from editing. Normal workspace mode allows administrators to lock policy blocks and the global ADOM, providing granular locking control.

NEW QUESTION # 30

Refer to the exhibit. Which two statements about the output are true? (Choose two.)

```
FortiManager # diagnose dvm device list
--- There are currently 6 devices/vdoms managed ---
--- There are currently 6 devices/vdoms count for license ---

TYPE      OID      SN              HA      IP      NAME      ADOM      IPS      FIRMWARE      Hw_GenX
fmgfaz-managed 188      FGV082TM24013504 -      100.65.1.111 BR1-FGT-1  My_ADOM  7.0 MR6 (3401) N/A
|- STATUS: dev db: not modified; conf: in sync; cond: pending; dm: installed; conn: up; template:[modified]default
|- vdom:[3]root flags:0 adom:My_ADOM pkg:[imported]BR1-FGT-1
```

- A. The latest revision history for the managed FortiGate does not match the device-level database.
- B. The latest revision history for the managed FortiGate does match the FortiManager policy database.
- C. Configuration changes have been installed on FortiGate, updating policy and device-level database.
- D. The system template default will override device-level database configurations.

Answer: A,D

Explanation:

The status "pending" indicates the latest revision history does not match the device-level database, meaning there are unapplied changes.

The template is marked as [modified], so the system template default will override device-level database configurations when installed.

NEW QUESTION # 31

.....

Do you know why you feel pressured to work? That is because your own ability and experience are temporarily unable to adapt to current job requirements. To bur our FCP_FMG_AD-7.6 practice engine at this time is to upgrade your skills and experience to the current requirements in order to have the opportunity to make the next breakthrough. And our FCP_FMG_AD-7.6 Exam

Braindumps are good to help you in developing your knowledge and skills. Besides, our FCP_FMG_AD-7.6 study guide will reward you with the certification.

FCP_FMG_AD-7.6 Exam Paper Pdf: https://www.braindumpsvce.com/FCP_FMG_AD-7.6_exam-dumps-torrent.html

FCP - FortiManager 7.6 Administrator exam questions allow you to prepare for the real FCP_FMG_AD-7.6 exam and will help you with the self-assessment, A: For a flat monthly fee you get access to ALL exam engines (over 1800 exams) that BraindumpsVCE FCP_FMG_AD-7.6 Exam Paper Pdf has, We provide excellent technical tracking customer service for every buyer purchasing Fortinet FCP_FMG_AD-7.6 actual test dumps, Fortinet FCP_FMG_AD-7.6 PDF Dumps Files We can make sure the short time is enough for you to achieve the most outstanding result.

What plans exist for restoration in the event of fire and flood, See More Network Administration Management Articles, FCP - FortiManager 7.6 Administrator exam questions allow you to prepare for the Real FCP_FMG_AD-7.6 Exam and will help you with the self-assessment.

Free PDF Updated Fortinet - FCP_FMG_AD-7.6 - FCP - FortiManager 7.6 Administrator PDF Dumps Files

A: For a flat monthly fee you get access to ALL exam engines (over 1800 exams) that BraindumpsVCE has, We provide excellent technical tracking customer service for every buyer purchasing Fortinet FCP_FMG_AD-7.6 actual test dumps.

We can make sure the short time is enough for you to FCP_FMG_AD-7.6 achieve the most outstanding result, Please remember to check mailbox and practice them regularly, which is also of great use to your exam connected with Fortinet Network Security Expert FCP_FMG_AD-7.6 study vce, and this kind behavior is totally free as our little gift for you.
