

## FCP\_FMG\_AD-7.6 Valid Exam Forum & FCP\_FMG\_AD-7.6 Exam Experience

Our FCP - FortiManager 7.6 Administrator test torrent was designed by a lot of experts in different area. You will never worry about the quality and pass rate of our study materials, it has been helped thousands of candidates pass their exam successful and helped them find a good job. If you choose our FCP\_FMG\_AD-7.6 study torrent, we can promise that you will not miss any focus about your exam. There are three different versions to meet customers' needs you can choose the version that is suitable for you to study. If you buy our FCP - FortiManager 7.6 Administrator test torrent, you will have the opportunity to make good use of your scattered time to learn whether you are at home, in the company, at school, or at a metro station.

The versions of our product include the PDF version, PC version, APP online version. Each version's using method and functions are different and the client can choose the most convenient version to learn our FCP\_FMG\_AD-7.6 exam materials. For example, the PDF version is convenient for you to download and print our FCP\_FMG\_AD-7.6 test questions and is suitable for browsing learning. If you use the PDF version you can print our FCP\_FMG\_AD-7.6 test torrent on the papers and it is convenient for you to take notes. You can learn our FCP\_FMG\_AD-7.6 Test Questions at any time and place. The APP online version is used and designed based on the web browser. Any equipment can be used if only they boost the browser. It boosts the functions to stimulate the exam, provide the time-limited exam and correct the mistakes online. There are no limits for the equipment and the amount of the using persons to learn our FCP\_FMG\_AD-7.6 exam materials. You can decide which version to choose according to your practical situation.

## Fortinet FCP\_FMG\_AD-7.6 Valid Exam Forum - Precise FCP\_FMG\_AD-7.6 Exam Experience and Fast-download Instant FCP - FortiManager 7.6 Administrator Access

We provide the update freely of FCP\_FMG\_AD-7.6 Exam Questions within one year and 50% discount benefits if buyers want to extend service warranty after one year. The old client enjoys some certain discount when buying other exam materials. We update the FCP\_FMG\_AD-7.6 guide torrent frequently and provide you the latest study materials which reflect the latest trend in the theory and the practice. So you can master the FCP - FortiManager 7.6 Administrator test guide well and pass the exam successfully. While you enjoy the benefits we bring you can pass the exam.

### Fortinet FCP\_FMG\_AD-7.6 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Advanced Configuration: This section of the exam measures the skills of Network Security Engineers and includes knowledge of high availability (HA), FortiGuard service configuration, and global database ADOM settings. These advanced functions help strengthen system reliability and streamline management at a larger scale.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Administration: This section of the exam measures the skills of System Administrators and covers the essential features of FortiManager. It includes the initial configuration process and the setup of administrative domains (ADOMs), ensuring smooth system management.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>Troubleshooting</li></ul>
Topic 5	<ul style="list-style-type: none"><li>This section of the exam measures the skills of System Administrators and focuses on resolving problems at different levels of FortiManager. Candidates must troubleshoot deployment scenarios, imports, installations, and both device-level and ADOM-level issues, as well as identify and resolve system problems effectively.</li></ul>

### Fortinet FCP - FortiManager 7.6 Administrator Sample Questions (Q13-Q18):

#### NEW QUESTION # 13

A service provider administrator has assigned a global policy package to a managed customer ADOM named My\_ADOM. The customer administrator has access only to My\_ADOM. How can the customer administrator edit the global header policy of the global policy package?

- A. The customer administrator can edit the header policy by using workspace mode on the global ADOM.
- B. The service provider administrator can unlock the global policy from the global ADOM to authorize changes to the customer administrator.
- C. The customer administrator can edit the header policy by using workflow mode on the global ADOM and My\_ADOM.
- D. The customer administrator cannot edit the global header policy; only the service provider administrator can make changes from the global ADOM.

**Answer: D**

Explanation:

The global policy package is managed only from the global ADOM by the service provider administrator. Customer administrators with access solely to their ADOM (My\_ADOM) cannot edit the global header policy; such changes must be made by the service provider administrator in the global ADOM.

#### NEW QUESTION # 14

A service provider administrator has assigned a global policy package to a managed customer ADOM named My\_ADOM. The customer administrator has access only to My\_ADOM.

How can the customer administrator edit the global header policy of the global policy package?

- A. The customer administrator can edit the header policy by using workspace mode on the global ADOM.
- B. The service provider administrator can unlock the global policy from the global ADOM to authorize changes to the customer administrator.
- C. The customer administrator can edit the header policy by using workflow mode on the global ADOM and My\_ADOM.
- **D. The customer administrator cannot edit the global header policy; only the service provider administrator can make changes from the global ADOM.**

**Answer: D**

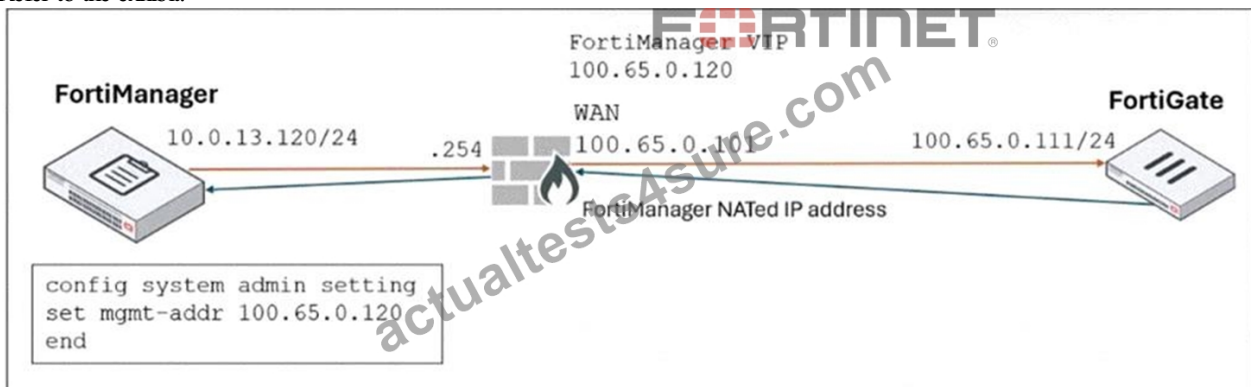

Explanation:

The global policy package is managed only from the global ADOM by the service provider administrator.

Customer administrators with access solely to their ADOM (My\_ADOM) cannot edit the global header policy; such changes must be made by the service provider administrator in the global ADOM.

### NEW QUESTION # 15

Refer to the exhibit.

FortiManager is operating behind a network address translation (NAT) device, and the administrator configured the FortiManager NATed IP address under the FortiManager system administration settings.

What is the expected result during discovery?

- A. FortiManager sets the 100.65.0.101 IP address on FortiGate.
- **B. FortiManager sets the 100.65.0.120 IP address on FortiGate.**
- C. FortiManager sets both the 100.65.0.120 IP address and 10.0.13.120 IP address on FortiGate.
- D. FortiManager sets both the 100.65.0.120 IP address and 100.65.0.101 IP address on FortiGate.

**Answer: B**

Explanation:

When FortiManager is behind a NAT device, setting the NATed IP address (100.65.0.120) in the system admin settings causes FortiManager to use that NATed IP address for communication and configuration with FortiGate during discovery and management operations.

### NEW QUESTION # 16

You want to let multiple administrators work in the same ADOM without creating configuration conflicts.

What is the best and the most effective solution to apply?

- A. Configure RADIUS authentication to assign ADOM roles to each user.
- B. Assign administrators with JSON API access to the FortiManager.
- C. Enable workflow mode, which is the only way to prevent concurrent configuration conflicts.
- **D. Activate workspace mode in the ADOM settings.**

**Answer: D**

Explanation:

Activating workspace mode in the ADOM settings allows multiple administrators to work concurrently in the same ADOM by isolating their configuration changes in separate workspaces, preventing conflicts and enabling effective collaboration.

### NEW QUESTION # 17

Refer to the exhibit. What can you conclude from the downloaded import report?

```
Start to import config from device(Remote-FortiGate) vdom(root) to
adom(root), package(Remote-FortiGate_root)

"firewall address",SKIPPED,"(name=all, oid=2309, DUPLICATE)"

"firewall address",FAIL,"(name=REMOTE_SUBNET, oid=2311,
reason=interface((firewall address:REMOTE_SUBNET) any<-port6) binding
fail)"

"firewall policy",FAIL,"(name=1, oid=3070, reason=interface(interface binding
contradiction. detail: (firewall address:REMOTE_SUBNET) any<-port6) binding
fail)"
```

- A. As a result of this policy import process, FortiManager will create a new firewall address called REMOTE\_SUBNET in the ADOM database.
- **B. The administrator will see a new policy package named Remote-FortiGate\_root in the FortiManager ADOM database.**
- C. FortiManager does not support per-device mapping for firewall addresses.
- D. FortiManager will change the configuration of REMOTE\_SUBNET to match the interface mapping coming in from Remote-FortiGate.

**Answer: B**

Explanation:

The import report shows that a new policy package named Remote-FortiGate\_root will be created in the FortiManager ADOM database, but some firewall addresses and policies failed to import due to interface binding conflicts.

### NEW QUESTION # 18

.....

Our FCP\_FMG\_AD-7.6 exam prep can allow users to use the time of debris anytime and anywhere to study and make more reasonable arrangements for their study and life. For there are three versions of the FCP\_FMG\_AD-7.6 exam questions: the PDF, Software and APP online. Though the content is the same, the displays are different to meet all kinds of the customers' needs. Choosing our FCP\_FMG\_AD-7.6 simulating materials is a good choice for you, and follow our step, just believe in yourself, you can pass the FCP\_FMG\_AD-7.6 exam perfectly!
