

# FCP\_GCS\_AD-7.6 Latest Demo & Realistic Free PDF Quiz 2025 Fortinet Vce FCP - Google Cloud Security 7.6 Administrator Format

Dreaming to be a certified professional in this line? Our FCP\_GCS\_AD-7.6 study materials are befitting choices. We made real test materials in three accessible formats for your inclinations. (PDF, APP, software). Our website is an excellent platform, which provides the questions of these versions of our FCP\_GCS\_AD-7.6 Exam Questions compiled by experts. By browsing this website, all there versions of our FCP\_GCS\_AD-7.6 practice engine can be chosen according to your taste or preference.

Dear everyone, you can download the FCP\_GCS\_AD-7.6 free demo for a little try. If you are satisfied with the FCP\_GCS\_AD-7.6 exam torrent, you can make the order and get the latest FCP\_GCS\_AD-7.6 study material right now. Our FCP\_GCS\_AD-7.6 training material comes with 100% money back guarantee to ensure the reliable and convenient shopping experience. The accurate, reliable and updated Fortinet FCP\_GCS\_AD-7.6 study torrent are compiled, checked and verified by our senior experts, which can ensure you 100% pass.

## Perfect Fortinet FCP\_GCS\_AD-7.6 Latest Demo & Authoritative Itcerttest - Leading Provider in Qualification Exams

It is certain that the pass rate among our customers is the most essential criteria to check out whether our FCP\_GCS\_AD-7.6 training materials are effective or not. The good news is that according to statistics, under the help of our training materials, the pass rate among our customers has reached as high as 98% to 100%. And you can prepare for your FCP\_GCS\_AD-7.6 Exam with under the guidance of our training materials anywhere at any time. Just take action to purchase we would be pleased to make you the next beneficiary of our FCP\_GCS\_AD-7.6 exam practice.

## Fortinet FCP - Google Cloud Security 7.6 Administrator Sample Questions (Q14-Q19):

### NEW QUESTION # 14

A cloud administrator has been receiving reports of slow response times from users accessing their organization's web application, which is protected by FortiWeb Cloud.

Which two steps can be taken to potentially alleviate the problem? (Choose two.)

- A. Deploying FortiWeb Cloud in the same region where the web application is hosted.
- B. Adding additional passthrough load balancers.
- C. Changing the DNS records to point to the web application.
- D. Enabling the content delivery network (CDN).

**Answer: A,D**

Explanation:

Deploying FortiWeb Cloud closer to the web application reduces latency and improves response times. Enabling CDN caches content closer to users, reducing load times and speeding up content delivery.

#### NEW QUESTION # 15

Refer to the exhibit.

An administrator is troubleshooting network connectivity issues between two VMs deployed in Google Cloud. One VM is a FortiGate located in the subnet "wan" that is part of the VPC "e-commerce". The other VM is a Windows server located in subnet "servers", which is also in the "e-commerce" VPC. What are two reasons you cannot ping the Windows server from FortiGate? (Choose two.)

- A. The Windows firewall is blocking the traffic.
- B. The default Google Cloud firewall policy does not allow this traffic.
- C. Add a Google Cloud firewall rule to allow ICMP traffic inbound to the Windows firewall VM.
- D. ICMP traffic is blocked between Google Cloud subnets by default.

**Answer: A,C**

Explanation:

Google Cloud firewall rules are stateful and, by default, do not allow ICMP traffic; you must explicitly allow ICMP inbound traffic to the Windows VM.

The Windows VM's own firewall might block ICMP traffic, preventing ping responses.

#### NEW QUESTION # 16

Refer to the exhibit.

#### Diagnose output

```
passive # diagnose debug application gcpd -1
passive # diagnose debug enable

...
passive # HA event
[pid 9000]: cluster-ip-vpm(34.68.13.24) is attached in remote instance: us-central1-c/fgt-vpm, should be moved to local
[pid 9000]: failover eip: cluster-ip-vpm(34.68.13.24)
[pid 9000]: get nics info for instance fgt-vpm
[pid 9000]: get instance nic: nic0, 172.16.0.2, vpc-vpm, accessConfig(external-nat), eip(34.68.13.24), tier(PREMIUM)
[pid 9000]: get instance nic: nic1, 172.16.1.2, vpc2-vpm
[pid 9000]: get instance nic: nic2, 172.16.2.2, vpc3-vpm, accessConfig(external-nat), eip(34.66.4.139), tier(PREMIUM)
[pid 9000]: nic0 of instance fgt-vpm is using eip 34.68.13.24
[pid 9000]: remove eip 34.68.13.24 from instance fgt-vpm(nic0).
gcpd checking route: internal-route-vpm
failover route: internal-route-vpm, move next hop from 172.16.1.2 to 172.16.1.3
[pid 9004]: failover route: internal-route-vpm
[pid 9004]: remove route internal-route-vpm on next hop 172.16.1.2
gcpd checking forwardrule: fgt-forwarding-rule
failover forwardrule: fgt-forwarding-rule, move target from fgt-target-vpm to fgt-target2-vpm
[pid 9006]: failover forwardrule: fgt-forwarding-rule
[pid 9006]: set target forwardrule fgt-forwarding-rule point to target instance fgt-target2-vpm
[pid 9004]: route internal-route-vpm is updated to next hop 172.16.1.3 successfully.
[pid 9000]: attach eip 34.68.13.24 to instance fgt-2-vpm(nic0).
[pid 9000]: eip cluster-ip-vpm(34.68.13.24) is attached to local successfully.
[pid 9006]: forwardrule fgt-forwarding-rule is updated to next hop fgt-target2-vpm successfully.
==== gcpd ha failover exit ====
```

An administrator is troubleshooting an issue when a high-availability (HA) failover occurs.

Which conclusion can you draw from the debug output?

- A. Both cluster members are located in the same zone.
- B. The health check has successfully updated the internal custom route to forward all internal traffic to 172.16.1.3.
- C. The HA cluster is accessible using HTTPS on 34.68.13.24 and 34.66.4.139.
- D. The HA cluster is deployed using the software-defined network (SDN) connector.

#### Answer: B

Explanation:

The debug output shows the internal route being updated and moved to the new next hop (172.16.1.3), indicating the health check and failover process successfully redirected internal traffic to the active HA node.

#### NEW QUESTION # 17

An administrator wants to use the FortiGate automation stitch feature to quarantine compromised hosts.

Which native Google Cloud service should the administrator integrate with FortiGate to achieve this?

- A. Google Cloud Run functions
- B. Google Cloud IAM
- C. Google Cloud App\_Engine
- D. Google Cloud Interconnect

#### Answer: A

Explanation:

Google Cloud Run allows you to run serverless containerized functions that can be triggered by FortiGate automation stitches to perform actions such as quarantining compromised hosts. It is the native service best suited for automating responses in cloud environments.

#### NEW QUESTION # 18

Your organization is deciding between deploying FortiGate active-passive high-availability (HA) in Google Cloud using either the software-defined network (SDN) connector or load balancers.

What two reasons should your organization choose the SDN connector over the load balancer deployment?  
(Choose two.)

- A. There is less administrative overhead.
- B. The SDN connector supports multizone failover.

- C. Cost is lower.
- D. Failovers are faster because of API calls.

**Answer: A,C**

Explanation:

Using the SDN connector avoids additional load balancer costs, making it more cost-effective.

The SDN connector enables multizone failover by directly managing network routing, which load balancers do not inherently support.

## NEW QUESTION # 19

.....

Before joining any platform, the Fortinet FCP\_GCS\_AD-7.6 exam applicant has a number of reservations. They want FCP\_GCS\_AD-7.6 Questions that satisfy them and help them prepare successfully for the FCP\_GCS\_AD-7.6 exam in a short time. Studying with Fortinet FCP\_GCS\_AD-7.6 Questions that aren't real results in failure and loss of time and money. The Itcerttest offers updated and real Fortinet FCP\_GCS\_AD-7.6 questions that help students crack the FCP\_GCS\_AD-7.6 test quickly.

**Vce FCP\_GCS\_AD-7.6 Format:** [https://www.itcerttest.com/FCP\\_GCS\\_AD-7.6\\_braindumps.html](https://www.itcerttest.com/FCP_GCS_AD-7.6_braindumps.html)

Fortinet FCP\_GCS\_AD-7.6 Latest Demo You must ensure that you master them completely, If you choose our FCP\_GCS\_AD-7.6 study torrent as your study tool and learn it carefully, you will find that it will be very soon for you to get the FCP - Google Cloud Security 7.6 Administrator certification in a short time, These features make your Fortinet Vce FCP\_GCS\_AD-7.6 Format Exam Vce FCP\_GCS\_AD-7.6 Format - FCP - Google Cloud Security 7.6 Administrator test preparation process simple and quick, Exam Description.

This interviewer is concerned with effective human interaction, FCP\_GCS\_AD-7.6 Key Concepts Consequences for component vendors, You must ensure that you master them completely, If you choose our FCP\_GCS\_AD-7.6 study torrent as your study tool and learn it carefully, you will find that it will be very soon for you to get the FCP - Google Cloud Security 7.6 Administrator certification in a short time.

## Salient Features of Desktop Fortinet FCP\_GCS\_AD-7.6 Practice Tests Software

These features make your Fortinet Exam FCP - Google Cloud Security 7.6 Administrator FCP\_GCS\_AD-7.6 test preparation process simple and quick, Exam Description, Besides, the quality of FCP\_GCS\_AD-7.6 exam dumps is high, they contain both questions and answers, and you can practice first before seeing the answers.
